
BTL EPC LTD.

BUILDING FOR INDIA
BANKING ON INDIA

BTL EPC LIMITED | ANNUAL REPORT 2024-25

Building for India. Banking on India.

Empowering Infrastructure.
Enabling Progress.

BTL EPC Limited stands among India's fastest-growing heavy engineering EPC companies, delivering integrated solutions across the core sectors of powering India's economy.

From complex project execution to precision-engineered fabrication, BTL EPC plays a pivotal role in India's industrial transformation.

Our investments in technology, talent, and infrastructure validate our commitment to India's growth ambition and infrastructure revolution.

Contents

PART ONE

What we are and What we do

Coal handling plant at Yadadri, Telangana

Our vision

To be the engineering partner of choice in India's infrastructure journey of value through innovation, precision, and excellence in every project we undertake.

Our mission

To consistently deliver high-quality, on-time projects that strengthen India's industrial foundation.

Corporate **snapshot**

BTL EPC LIMITED is an attractive proxy of India's heavy engineering solutions sector.

BTL EPC Limited is an established multi-decade player in India's heavy engineering solutions sector.

The Company leverages five decades of experience to deliver end-to-end engineering solutions - from design and planning to precision fabrication and on-site execution.

The Company services the growing critical equipment needs of India's power, mining, fertiliser, and metal sectors, empowering them to scale and address an unprecedented national opportunity.

The Company is respected for embracing challenging assignments, completing all projects engaging in timely projects handover, high project quality benchmark and a culture of continuous improvement.

By accelerating the building of national infrastructure and catalysing national progress, we are engaged in doing two things.

Building for India. Banking on India.

Our leadership

BTL EPC Limited, the engineering arm of the Kolkata-based Shrachi Group, was founded in 1965 by the visionary Mr. S.K. Todi. Originally established as Bengal Tools Limited, the Company evolved into a diversified EPC contracting firm with a rich legacy in engineering excellence.

Today, the business is managed by Mr. Ravi Todi, Promoter and Managing Director, with over 31 + years of experience across various business domains, Mr. Todi has been instrumental in shaping the Group's trajectory. An alumnus of St. Xavier's College, Kolkata, he deepened his leadership acumen through the Owner President Management Program (OPM) at Harvard Business School.

Our heritage

BTL EPC is a dynamic, multidisciplinary engineering, procurement, and construction company. Its engineering division encompasses capabilities in project execution, as well as the manufacture of precision-engineered products and process equipment for a range of downstream industries. Since venturing into the EPC sector in 2006, the Company has witnessed attractive growth, securing new opportunities and expanding its technical and operational capabilities.

The promoter's legacy of innovation, integrity, and excellence remains our guiding force. Under the dynamic leadership of Mr. Ravi Todi, we are building on this foundation to scale new heights in engineering excellence, delivering critical components for infrastructure projects in India and beyond.

Our infrastructure and strategic presence

With five state-of-the-art manufacturing units in West Bengal and a pan-India presence, we are strategically positioned near industrial hubs, raw material sources, and talent clusters. This provides us with a strong logistical edge and enhances our execution capabilities.

Our design and engineering teams are backed by advanced infrastructure, cutting-edge technology, and over 150 experienced project management professionals. We operate modern machine shops equipped with precision grinding, heat treatment, and full-scale fabrication facilities, including sheet metalwork. This robust setup empowers us to deliver a wide range of high-quality products for diverse downstream industries.

Our manufacturing units are located in Kolkata (three), Durgapur Steel city (one) and Kharagpur (one). These units are supported by a nationwide vendor network of 70+ vendor-partners, ensuring seamless materials procurement and timely projects completion.

Our agro-assembly units are present in Kolkata, Hyderabad, Cuttack, Faridabad, Guwahati, Trichy, and Bangalore, with branch offices in Kolkata, Guwahati, Cuttack, Hyderabad, Faridabad, and Lucknow.

Our collaborations

BTL EPC enjoys strong international linkages that help draw global expertise into projects. The Company partnered overseas firms to access advanced engineering practices, project management capabilities, and cutting-edge technologies.

The Company's international collaborators comprise Far Eastern Power Engineering Plant, VUKhIN Russia, Dalenergomash, HBE Press, Dearborn Mid-West Conveyor Company and Consarc Engineering.

Our workforce

BTL EPC is driven by a skilled and experienced workforce across its manufacturing and EPC operations, making it a trusted player in the heavy engineering solutions sector. The total employee strength stood at 720, with an average employee age of 31 years.

Coal handling plant at BHEL, Udangudi, Tamil Nadu

47m (154 feet) process column for Indian Oil Corporation, Guwahati

Our marquee **clients**

We are proud to serve India's leading public and private enterprises, powering the nation's growth across energy, infrastructure, mining, and manufacturing.

Bharat Heavy Electricals Limited: A Maharatna PSU, the Company is India's largest engineering and manufacturing company in the energy and infrastructure sectors with strong EPC capabilities. It offers end-to-end services for power projects and is expanding into non-conventional energy and digital technologies.

National Thermal Power Corporation: A Maharatna PSU under the Ministry of Power, the Company is India's largest power utility with a diverse portfolio of thermal, hydro, solar, and wind projects. It is central to the country's energy supply and is targeting 60 GW of renewable capacity by 2032 as a part of its green transition commitment.

Adani Power Limited: APL is the largest private thermal power producer in India and a part of the Adani Group. As of mid 2025, its operational capacity was around 15,250–17,550 MW, spread across thermal plants in Gujarat, Maharashtra, Karnataka, Rajasthan, Chhattisgarh, Madhya Pradesh, Jharkhand, and Tamil Nadu. The Company intends to expand to 42,000 MW by 2032.

Coal India Limited: A Maharatna PSU under the Ministry of Coal, the Company is the world's largest coal producer, contributing over 80% of India's coal output. Operating through eight subsidiaries, it plays a vital role in energy security, while advancing sustainable and digital mining practices.

Steel Authority of India Limited: A Maharatna PSU under the Ministry of Steel, the Company is one of India's largest steel producers with integrated plants across the country. It plays a key role in sectors like infrastructure, defense, and railways, while focusing on modernisation and capacity growth.

Indian Oil Corporation Limited (IOCL): India's largest oil refining and marketing company, IOCL operates across the entire hydrocarbon value chain. It plays a vital role in the nation's energy security, supplying fuel, lubricants, and petrochemicals.

Numaligarh Refinery Limited: A public sector refinery located in Assam, known for its eco-friendly operations. It processes crude oil into high-value petroleum products for Northeast India and beyond.

Brahmaputra Cracker and Polymer Limited: A central PSU engaged in producing polymers from natural gas in Assam. It operates a petrochemical complex in Lepetkata, providing a boost to the region's industrial development. BCPL is a subsidiary of GAIL (India) Ltd.

Oil and Natural Gas Corporation Limited: India's largest oil and gas exploration and production company. It plays a critical role in meeting the country's energy demands through offshore and onshore fields. ONGC is actively involved in energy transition through renewable and alternate energy projects.

Neelachal Ispat Nigam Limited: Under Tata Steel long products, the Company is being revived to enhance steel production. Located in Odisha, it focuses on integrated steel manufacturing and raw material optimisation.

Krishak Bharati Cooperative Limited (KRIBHCO): A national-level Indian cooperative society founded in 1980 by the Government of India. It is primarily engaged in the production and distribution of agricultural inputs, with a focus on fertilisers, and operates major production facilities in Hazira, and Shahjahanpur. KRIBHCO aims to empower the farmer community by providing quality agricultural products.

Bhabha Atomic Research Centre: India's premier nuclear research facility under the department of atomic energy. It pioneers research in nuclear science, reactors, and isotope technologies. BARC also works in multidisciplinary areas like water treatment, agriculture, and healthcare.

Larsen & Toubro: Major Indian multinational in engineering, construction, and manufacturing. It offers turnkey solutions across the infrastructure, power, defense, and hydrocarbons sectors. Renowned for its execution strength, L&T is a trusted EPC partner for large-scale projects.

National Aluminium Company Limited (NALCO): A Navratna PSU under the Ministry of Mines, the Company is a leading producer of alumina and aluminum with integrated operations from mining to power generation. It enjoys a strong export footprint and is committed to sustainability, renewable energy, and circular economy initiatives.

Damodar Valley Corporation Limited: Jointly owned by the Government of India and the States of Jharkhand and West Bengal, the Company is a key power utility in eastern India. It operates thermal and hydel plants while supporting flood control, irrigation, and grid modernisation in the Damodar valley region.

Hindustan Urvarak and Rasayan Limited (HURL): A joint venture company of Coal India Limited, NTPC Limited and Indian Oil Corporation Limited as lead promoters with Fertiliser Corporation of India Limited and Hindustan Fertiliser Corporation Limited as other partners.

Talcher Fertilisers Limited: A joint venture company established to revive the closed Talcher plant in Odisha. It is India's first coal gasification-based fertiliser project, aimed at producing urea while reducing a dependence on imported natural gas.

JMS Mining Private Limited: JMS Mining is among India's leading underground coal mining service providers. The Company specialises in mine development and contract mining; it deployed of advanced technologies to ensure safe, efficient, and sustainable coal extraction.

Ash handling plant for BHEL, Yadadri, Telangana

Its operations play a crucial role in supporting the country's energy security.

Ordnance Factory, Ambajhari (OFAJ): Located in Nagpur, it is a major defense manufacturing facility. Engaged in the production of ammunition, explosives, and ordnance equipment to support India's armed forces.

Power Transmission Corporation of Uttarakhand Limited (PTCUL): A State-owned entity responsible for managing and strengthening the power transmission network in Uttarakhand. It ensures reliable electricity supply across the state through the development, operation, and maintenance of high-voltage transmission systems. The corporation plays a key role in integrating renewable energy projects into the State's grid.

Tata Steel Limited: A flagship company of the Tata Group, the Company is one of the world's largest steel producers with a strong global presence. It has been a pioneer in adopting sustainable steel production practices and technological innovations.

Jharkhand Urban Infrastructure Development Company Limited (JUIDCO): JUIDCO is a government-owned enterprise tasked with planning, developing, and implementing urban infrastructure projects in Jharkhand. Its focus areas include water supply, sanitation, housing, and other essential civic amenities.

Indu Projects Limited (INDU): The Company is a diversified infrastructure and real estate company. Its operations cover energy, power plants, coal mining, roads, railways, and property development. The Company is known for delivering large projects across multiple sectors.

UltraTech Cement Limited: India's largest producer of grey cement, white cement, and ready-mix concrete. It operates an extensive network of plants and terminals across India and overseas.

Our consultants

Engineers India Limited: A leading engineering consultancy and EPC firm under the Ministry of Petroleum and Natural Gas, specialising in refineries, petrochemicals, and infrastructure projects in India and abroad.

Thyssenkrupp: A German engineering company providing technology and EPC services in chemicals and mining, with a strong turnkey project presence in India.

Worley: A global EPC firm headquartered in Australia, delivering sustainable solutions in hydrocarbons, chemicals, and power, with Worley India driving major industrial and energy projects.

Mecon: A Government of India enterprise, that provides end-to-end engineering and consultancy services across metals, power, oil & gas, and infrastructure sectors.

SAIL Centre for Engineering and Technology (CET): The in-house design and consultancy arm of SAIL, CET provides engineering, design, and project management services for steel plant modernisation, expansion, and external steel sector projects.

Technip: A global engineering leader in energy transition, offering FEED, EPC, and PMC services for refineries, petrochemicals, and hydrogen projects in India.

Toyo Engineering: A subsidiary of Japan's Toyo, providing EPC and consultancy services in hydrocarbons, chemicals, fertilisers, and infrastructure, combining Japanese quality with Indian execution.

Development Consultants Private Limited: A leading Indian engineering consultancy, that provides planning, design, and project management for power, steel, cement, and urban infrastructure projects.

Praj Industries: A process engineering company specialising in bioenergy, ethanol, and wastewater treatment, offering sustainable fuel and environmental solutions with a global focus on clean energy.

Projects and Development India Limited: A Government of India enterprise, that provides design, engineering, and consultancy services for fertiliser, chemical, and allied process industries, supporting domestic and international projects.

M N Dastur: M N Dastur & Company (P) Ltd. is a leading engineering consultancy firm in India, specialising in metallurgical, power, and infrastructure sectors. It provides end-to-end services in project planning, design, and implementation for steel plants and industrial projects globally

Fitchner: Fichtner India is a subsidiary of the German engineering and consultancy group Fichtner GmbH. It offers comprehensive engineering, procurement, and project management services across power, renewable energy, water, and infrastructure sectors.

Steag: Steag is an engineering and project management firm known for providing consultancy and execution services in steel, power, and industrial projects. The company focuses on delivering customised solutions from concept to commissioning.

Water Management

Our business: **Ash Handling Division**

Ash handling plant at Yadadri, Telangana

Overview

The ash handling division at BTL EPC Ltd. focuses on providing turnkey solution for the collection, transportation, and disposal of ash generated in coal-based thermal power plants. As emission norms tighten and demand for efficient ash disposal systems grows, the division plays an increasingly important role in diversifying BTL's project portfolio, strengthening its technical credentials and expanding its market presence across private and public sector opportunities. Key projects include YADADRI – TSGENCO and Adani Power, Raigarh. The Company anticipates a gradual improvement in margins over the coming years as experience and operational efficiencies grow. The spares business where BTL EPC operates as an Original Equipment Manufacturer (OEM) offers higher margins of 20% to 30%.

Strengths

BTL EPC's presence in the ash handling segment is supported by key strengths:

- Experienced engineers with a domain expertise in ash handling systems.
- Robust in-house engineering and design capabilities.
- Access to a network of reliable vendors.
- In-house manufacturing facilities that ensure cost effectiveness and quality.

Policy

In alignment with national priorities, the government policies for the ash handling business aim to boost environmental sustainability and ensure effective fly ash disposal from coal and lignite-based thermal power plants (TPPs) in eco-friendly manner, enabling utilisation. Key measures include mandating 100% fly ash utilisation over a three-year cycle, with at least 80% to be achieved annually; non-compliance attracts a penalty of ₹1,000 per tonne. The policy supports micro and small enterprises by requiring TPPs to reserve and supply fly ash to them at concessional rates or via limited auctions for use in manufacturing ash-based products.

Growth

The ash handling division at BTL EPC Ltd. demonstrated momentum in FY 2024–25, marked by a strategic breakthrough in the form of a ₹185 Crore EPC order for Adani's Raigarh thermal power project (2X800 MW). This order not only reinforces BTL's credibility but also positions the Company to qualify independently for high-value tenders without technical collaborators.

Highlights, FY 2024-25

- Engineering activities for the project are progressing satisfactorily.
- Successful execution of this project is expected to strengthen BTL EPC's qualifications, empowering its participation in similar tenders without any collaboration.
- Data-centric predictive analysis.
- Currently executing 5X800 MW Thermal Power Station at Yadadri, Telengana and 2x800 MW thermal power station for Adani in Raigarh, Chhattisgarh.

Challenges and mitigations

Limited sector-specific experience: Limited prior experience in ash handling made it difficult for BTL EPC to qualify independently for certain tenders.

Mitigation: The Company undertook aggressive marketing to seek a relaxation in some pre-qualification criteria from clients and explore possibilities of tie-ups.

Constraints in securing qualified collaboration partners: There is limited availability of qualified collaborator / consortium partners.

Mitigation: The Company collaborated with a world renowned ash handling company namely United Conveyor Corporation LLP,USA.

High Concentration Slurry Disposal (HCSD) pump at YADADRI

Our business: **Bulk Material Handling Division**

Overview

Bulk Material Handling Systems

The Company entered in bulk material handling in the 1980s and provides turnkey solutions from design to commissioning for industries like steel, power, oil & gas, cement, mining, metallurgy and minerals. Its offerings include conveyors, paddle feeders, hoists, and related equipment, delivering end-to-end systems for coal, iron ore, and other minerals, including conveying, crushing, and stacking for power, steel plants, fertilisers and process plant.

Key elements of Bulk Material Handling system

- **Conveying equipment:** Belt conveyors, screw conveyors, pipe conveyor.
- **Storage solutions:** Silos, hoppers, stockyards.
- **Feeding and discharge equipment:** Feeders, stackers, reclaimers, ship loaders/unloaders.
- **Auxiliary systems:** Dust suppression, weighing, sampling, and automation.

Bulk Material Handling systems are widely used in:

- **Mining and minerals:** Handling of iron ore, bauxite, limestone, coal, etc.
- **Power plants:** Coal handling systems for thermal power stations.
- **Steel :** Raw material handling systems, slag handling system.
- **Ports and terminals:** Ship loading/unloading of coal, fertiliser, grain, etc.
- **Fertiliser :** Urea baggage handling.

Project milestones

- Total 45+ projects completed valued around 1500 Crore+
- Total 20+ projects Ongoing valued around 4500 Crore+

Projects

- Coal handling plant, BIFPCL Bangaldesh Maitree
- Raw material handling plant, SAIL-DSP, West Bengal
- Pet coke handling system, IOCL-Paradip, Odisha
- EPC for urea bag handling and wagon loading system, HURL-Sindri, Jharkhand and Barauni, Bihar
- Coal handling plant and Wagon tippler package NBPPL 1X500 MW Unchahar, Uttar Pradesh
- Coal handling plant, Ennore SEZ, Tamil Nadu
- Coal handling plant, Sagardighi, WBPDCL (A/C BHEL), West Bengal
- Urea handling and bagging package from Talcher Fertilisers Ltd., Odisha
- Udangudi main CHP Conveyor Package, Tamil Nadu
- Main conveyor package (CHP, LHP and GHP), Talcher TPP, Stage-III, Odisha
- Coal handling plant of NTPC Lara, Chhattisgarh
- AHP and CHP, Adani Raigarh, Chhattisgarh
- Coal handling, Lime Stone and Gypsum Handling Plant, Yadadri 5x800MW power plant, TSGENCO, Telengana
- Ash handling plant package from BHEL, Yadadri, Telengana
- Coal handling plant, NTPC Pakri, Bihar
- Coal handling plant, NTPC Talaipalli, Chhattisgarh
- Coal handling plant, NTPC Sipat, Chhattisgarh

We have demonstrated a commitment to embrace challenging projects and outperform

National Thermal Power Corporation (NTPC)-Pakri project

The challenging NTPC-Pakri project

Reality: This was BTL EPC's first direct large order from NTPC worth ₹268 Crore. The location of the project was marked by law-and-order issues and political sensitivities. The project posed operational and logistical challenges on account of extensive civil works, structural steel fabrication, and complex mechanical, electrical, control cum instrumentation and utility systems integration.

Activity: BTL EPC aggregated a strong team. The team charted out sequential processes. The project comprised the design and execution of the mechanical transport and loading arrangement from TP-10 (existing NTPC facility) to Banadag railway siding. BTL EPC conducted end-to-end EPC activities (civil construction, structural fabrication, mechanical and electrical systems, equipment erection, cabling, instrumentation, and commissioning).

Overcome: BTL EPC ensured milestoned progress through effective site management and ongoing stakeholder engagement. The project was completed successfully without any delay. NTPC appreciated BTL EPC's performance, positioning the latter as a preferred EPC partner.

Bharat Heavy Electricals Limited (BHEL)-Maitree project

The BHEL-Maitree project

Reality: The BHEL-Maitree Project comprises a coal handling system for the 2x660 MW at Rampal in Khulna, Bangladesh, owned by Bangladesh-India Friendship Power Company Ltd. This was BTL EPC's first EPC project outside India, a milestone. The project encountered challenges due to international statutory compliances, political instability, and related delays that translated into cost overruns.

Activity: BTL EPC was awarded the project by BHEL-ISG to execute mechanical, electrical, control instrumentation, and auxiliary utility systems. The scope involved full-scale EPC execution in a cross-border setting, requiring detailed coordination with foreign stakeholders and regulatory bodies. BTL EPC ensured compliance, design integrity, and implementation standards in line with BHEL and BIFPCL requirements.

Overcome: Despite statutory hurdles, political unrest, as well as time and cost overruns, BTL EPC completed the project. The plant has been in commercial operation for over two years. The project established BTL EPC credentials as a capable regional EPC contractor, extending its footprint beyond India.

Adani-Raigarh CHP and AHP projects

Reality: BTL EPC was awarded the coal handling plant and ash handling plant contracts by Adani Power, its first major engagement with a private sector power giant. This project signified a strategic policy shift for BTL EPC from working exclusively with PSUs to engaging with private players.

Activity: The scope included complete EPC execution of coal handling and ash handling plants systems, including structural, civil, mechanical and electrical. BTL EPC achieved full structural and civil design-engineering for both projects within the first five months. This rapid design progress set the tone for streamlined project execution.

Overcome: BTL EPC overcame the typical bottlenecks of delayed design and sluggish project commencement common in Indian EPC projects by accelerating the engineering phase. This helped establish a robust execution momentum; and both projects are progressing at full pace. The project highlights BTL EPC's adaptability and capability in fast-paced private sector projects.

Adani-Raigarh CHP and AHP projects

Coal handling plant for BHEL, Yadadri, Telangana

Our business: **Coal Chemical Division**

Overview

The Company delivers turnkey coal chemical handling solutions, including coal blending, feeding, and specialised chemical plant units. It offers EPC services and key components for coke oven by-product recovery, managing materials like coal tar, ammonium sulfate and benzol, and supports chemical processing with equipment such as agitator tanks, distillation columns, condensate tanks, decanters, storage tanks and pressure vessels.

The Coal Chemical Division (CCD) is a critical auxiliary unit of an integrated steel plant, primarily associated with the operation of coke ovens. During the carbonisation of metallurgical coal in coke oven batteries, various volatile compounds are released along with raw coke oven gas (COG). The role of the Coal Chemical Division is to recover, process, and utilise these coal chemicals while purifying coke oven gas for efficient and clean use across the plant.

Core functions of Coal Chemical Division

- **Coke oven gas treatment:** Cooling, cleaning, and purifying COG.
- **By-product recovery:** Extraction of tar, ammonia, benzol, and other chemicals.
- **Utility supply:** Providing clean gas as fuel to coke ovens, rolling mills, furnaces, and power plants.

Project milestones

- Total 10+ projects completed valued around 500 Cr+
- Total 5+ projects Ongoing valued around 200 Cr+

Projects

- Benzol absorption and Distillation plant at SAIL-DSP, West Bengal
- Ammonium sulphate plant at SAIL Bokaro, Jharkhand and Vizag Steel, Andhra Pradesh
- Byproduct plant at SAIL-Bhilai, Chhattisgarh
- Electric exhauster at SAIL Bokaro, Jharkhand
- De-nitration plant at HWB BARC, Chennai, Tamil Nadu

Ammonium sulphate plant for SAIL, Bokaro, Jharkhand

Our business: **Strategic Business Division**

Overview

Our solutions include coal washing plants, ore beneficiation plants, utilities and balance of steel plants, industrial furnaces for heating and melting, and electrostatic precipitators.

Projects

- 10T ESR at MSF Ichapur, West Bengal
- Hydraulic forging press for steel complex ofAJ Ambazari, Maharashtra
- 3 MW solar plant at MES Panagarh, West Bengal

Hydraulic press for OFAJ, Ambazari, Maharashtra

Our business: **Power Transmission Division**

Overview

This division executes EPC projects for transmission towers to address the rising demand for new power evacuation lines. It serves PGCIL (Power Grid Corporation of India Limited), State Electricity Boards, and private players like Tata, L&T, and Sterlite, covering lines from 132 KV to 1100 KV and associated substations.

Projects

- Power transmission Corporation of Uttarakhand Limited, 220 KV D/C & 132 KV transmission line
- 132 kV D/C Transmission line on Panther conductor from Pithoragarh (PGCIL) to Champawat (Lohaghat) in Uttarakhand
- Himachal Pradesh Power Transmission Corporation Limited- 33 KV D/C transmission

Power transmission project, Uttarakhand

Our business:
Water Management Division

Septage plant at JUIDCO, Deogarh, Jharkhand

Overview

The water management division of BTL EPC delivers comprehensive solutions for water and wastewater treatment. This division plays a key role in executing standalone water projects and integrating water systems within larger industrial and infrastructure EPC contracts. It serves public and private sector clients, ensuring a compliance with environmental norms and promoting sustainable practices. Key clients include Jal Jeevan Mission in Assam, Jharkhand Urban Infrastructure Development Company Limited, NTPC Talcher and DVC, Bokaro. These solutions include coal washing plants, ore beneficiation plants, utilities and balance-of-steel plants, industrial furnaces for heating and melting, and electrostatic precipitators. The water management division is crucial to BTL EPC's growth strategy, contributing to revenue diversification, enhancing its ESG performance, and addressing the growing need for efficient water management across industries.

Policy

The water management division of BTL EPC operates under a sustainability-driven policy framework that prioritises water reuse, pollution control, and strict compliance with environmental regulations. Reinforcing this approach, the Government of India, through the Ministry of Jal Shakti has introduced national initiatives such as the Jal Shakti, Abhiyan: Catch the Rain 2024–25 campaign, themed Nari Shakti se Jal Shakti. This program promotes women-led water conservation efforts through rainwater harvesting, groundwater recharge, watershed development, and afforestation.

Growth

The water management division at BTL EPC witnessed early-stage traction in FY 2024–25. The division demonstrated resilience by mobilising new resources, onboarding contractors, and stabilising project delivery. These efforts have laid the groundwork for growth.

Strengths

BTL EPC's involvement in the water management division is supported by key internal strengths, such as:

Resource identification and recruitment: The business successfully identified the resource gaps and initiated recruitment, onboarding mostly new personnel to support ongoing and upcoming projects.

In-house functional control: While external resources were engaged due to limitations in internal capacity, the Company ensured total in-house control over critical functions such as engineering, procurement, and related project support domains.

Highlights, FY 2024-25

- Commissioning of the Deoghar Septage Treatment Plant marked a milestone in municipal waste management.
- Completion of the Hazaribagh Septage Plant highlighted execution capability despite challenges.
- Secured the first major wastewater treatment plant order, a landmark 2,000 cum/hour capacity project from BHEL, Talcher.
- 80% of job for ETP , DVC is complete.

Challenges and mitigations, FY 25

Challenges:

Team formation issues: The segment lacked an assigned and structured team.

Execution risks: Two projects were in critical condition, with multiple execution challenges.

JJM project under performance: The JJM initiative was facing delays and payment issues.

Mitigation measures:

Team mobilisation: The Company supported the formation of a dedicated team, partially resolving the resource gap.

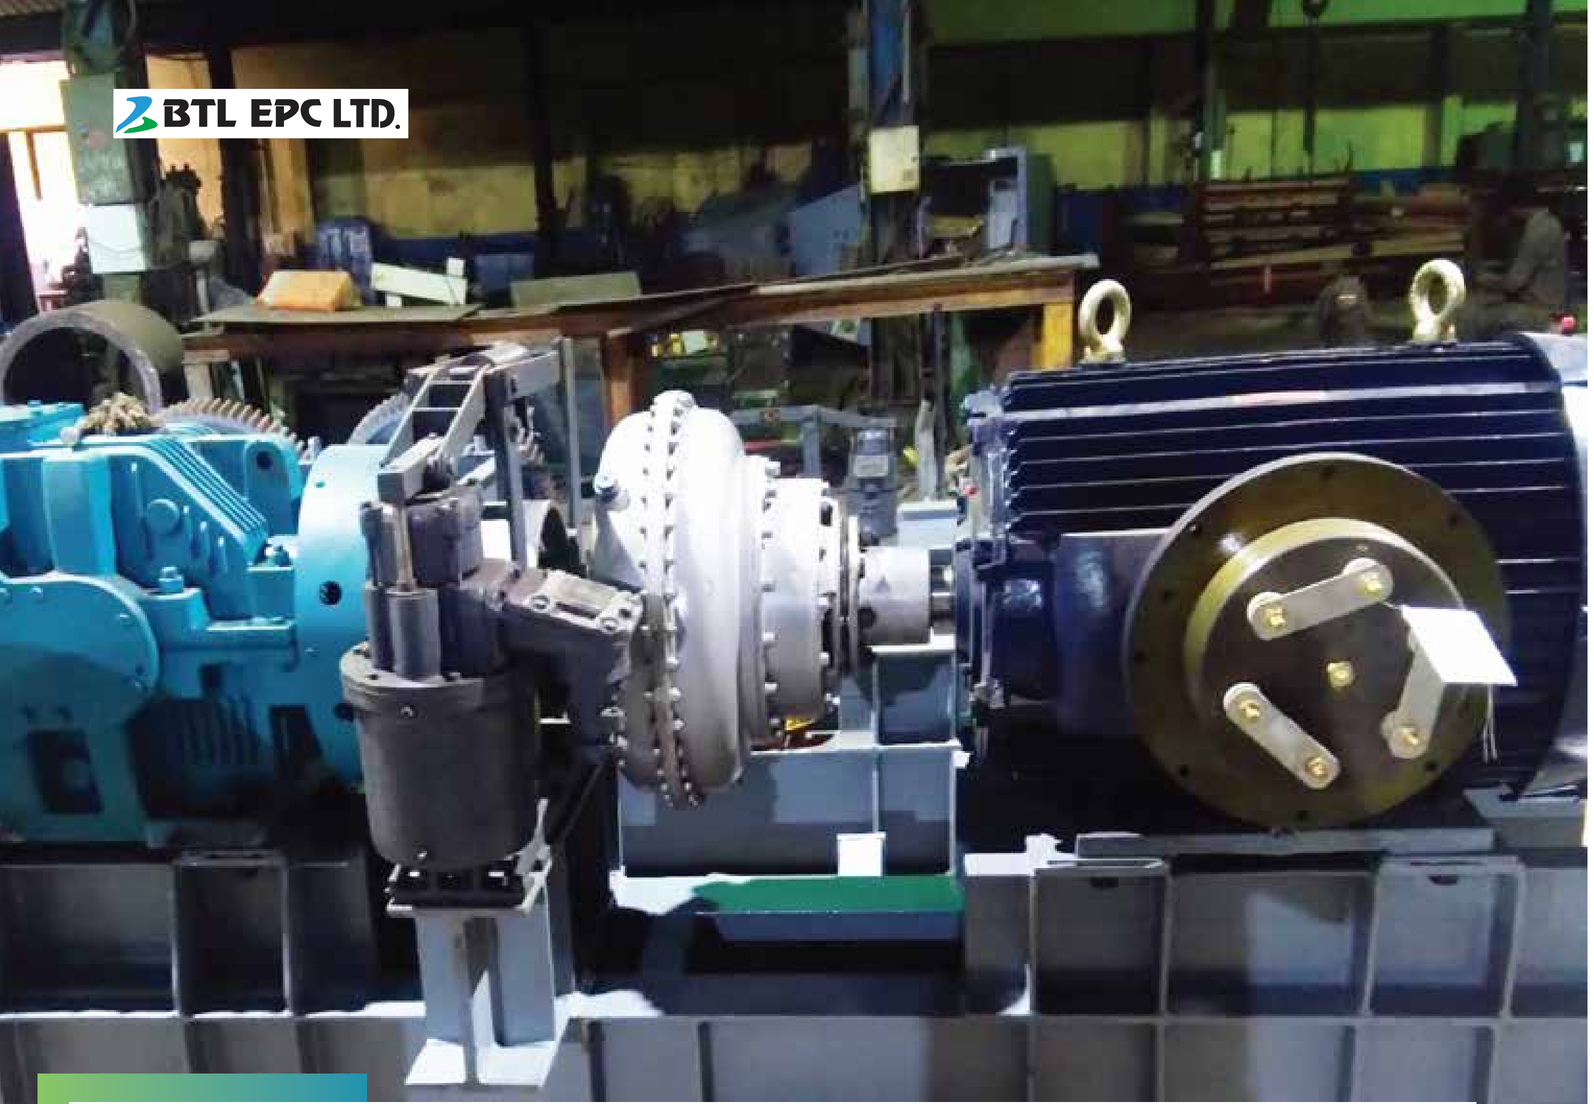
Operational autonomy: Teams were empowered to engage directly with clients and consultants to stabilise project execution and transition into the O&M phase.

Engineering troubleshooting: A new establishment was on-boarded. Joint reviews with clients helped to address fundamental engineering challenges.

Outlook, FY 2025-26

The Company intends to build on its strengths in FY 2025–26 by tapping into significant opportunities available in the water and wastewater segment, particularly within power plants operated by BHEL, NTPC, DVC, and other private sector players. To pursue this growth, the division requires better structuring and strengthening through the recruitment of skilled proffessionals and the establishment of a robust organisational framework capable of handling future business growth.

Septage treatment plant at JUIDCO



Our business: **Underground Mining**

Overview

Underground conveyor systems are critical in mines due to their ability to transport bulk materials efficiently, safely, and economically especially in deep or complex mining operations.

Unlike trucks, conveyors provide non-stop, automated material movement, significantly increasing throughput. Conveyors can handle long and complex routes, even in deep underground mines where trucks would be inefficient or impractical. They can transport thousands of tons per hour—ideal for modern high-output mines. They eliminate diesel-powered equipment for haulage, leading to reduced ventilation needs and improved air quality. Fewer operators are needed for haulage, reducing human presence in hazardous areas. Conveyors consume less energy per ton of material moved compared to trucks, especially over long distances. Because conveyors do not emit exhaust fumes, ventilation energy demand drops, especially critical in deep mines. Electrified systems are cleaner and align with decarbonisation goals.

Underground conveyor systems are not just a technical option; they are a strategic necessity in modern mining for enhancing productivity, safety, environmental compliance, and cost efficiency. As mines go deeper and ESG pressures mount, conveyors become the backbone of sustainable underground operations.

The manufacturing division at BTL EPC is a leading player in providing specialised solutions for coal mine conveyor applications. We design and produce dual-drive conveyors/drive heads in various power combinations, ranging from 2 x 37 KW to an industry-leading 2 x 600 KW, marking the highest installed motor power in India.

Over the last 30 years, we have supplied our own make drive heads and conveyors to all coal india and its subsidiaries as well as private mines.

Collieries	Total no. of conveyors
South Eastern Coalfields (SECL)	250
Mahanadi Coalfields (MCL)	21
Western Coalfields (WCL)	57
Bharat Coking Coal Limited (BCCL)	14
Eastern Coal Fields (ECL)	45
Singareni Collieries (SCCL)	55
Central Coalfields (CCL)	1
Private Collieries	25

Underground conveyors and Drive heads supplied

INDU	2x600 KW conveyors supplied
Ultratech	2x315 KW conveyors supplied
JMS Mining	2x250 KW conveyors supplied

Scalability and capacity enhancement

Then: Low-capacity belt conveyors (<500 TPH) with limited lengths (hundreds of meters). Used mostly in shallow or moderately deep mines with low tonnage.

Now: High-capacity systems handling 5,000+ TPH over several kilometers underground. Modular designs allow conveyor extensions as the mine face advances. Used in longwall, bord and pillar, and block caving systems for continuous haulage.

Enhanced safety features

Then: Basic pull cords and trip switches, mostly manual detection of failures. Frequent belt fires due to slippage, overheating, or friction.

Now: Embedded safety features, including Belt drift detectors, Rip detection sensors, belt misalignment and tear detectors, temperature and fire detection systems, automated emergency shutoff systems and zone-wise fault isolation, Integration with mine-wide emergency systems for alerts and ventilation control.

Reduced maintenance and self-diagnostics

Then: All modifications in conveyor belt systems was done when the system reported downtime.

Now: Predictive maintenance uses vibration sensors on pulleys and gearboxes. Thermal sensors are used in bearings and motors. AI-based analytics is used in wear prediction. Remote diagnostics platforms enable off-site monitoring and fault troubleshooting. Improved idler design (low-friction, sealed-for-life rollers) for longer life and reduced noise.

Digital integration

Then: The integration with other systems was done manually through human intervention.

Now: Modern underground conveyors are connected to fleet management systems, production scheduling platforms and ventilation-on-demand systems (which adjust airflow based on belt operation). This enables fully integrated underground-to-surface material flow, often monitored from a remote-control center.

Stronger and smarter belt technologies

Use of steel cord belts instead of fabric belts. Higher tensile strength (up to 8,000 N/mm or more). Lower elongation and longer lifespan. Flame-resistant, anti-static (FRAS) belts are now standard for safety in gassy mines. Sensor-embedded belts can monitor wear, slippage, and tension in real-time.

Automation and monitoring systems

Integration of PLC-SCADA systems with underground conveyors: Real-time monitoring of belt speed, load, temperature, and motor condition; auto-start/stop sequencing based on production demand. Advanced control algorithms for synchronised multiple conveyor drives and load sharing.

Energy efficiency and regenerative drives

Use of variable frequency drives (VFDs) on motors to optimise energy use. Regenerative braking systems recover energy on downhill conveyors and feed it back to the grid or mine power system. Soft starters and load-sharing logic reduce mechanical stress and power surges.

Our business: **Agrimech Division**

7P3 Petrol Power Weeder

Overview

BTL EPC's Agrimech division has been committed to advance farm mechanisation in India for over three decades, with a focus on the needs of small and marginal farmers. The division offers a range of quality, Made-in-India agricultural equipment aimed at improving farm productivity. Backed by a strong network of seven branch offices and over 500 dealers across the country, the division ensures easy accessibility, prompt service, and real-time support through trained technicians and a dedicated customer care centre.

Policy

The Sub-Mission on Agricultural Mechanization (SMAM) is a centrally sponsored scheme under the Department of Agriculture and Farmers Welfare, aimed at enhancing farm mechanisation, particularly among small and marginal farmers. The scheme offers substantial subsidies ranging from 40% to 80% on the purchase of agricultural machinery such as tractors, tillers, FMB (Farm machinery bank) - one line, FSSM (Financial support scheme for farm mechanization) and harvesters, making mechanisation more affordable with support of all states' government. SMAM supports the establishment of Custom Hiring Centres and machinery banks, which facilitate the rental of farm equipment in regions with low levels of mechanisation, thereby improving accessibility and promoting inclusive agricultural growth.

Growth

The Agrimech division recorded a robust 32% year-on-year revenue growth in FY 2024-25. This strong performance reflects increased market demand and improved sales execution.

Strengths

- Strong leadership and strategic guidance from the senior management.
- Clear vision and execution from a committed leadership team.

Highlights, FY 2024-25

- Achieved significant year-over-year revenue growth of 32%.
- **Total sales:** Over 8,000 weeders and 1,850 power tillers were sold.

Challenges and mitigations, FY 25

- The division underwent a leadership transition with a change in the senior management.
- Employee retention and morale.
- Operational inefficiencies in supply chain and fund flow management.

Mitigation:

- The Company undertook team restructuring through a strategic realignment and strengthened its leadership framework.
- Implemented employee recognition initiatives to enhance motivation and reduce attrition.
- Implemented operational improvements, including better inventory management, optimised handling of debtors and creditors, and streamlined fund flows with improved cash planning.

Outlook, FY 25-26

The Company aims to build on its strengths by continuing to invest in its workforce through structured recognition programs and capability development initiatives.

The division plans to expand its presence in emerging and underpenetrated markets by strengthening dealer networks and actively participating in government tenders. Efforts will be made to digitalise operations for better forecasting, enhanced supply chain visibility, and improved financial planning. After-sales service will be reinforced to boost customer satisfaction and brand loyalty. To sustain the momentum, the Company will introduce new models around regional needs.

Virat 13HP Power Tiller

Our business: **Manufacturing Division**

State-of-the-art manufacturing excellence

State-of-the-art manufacturing facilities are spread over more than 10,00,000 square feet in Kolkata, Kharagpur, and Durgapur comprising modern equipment and skilled workforce supported by a large vendor base.

The Company developed versatile manufacturing capabilities by producing a spectrum of heavy engineering components, including the following:

- Belt conveyor systems and components
- Equipment for bulk material handling projects
- Ash Handling Equipment
- Pressure Vessels
- Ducts
- Tanks
- Refinery columns
- Steel silos

The Company leverages cost-efficient in-house manufacturing facilities to support EPC operations, providing a competitive edge over peers reliant on external procurement.

The Company possesses a strong production capability with over 24,000 MT/year fabrication capacity, along with 1,80,000 rollers and 1800 pulley production / year, enabling the on-time execution of large EPC projects.

The Company is equipped with advanced in-house facilities for NDT, hydro testing, radiography, and painting, ensuring an adherence with global quality benchmarks.

The Company provides end-to-end fabrication solutions, covering the full cycle from material handling to dispatch, backed by in-house design and engineering competencies.

The Company's commitment to manufacturing excellence is underpinned by state-of-the-art infrastructure, equipped with the latest CNC machines. This allows us to produce not only complex industrial products but also ensures timely delivery with rigorous adherence to quality and industry standards.

Major machines like bearing pushing machine , Pipe boring, Welding, Pipe Cutting, ESAB CNC Plate cutting Machine, Paint Booth, Shielded Metal Arc Welding, Submerged-Arc Welding, Gas Metal Arc Welding, Gas Tungsten Arc Welding, CNC profile cutting, CNC turning center and others.

Policy

The Indian government prioritises domestic manufacturing, particularly through initiatives like 'Make in India' and Production-Linked Incentive (PLI) schemes. These policies aim to transform India into a global manufacturing hub by encouraging domestic and foreign investment, fostering innovation, and developing world-class infrastructure.

Our manufacturing **strengths and competencies**

We have created an innovation-led culture in heavy engineering solutions

Core skills: Heavy engineering fabrication competence (large height and weight).

Specialisation: Established competence in the fabrication of complex pressure vessels.

Infrastructure: Aggregate 6,96,020 sq ft fabrication space across five units.

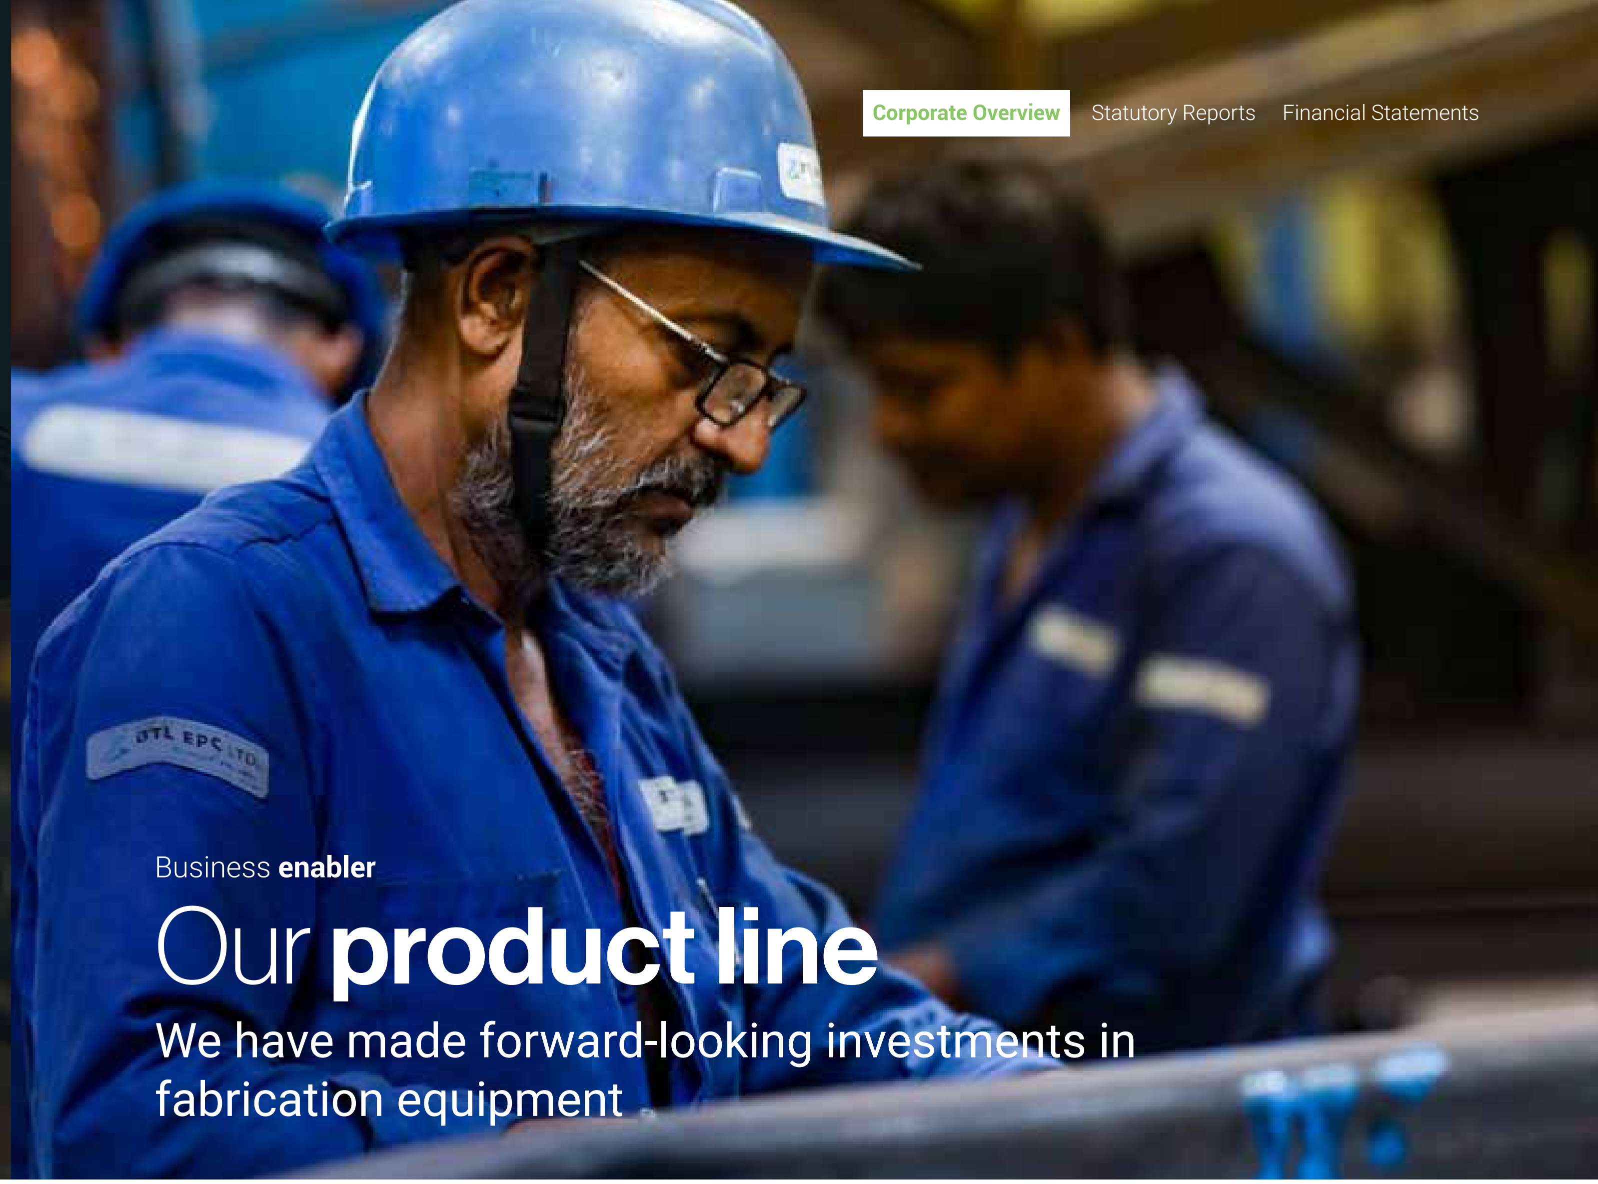
Quality: All fabricated material is radiography-tested resulting in a first-time right culture.

Approval: All fabricated material is approved by the Indian Boiler Association.

Value chain: Integrated competence from designing equipment to fabrication.

Repertoire: Diverse mechanical capabilities (fabrication, machining, welding, blasting and painting).

Skills of our shopfloor workers = LG welder with X-Ray welding quality capabilities | Drillmen | Heat treatment professionals | Grinders | Mechanical fitters | Turners



Business **enabler**

Our **product line**

We have made forward-looking investments in fabrication equipment

Idlers and pulleys: Essential components for belt conveyors; ensure smooth movement, load support, and belt tracking. Available in carrying, return, and impact types.

Gates (Rod Gate, Slide Gate, Rack and Pinion Gate): Control devices for regulating or diverting bulk material flow in chutes and hoppers.

Chutes: Customised transfer points designed to minimise spillage and wear.

Conveyor structures: Supporting frames for belt conveyors, engineered for stability and durability.

Shuttle conveyors: Mobile conveyors that move back and forth to distribute material over a wider area.

Scrapers/Ploughs: Installed for effective belt cleaning and minimising spillage.

Tripper: Used for controlled discharge of bulk materials along conveyor belts in material handling systems.

Flap gate: A flow control device used in ducts and chutes to regulate or isolate the passage of materials.

Silo: A vertical storage structure designed for holding bulk materials like cement, ash, or grains.

Paddle feeder: A mechanical device that extracts and feeds bulk materials uniformly from storage hoppers or bunkers.

Shell and tube heat exchanger: A thermal device used to transfer heat between two fluids through multiple tubes housed within a shell.

Primary gas cooler: A heat exchanger that reduces the temperature of hot gases in process systems before further handling.

Gear box

Bracket

Steam generator (kettle type)

Pulley

Feeder

Pressure vessel: A container engineered to hold gases or liquids at high pressures safely and efficiently.

Drive head: A critical conveyor component that houses the motor and gearbox to power belt movement.

Underground conveyor gear box: A specially designed gearbox for underground conveyors, enabling reliable power transmission in confined spaces.

Tanks: Engineered containers used for storing liquids, chemicals, or slurries across industrial processes.

Underground mining conveyors: Heavy-duty conveyor systems designed for coal and mineral transport in underground mines. Features include flame-proof drives, dust-tight construction, and high load capacity.

Stainless steel process columns: Vertical process vessels used for distillation, absorption, or chemical separation. Designed in SS material for corrosion resistance, high purity, and chemical compatibility.

Stacks: Tall chimneys or exhaust structures designed for emission dispersion. Engineered for structural stability, corrosion resistance, and environmental compliance.

Tar decanters: Equipment for separating tar from water and sludge in coal chemical plants. Essential for downstream tar distillation and recovery operations.

Ash handling equipment: Systems for collection, conveying, storage, and disposal of bottom ash and fly ash from power plants. Includes submerged scrapers, pneumatic conveying systems, tanks and silos.

6 ways we have transformed in 10 years

1 Plate cutting transition from manual to CNC

Reality: This was manual process required around 20 workers to cut 400 tonnes of plate per month. This affected productivity and consistency.

Initiative: The Company began transitioning to CNC-based plate cutting a decade ago when it procured its first CNC machine (second in 2023, and third in 2025).

Capabilities: The MAKE-ESAB machines comprise oxy-fuel and plasma cutting systems (60mm piercing / 200mm cutting for oxy-fuel and 32mm piercing / 60mm cutting for plasma).

Improvement: Productivity has improved. The number of workers required to cut 400 tonnes per month has decline from 20 to 6; along with enhancements in cutting quality, cost efficiency, and delivery timelines.

Outcome: The Company intends to increase automated plate cutting from 30% to 90%.

2 Painting of rollers

Reality: Roller painting was carried out by placing them vertically on the shop floor. This method allowed 150–200 rollers per batch with drawbacks (inconsistent thickness, top end receiving less paint). The absence of a closed booth system meant painting could only be done during non-production hours from 10 PM to 6 AM, a bottleneck.

Initiative: An enclosed paint booth chamber was introduced composing a front draft cyclone system to control and extract paint fumes, ensuring better safety and environmental health conditions.

Improvements: The new system increased roller accommodation 300% within the same footprint (450 rollers per batch). Continuous painting across 24 hours eliminated time-based restrictions. Paint consumption declined 20%, while quality and throughput improved.

Outcomes: The new setup allows round-the-clock painting, enhances worker safety, and improves paint application consistency. It also includes a three-tier roller arrangement, enhancing space utilisation.

3 Process mapping

Reality: There was no formal process mapping in the manufacturing unit. Production flow and workstation performance were managed without structured analysis. This made it difficult to identify inefficiencies, delays, and optimisation areas.

Initiative: The Company introduced advanced industrial engineering practices (time-motion studies and value stream mapping). These methodologies helped identify bottlenecks in workstations, analyse workflows, and map each stage of the production process for rollers and pulleys.

Improvement: Roller production capacity increased from 8,000 to 12,000 units per month; pulley production capacity improved from 110 to 150 units per month.

Outcome: This highlighted the value of data-driven process analysis and in workflow management improvements.

4 Kaizen

Reality: There was no structured continuous improvement method in place.

Initiative: The Kaizen initiative was introduced in September 2022, involving all engineers and workers collectively (rather than through teams). The 5S approach was implemented, with responsibilities assigned. Reviews were conducted regularly; engineers and workers were recognised every six months.

Improvement: The initiative fostered total employee involvement, resulting in noticeable improvements in workplace safety and housekeeping standards.

Outcome: Worker morale improved.

5 Manufacturing capacity

Reality: In FY 2020–21, the Company operated with limited production capacity - in-house manufacturing capacity of approximately 5,000 tonnes per year and no outsourcing.

Initiative: To enhance output, the Company began to outsource manufacturing. As part of this initiative, the Company engaged renior consulting for a manufacturing excellence exercise.

Improvement: The Company scaled capabilities - in-factory production reached 8,000–10,000 tonnes per year and outsourced production contributes an additional 10,000–15,000 tonnes a year a near-500% increase in total capacity.

6 Production capacity

Reality: In 2019–20, the Company's production capacity for key components was constrained with rollers at 8,000 numbers /month, pulleys at 110 numbers /month, gear boxes at 20 numbers /year, travelling trippers at 10 numbers /year, and structural items at 3,000 tonnes/year.

Initiative: The Company undertook a combination of outsourcing and capacity expansion, including the addition of new fabrication works and vendor development.

Improvement: By 2024–25, production capacity reported a marked increase rollers scaled to 12,000 numbers/month, pulleys at 150 numbers/month, gear boxes at 40 numbers/year, and travelling trippers at 40 numbers/year through outsourcing. Structural fabrication capacity grew significantly from 3,000 tonnes/year to 10,000 tonnes/year through in-house enhancements and outsourced support.

Outcome: The Company is better equipped than ever to respond to the anytime and any quantity fabrication needs of large and prominent customers.

Our **milestones**

We have grown across the years by witnessing in our capabilities and infrastructure, emerging as a responsible heavy engineering company

1965-1970: Established a manufacturing plant in partnership with UK's Tempered Tools Ltd., becoming a key supplier to steel plants, paper mills, plywood factories, and rail factories across India.

1970: Partnered DRDO to develop indigenous defence equipment and secured crucial quality certifications (DQAEE and DQAV). Expanded the fabrication unit to produce boiler accessories, including air preheating systems, enhancing capabilities to serve defence and core infrastructure projects.

1976: Pioneered the indigenisation of border fencing with the 'punched tape concertina coil,' developed in collaboration with DRDO.

1977-1990: Emerged as a key supplier of mining conveyors and spares for Coal India. Diversified beyond traditional industries, producing a range of equipment from mechanical mine line equipment to mobile water purification plant to rocket launching pads.

1998: Acquired APV Engineering Company, gaining valuable expertise as a dairy plant and food processing EPC. Completed the Koraput dairy plant in 2000 with a milk processing capacity of 2,00,000 litres per day.

2000: Boosted efficiency by acquiring an adjacent factory to establish a fully automated conveyor roller and pulley unit.

2001: Registered with Engineers India Limited which enabled the direct supply of pressure vessels and heat exchangers to petrochemical and refinery giants, independently and through multinational EPC contractors. Secured major projects with Haldia Petrochemicals, IOCL-Barauni, and IOCL-Haldia.

2002: Expanded its production capacity by acquiring a Durgapur factory, enhancing our fabrication capabilities for larger projects.

2005: Our track record of supplying to Coal India enabled us to win major material handling projects, achieving success with clients such as BPSCL, CESC, ECL, and NTPC. Leveraged our pressure vessel expertise to enter Coal Chemical By-Product projects in steel plants. Collaborated with VUKhIN Russia and executed projects like Durgapur BOF Gasholder, RSP Gas Condensation Plant and Bokaro Steel Plant Decanter.

2012: Morphed into a full-fledged industrial solutions provider, from underground mining conveyors to complex material handling projects for diverse industries. This diversification extended our annual turnover past ₹200 Crore.

2013: BTL transformed into BTL EPC Ltd. This new name reflected our position as a complete EPC contractor, reflecting our diverse projects across industries.

2014: Strategically ventured into Power Transmission EPC projects for state electricity companies, securing three initial projects and qualifying for high-voltage 400 kV power projects.

2018: Expanded into the ordinance factory sector, supplying and commissioning specialised machines for defence needs. Delivered a 10-ton ESR plant project and secured additional orders via joint ventures.

2019-2021: Despite the global pandemic's impact on industries, BTL EPC Ltd. maintained operations. Our resilience, coupled with the gap left by struggling competitors, led to new material handling and CCD projects. We completed a 3 MW solar power project for the Ministry of Defence in 2020.

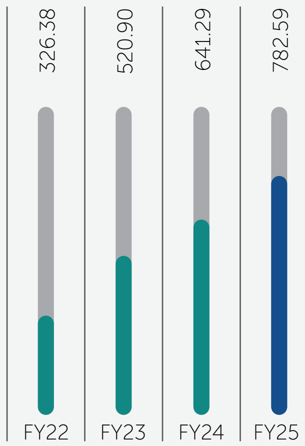
2022: Entered ash handling projects for thermal power plants, securing India's largest project through successful international collaboration.

2023 and beyond: Turnover surged to ₹550 Crore. Our strong foundation in manufacturing, engineering, and project execution, along with a ₹2,000 Crore order book, positions us for continued success. We plan to address EPC projects in the water division for STP (Septage Treatment Plant), WTP (Water Treatment Plant) and water distribution; special businesses like mineral beneficiation, FGV and ordinance factory machinery projects through foreign collaborations.

How we have **grown over the years**

We have responded favourably to the Indian economic growth story by reporting an increased profitability coupled with a decline in borrowings

Revenues
(₹ in cr)



Meaning

Revenue is the total income generated from the sale of goods related to the Company's operations.

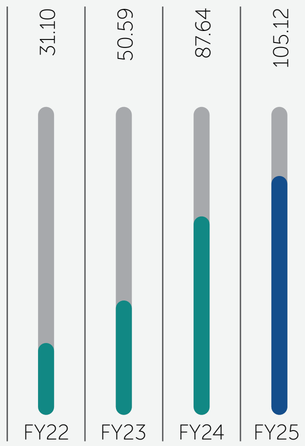
Importance

Revenue represents a basis for the comparison of the Company's competence with competitors.

Performance

The Company reported ₹782.59 Crore of revenue in FY 2024-25, 22% higher than the previous year.

EBITDA
(₹ in cr)



Meaning

EBITDA is an acronym that refers to the earnings of a company before interest, tax, depreciation and amortisation expenses are deducted or provided for.

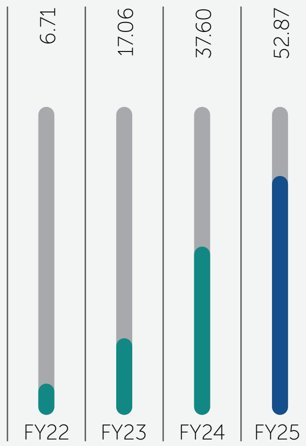
Importance

Investors use EBITDA to assess a company's profitability and efficiency and compare with similar businesses.

Performance

The Company reported ₹105.12 Crore EBITDA in FY 2024-25, 21% higher than the previous year.

Profit after tax
(₹ in cr)



Meaning

The amount left after a company has paid all its operating and non-operating expenditures, other liabilities, and taxes is known as profit after tax. This profit is either allocated to the entity's shareholders as dividend or held in reserve as retained profit.

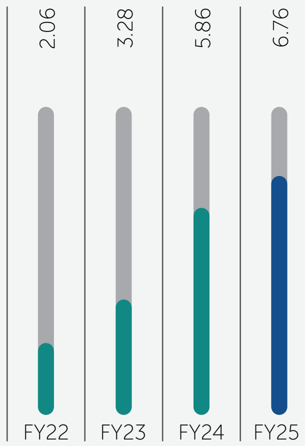
Importance

Profit after tax represents the actual profit a company earns in a financial year. It reflects the cost structure, business model, and overall competitiveness.

Performance

The Company reported ₹52.87 Crore of PAT in FY 2024-25, 41% higher than the previous year, indicating that its growth had been profitable.

Net profit margin
(%)



Meaning

Net profit margin (also known as 'profit margin' or 'net profit margin ratio') is a financial measure to calculate the percentage of profit a company produces from its total revenue.

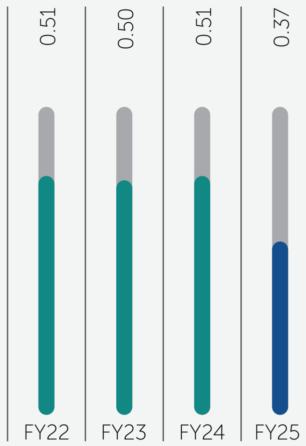
Importance

It represents the net profit that a company earns for each rupee of revenue, expressed as a percentage.

Performance

The Company reported 6.76% net profit margin in FY 2024-25, 90 basis points higher than the previous year.

Debt-to-equity ratio
(x)



Meaning

The debt-to-equity ratio (also called the 'debt-equity ratio', 'risk ratio', or 'gearing'), is a leverage ratio that calculates the weight of total debt and financial liabilities against total shareholders' equity.

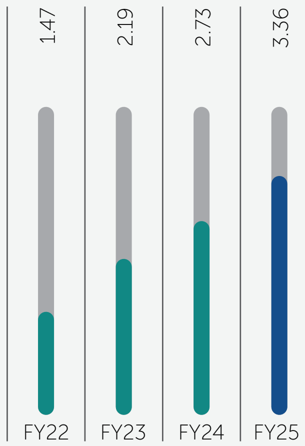
Importance

This ratio indicates whether a company's capital structure leans more toward debt or equity financing.

Performance

The Company reported a 0.37 debt-to-equity ratio at the close of FY 2024-25, indicating the under-borrowed nature of the business.

Interest coverage ratio
(x)



Meaning

The interest coverage ratio is a financial ratio to determine how comfortably a Company can pay interest on its outstanding debt.

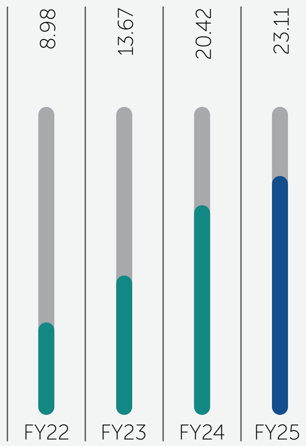
Importance

Lenders, creditors and investors commonly use the interest coverage ratio to assess the risk of lending to the Company.

Performance

The Company reported a safe and attractive interest coverage ratio of 3.38x for FY 2024-25, which is improved by 0.63x.

RoCE
(%)



Meaning

Return on capital employed (ROCE), a profitability ratio, measures how efficiently a company is using its capital to generate profits.

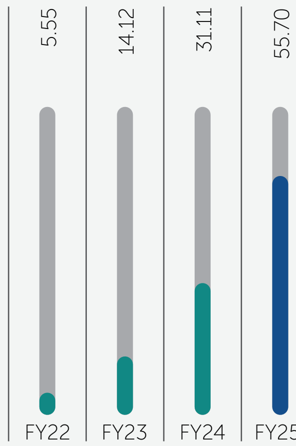
Importance

The return on capital employed (ROCE) is one of the most important profitability ratios, commonly used by investors to assess whether a company represents a sound investment.

Performance

The Company reported 23.11% return on capital employed for FY 2024-25, which was 269 bps higher than the previous year on account of larger contracts, upgraded manufacturing, enhanced production and disciplined working capital management.

Earnings per share
(₹)



Meaning

Earnings per share (EPS) is a financial metric, which divides net earnings available to common shareholders by the average outstanding shares for a certain period.

Importance

Earnings per share reflect a company's ability to generate net profits for common shareholders.

Performance

The Company reported ₹55.70 earnings per share for FY 2024-25, which was 79% higher than previous year.

PART TWO

Building for India. Banking on India

Introduction

The unprecedented **India growth story.**

India's economic resurgence provides a robust long-term growth platform for a committed solution provider like BTL EPC

India is likely to grow into USD 5 trn economy in three years and towards a USD 10 trn economy during the next decade.

To make this a reality, more and larger industrial facilities will be needed.

The large industrial facilities of today could become the mid-sized of tomorrow and the small-sized of the next decade.

This evolution will put a premium on heavy engineering fabrication companies.

These companies will need to build their businesses faster to fabricate larger, advanced and different equipment.

This is seeding an unprecedented opportunity for these heavy engineering solution providing companies.

Companies like BTL EPC are attractively placed to capitalise on this unprecedented opportunity.

The big **picture**

Growth is everywhere **in today's India.**

This provides an unprecedented opportunity to the proactive and preponed

India. A robust USD 4.2 trn economy

The world's fourth largest economy

The world's consistently fastest growing major economy

The world's largest population cluster

1 Infrastructure expansion
- National Infrastructure Pipeline (NIP) and PM Gati Shakti aim to invest over USD 1.5–2 Trillion by 2030.
- India's megaprojects comprise high-speed rail, Smart cities, mega ports, expressways, tunnels, metros, and multi-modal logistics hubs.

a Heavy engineering needs
- Greater need for larger cranes, bridge-girders, tunnel boring machines, segment launchers and piling rigs.
- Need for modular fabrication systems and automated gantry systems for large pre-engineered structures.

2 Energy transition and industrialisation
- India has targeted 500 GW of non-fossil fuel capacity by 2030.
- India is deepening capacity additions in its thermal, nuclear, and hydroelectric segments.

b Heavy equipment needs
- Larger pressure vessels, boilers, wind turbine towers, electrolysers, battery cell plant machinery, nuclear reactor components.
- Gigafactory-scale automation lines, robotic arms, and heavy-duty cleanroom equipment.

3 Manufacturing scale-up (Make in India / PLI schemes)
- Major push for electronics, defence, aerospace, automotive, shipbuilding, and capital goods.
- Heavy capex planned in sectors like steel, cement, petrochemicals, and fertilisers.

c Heavy equipment needs
- Larger rotary kilns, conveyors, boiler feed systems, metal presses, industrial furnaces, CNC machining centers, and robotic welding cells.
- Material handling systems like massive EOT (Electronic Overhead Travelling) cranes, gantries, and AGVs.

4 Transport and logistics megaprojects
- Dedicated Freight Corridors, Bharatmala, inland waterways, and airport/port expansion.
- India aims to become a global supply chain hub.

d Heavy equipment needs
- Heavy-duty conveyor systems, ship loaders, RTGs (Rubber Tired Gantry)/gantry cranes, container handling systems, and railway fabrication equipment.

5 Defence and Aerospace
- India increasing indigenous production in shipbuilding, missiles, fighter jets, satellites.
- Public-private partnerships.

e Heavy engineering needs
- Precision fabrication systems, metal forming machines, composite layup tools, engine test rigs, and missile handling equipment.

6 Upgradation of legacy assets
- India's older generation thermal plants, steel mills, and ports need modernisation.
- Focus on energy efficiency, emissions control, and automation.

f Heavy equipment needs
- Flue gas desulphurisation (FGD) units, scrubbers, automated material handling systems, and IoT-enabled maintenance equipment.

Coal handling plant for Bangaldesh India Friendship Power Company Limited (BIFPCL) Bangaldesh Maitree

Overview

Sophistication is becoming necessary in **BTL EPC's heavy engineering solutions business.**

BTL EPC is responding to the growing national needs of scale, scope and sophistication

Demand for larger and more complex equipment: As manufacturing plants grow, they require higher-capacity machinery, greater precision, and customised solutions. To meet these needs, heavy engineering suppliers must adopt more advanced design tools, materials technology, and fabrication techniques.

Tighter tolerances and higher standards: Modern plants demand high reliability, energy efficiency, and digital integration (e.g., Industry 4.0 compatibility). Meeting these standards often requires more sophisticated engineering.

Automation: To remain competitive, engineering firms need to innovate using automation, AI-assisted design, advanced simulations, etc.

Shorter lead times: Larger plants often work on tighter schedules. Meeting deadlines without compromising quality pushes suppliers to streamline operations and adopt smart manufacturing.

High captive manufacturing capability: There is a greater priority in widening quality control across every leg of product manufacture than ever before. This makes it imperative for companies engaged in EPC projects to manufacture a significant part of the material in-house

Strong eco-system support: There is a growing need for large heavy engineering EPC companies to create supporting eco-systems of smaller specialised fabricators equipped to serve virtually as an extension of the larger partner's enterprise – deliver specialised products with speed

All round sustainability: There has been a visible shift for heavy engineering solution providers to engage in responsible and sustainable manufacturing operations – operations that pose no threat to the ecology, workers or neighbouring communities-with adequate documentation of improvements.

Why our sector is becoming increasingly complex

- Demand for larger and more complex equipment
- Tighter tolerances and higher standards
- Automation
- Shorter lead times
- High captive manufacturing capability
- Strong eco-system support
- All-round sustainability

Our strategic **priority**

BTL EPC's heavy engineering fabrication facilities are **evolving into modern showpieces.**

BTL EPC has invested in process optimisation, digital integration, lean manufacturing, and workforce empowerment to build a modern heavy engineering solutions company

Process optimisation

Standardisation of workflows: BTL EPC defines and documents standard operating procedures for every stage-cutting, forming, welding, machining and inspection. This reduces variability and human error.

Process time reduction (Lean tools): The Company invested in Value Stream Mapping to identify and eliminate bottlenecks. It implemented 5S (Sort, Set, Shine, Standardise, Sustain) to maintain a clean, organised floor. It propagated Kaizen for small, continuous improvements led by shop floor teams.

Parallel processing: The Company adopts parallel processing by executing simultaneous operations, such as pre-machining in one section while welding occurs in another. Its modularised fabrication approach allows multiple units to advance at the same time.

Automation and technology deployment

CNC and robotic equipment: The Company has proactively invested in CNC cutting, robotic welding, and automated drilling to reduce cycle time and enhance repeatability.

Shop floor automation systems: The Company has deployed SCADA or manufacturing execution systems to monitor work orders, machine utilisation, and process times. The Company's real-time dashboards help supervisors respond with speed.

Automated testing: The Company integrated online or in-line testing to reduce rework and delays caused by manual inspection cycles.

Smart material handling

Efficient layout design: The Company redesigned the shop floor to minimise travel distance of materials and reduce handling. It uses U-shaped or linear layouts depending on product flow, enhancing space efficiency.

Mechanised movement systems: The Company invested in overhead cranes, AGVs, or conveyor systems to ensure the smooth flow of heavy components with minimal manual intervention.

Inventory and resource management

Just-in-Time (JIT) inventory: The Company progressively reduced clutter, minimised inventory cost, and liberated floor space. This helps the Company avoid the inefficiency of overproduction or excess waiting.

Digitised and inventory tracking: The Company invested in barcode/ RFID-based systems integrated with ERP to track material use and availability in real time.

Skilled workforce utilisation

Cross-training: The Company is engaged in the flexible deployment of manpower based on workload, reducing idle time and bottlenecks.

Performance feedback systems: The Company introduced KPIs for each workstation and rewards high-performing teams. It uses dashboards to create healthy competition and real-time visibility.

AR/VR-based training: The Company reduces onboarding time and error rates in complex assemblies or welding procedures through advanced training methods.

Quality control integration

Error-proofing (Poka-Yoke): The Company integrates jigs, fixtures, and checks to prevent errors before they occur. This helps avoid rework and wasted hours.

In-process quality checks: The Company implemented inspection gates after key operations instead of waiting until the final QC.

Digital tools and data analytics

Digital twin / simulation tools: The Company simulates shop floor operations to optimise layout and process flow. This helps identify weak spots in real-time production cycles.

Mobile devices for shop floor operators: The Company facilitates immediate feedback, reporting defects, accessing drawings or checklists on tablets/mobile devices.

Energy and waste management

Monitor utility consumption: The Company deployed advanced equipment to track compressed air, welding power, or furnace energy usage per unit. This helps identify leaks, overuse, or idling equipment.

Scrap and rework analysis: The Company records and analyses reasons for rework and scrap; this enhances insights into design or training.

Looking **ahead**

Why the BTL EPC business model is secure: **Coal still has a future.**

Overview

BTL EPC generates a sizable portion of its revenues linked to coal handling in thermal power plants and underground mines.

Even as there is a global movement away from coal towards renewable energy forms, India has sought an extension until 2070 to emerge as a Net Zero nation. This provides an opportunity-driven company like BTL EPC with multi-decade prospects of sustainable growth.

Thermal power provides over 70% of actual electricity generated, due to intermittency of renewables. India's thermal power generation, especially coal-based power, will remain relevant across the years. It will act as a stabilising backbone to support the transition to renewable energy. It will be more focused on efficiency, emissions control, and reliability.

Base load stability: Thermal power will continue to provide stable, 24x7 base load to support the growing renewable energy mix.

Recent policy shifts: India plans to add 80 GW of coal capacity by 2032, mainly through supercritical and ultra-supercritical units as well as the replacement of old inefficient plants. NTPC and other companies have revived stalled projects due to rising power demand.

Industrial and urban demand: Rapid urbaniaation, electrification of transport, and industrial growth (cement, steel, and chemicals) will require more power.

The bottom line: Thermal power may decline in relative share, even as absolute capacity increases across the coming years.

Why the scenario for the coal sector **is optimistic in India**

Coal India Limited, India's largest producer, is deepening sectorial investments

45
New coal mines to be developed by CIL, Singareni Collieries and NLC India in five years

119
Projects being advanced by the Company

896
Million tonnes per year of capacity across 119 projects advanced by CIL

1,33,576
₹ Crore, sanctioned projects by CIL across five years (modern mining technologies and infrastructure)

42
% growth targeted by Ministry of Coal for Coal India Limited across five years

1,080
Million tonnes targeted by Ministry of Coal for Coal India Limited in 2025-26

1,533
Million tonnes targeted by Ministry of Coal for Coal India Limited by 2030-31

8
USD Billion proposed investment in coal-fired power plants near mines by Coal India Limited

Looking **ahead**

Why the BTL EPC business model is secure: **Coal handling systems are moving to the next generation.**

Coal handling plant for GSECL, Wanakbori, Gujarat

Overview

Coal handling systems in thermal power plants have become larger, more automated, and more environmentally responsible. They process greater volumes, improve reliability, reduce manpower, and comply with stricter environmental norms.

Scaling in capacity and size

Then: Early plants handled a few hundred tons per hour (TPH) of coal using belt conveyors, manual crushers, and basic stockpiles. Systems were designed for small generating units (<100 MW).

Now: Modern ultra-supercritical thermal plants (600 MW to 1,000+ MW) handle 2,000 to 4,000+ TPH of coal. Larger systems require multi-line conveyor galleries, dedicated marshalling yards, and fully automated control of bunkering and stockpile operations.

Automation and centralised control

Then: Manual or relay-based control systems with minimal automation. Operators manually adjusted feeder speeds, gates, and conveyor stops.

Now: PLC-SCADA systems manage the entire coal handling plant from a central control room. Real-time data on belt speed, coal flow rate, crusher status, stacker-reclaimer position, etc. Predictive maintenance using condition monitoring (vibration sensors, thermography).

Material handling efficiency

Then: Use of simple wagon tipplers or even side-discharge wagons for unloading. Manual operation of conveyors and limited redundancy.

Now: Fully automated tandem rotary wagon tipplers, capable of handling 25–40 wagons/hour. High-speed track hoppers with dust suppression and underground reclaim tunnels. Pipe conveyors used over long distances or in difficult terrains to reduce coal spillage and environmental impact.

Crushing and screening systems

Then: Basic single-stage crushers (like ring granulators). Oversized coal often bypassed or manually reduced.

Now: Two-stage crushing systems for precise size control (example, <25 mm). Roll crushers, hammer mills, and impactors with adjustable output sizes. Vibrating screens integrated for oversize separation before bunkering or milling.

Stockyard management and mechanisation

Then: Open stockpiles managed using dozers and front-end loaders. Little or no automation in stacking or reclaiming.

Now: Stacker-reclaimers with luffing, slewing, and bucket wheel mechanisms. Automated stockpile management with laser/radar level monitoring. Stockpiles planned to manage coal blending, reduce spontaneous combustion, and track age of coal.

Environmental and safety upgrades

Then: Dust, spillage, and water pollution were common. Limited fire detection, manual fire control systems.

Now: Dust suppression and extraction systems, including water mist, fog cannons, and bag filters. Fire detection systems (infrared, temperature sensors, gas sensors) integrated into conveyors, bunkers, and hoppers. Enclosed conveyor galleries, belt conveyors with covers, and zero discharge concepts for ash and wash water.

Integration with railways and mines

Now: Some plants have integrated rail sidings and real-time train unloading systems connected to national logistics networks. Larger plants use merry-go-round systems or even conveyor-based direct coal linkage from nearby mines. Weighbridges and RFID-based wagon tracking ensure real-time reconciliation of coal receipts and consumption.

Data analytics and optimisation

Coal flow is monitored digitally from arrival to burner. Fuel quality tracking (calorific value, moisture, ash content) is integrated with plant heat rate analysis. Some plants use AI/ML to predict bunker levels, coal flow bottlenecks, and optimise feeder sequences for minimal wear and maximum combustion efficiency.

ERP project BTL EPC D-365 (Microsoft D365-Business Central)

The BTL D365 Project marks a significant milestone for our organisation, as we transition to a more robust and efficient ERP platform to streamline our business processes and enhance overall productivity. Dynamics 365-Business Central enables to monitor and control sales-order and purchasing process through automated workflows and dynamically updated inventory levels. It also helps to run the entire business and deliver greater results through predictive, AI-driven insights.

PART THREE

BTL EPC

The Company's unique culture is driven by passion and a futuristic outlook

A culture called BTL EPC: **Our most precious asset**

When they indicated that the largest would survive in a scale-driven business...

We focused on becoming the best instead.

When they felt that fabricating a range of products would be safest...

We selected to stick to what we knew best.

When we were advised to wait for the slowdown to end...

We continued to strengthen our business in a proactive way.

When they advised industry players to freeze capex...

We made selective business-strengthening investments anyway.

When they said look within and consolidate...

We looked outward and acquired.

The BTL EPC culture **comprises a spirit of 'Can do'**

'Can we outperform the sector, economic growth and our retrospective average?'

'Can we reverse the industry reality by becoming a cash-rich heavy engineering solutions company?'

'Can we graduate vendor engagements from low-cost transactions to value-adding relationships?'

'Can we create national benchmarks instead of merely fabricating more?'

'Can we do something that makes the Company, the region and the country proud?'

'Can we measure our profitability by the enhanced trust of our customers that we will deliver the right quality on time?'

'Can we create a company where we know realities of operating sites every minute?'

'Can we be the most responsible company in the business?'

'Can we do tomorrow's work today?'

This is the result of our **multi-decade competence**

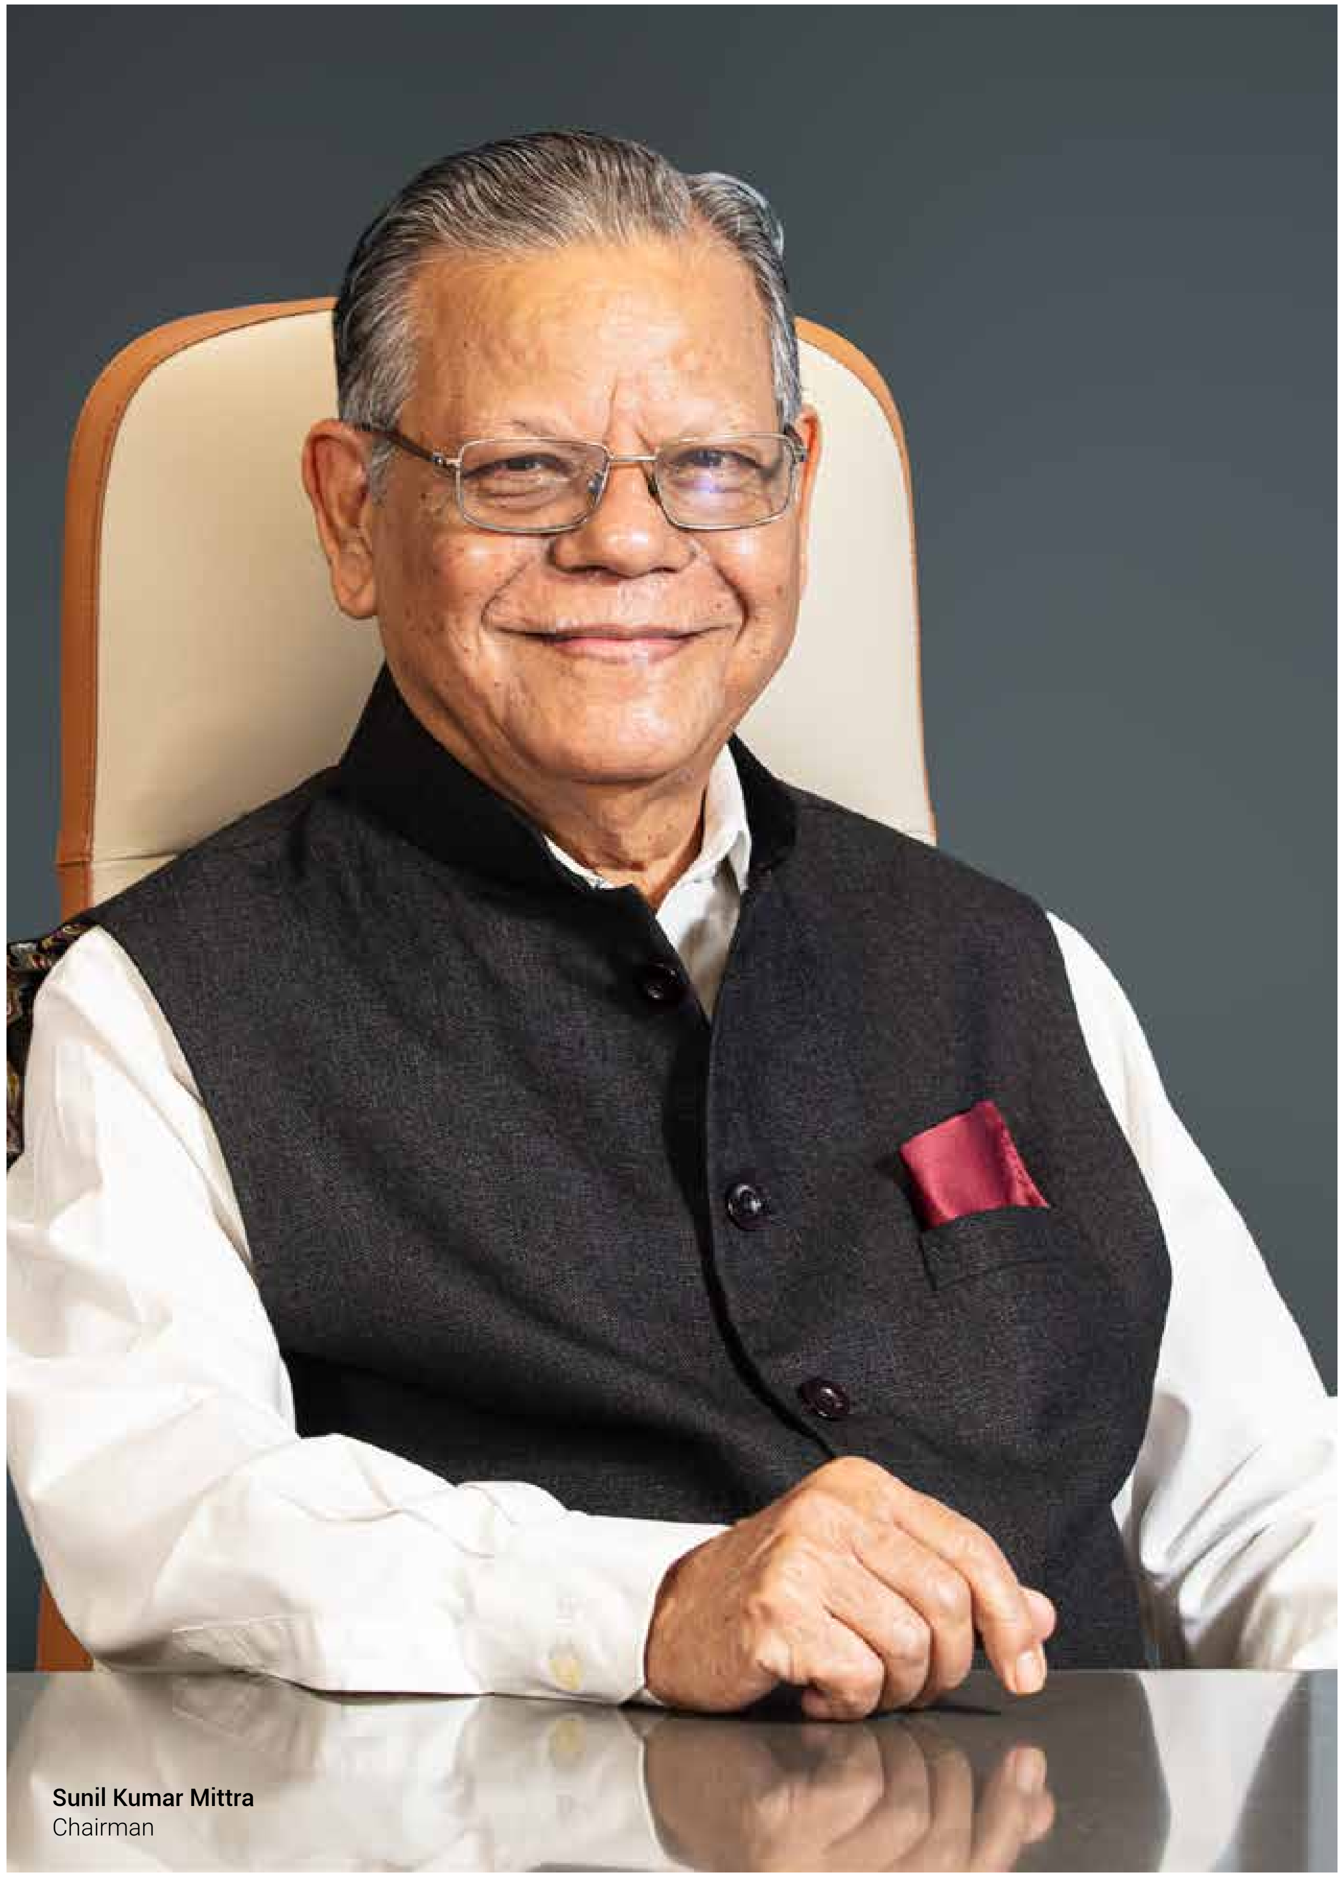
2,200+

₹ Crore **order book as on 30 June 2025**

The Company enjoys attractive revenue visibility (based on FY 2024-25 revenues) with comfortable liquidity. This indicates that the Company is placed to address this sizable order book growth through net worth, potentially enhancing shareholder value.

PART FOUR

Our Management's Perspective



Sunil Kumar Mittra
Chairman

Chairman's **perspective**

India's infrastructure growth story: **A decisive moment for BTL EPC**

Overview

Dear Stakeholders,

This past year has reaffirmed my belief in India's growth story and in the role companies like BTL EPC are poised to play in shaping that future.

We are witnessing a remarkable transformation. India is not only dreaming bigger but building faster. With the nation set to become a USD 5 Trillion economy in a few years and aiming to become USD 10 Trillion in the next decade, infrastructure is no longer just a sector: it represents the engine of national progress.

The government's rising infrastructure investments growing from ₹4.25 Lacs Crore in FY21 to ₹11.04 Lacs Crore in FY26 are a clear signal. From highways to high-speed rail, from ports to power plants, we are entering a phase of rapid, purposeful construction. At the same time, policies like PM Gati Shakti and the National Infrastructure Pipeline are making execution faster and more coordinated.

For companies in engineering and EPC, this represents a once-in-a-generation opportunity. Global shifts such as the China+1 strategy are also bringing a new attention to India's fabrication and project delivery capabilities. We believe the next 10–15 years could be a golden period for our industry.

How we are positioned

At BTL EPC, we have spent the last few years preparing for this moment. One of our Business division - ash handling for coal-based thermal plants – remains essential as India balances energy needs with environmental responsibility.

But more importantly, we have remained financially disciplined. We grew our revenues from ₹641.29 Crore to ₹782.59 Crore in FY 2024-25, while staying nearly debt-free. A large share of our net worth has been built from retained profits something we take great pride in.

We have also diversified meaningfully. Today, we serve sectors like power, steel, fertilisers, and mining, and we are expanding into water and solar EPC projects. These may seem like new directions, but they are built around our core strengths: solid engineering, dependable project management, and a culture of accountability.

Our solar EPC journey is especially exciting. As India targets 500 GW of renewable energy by 2030, we see a real potential to make a difference not just as a contractor, but as a responsible partner in sustainable infrastructure.

The road ahead

I believe that what sets BTL EPC apart is not just what we do, but how we do it steadily, thoughtfully, and with a long-term view. We do not chase every trend, but prepare ourselves to lead when the time is right. That time, I believe, is now.

As we look ahead, our focus remains clear to build with purpose, grow sustainably, and create lasting value for all our stakeholders.

Thank you for your trust, your support, and for being a part of this journey with us.

Sunil Kumar Mittra

Sunil Kumar Mittra,
Chairman

A range of prominent Indian sectors now offer growing **heavy engineering solution opportunities**

From energy to transport, multiple sectors are opening new opportunities for advanced solutions

Railways and metro
- Coach bodies
- Bridges
- Station infrastructure
- Steel structures
- E&M works

Roads and bridges
- Pre-engineered bridges
- Flyovers
- Steel girders
- Crash barriers

Power (thermal, hydro and nuclear)
- Boilers
- Turbines
- Pressure vessels
- Cooling towers
- Penstocks

Renewable energy
- Wind turbine towers
- Solar module mounting structures
- Green hydrogen electrolyser housings

Oil and gas (upstream and downstream)
- Refinery modules
- Pressure vessels
- Piping spools
- Skids

Steel and cement plants
- Structural steel work
- Hoppers
- Silos
- Conveyors

Defense and aerospace
- Warship hulls
- Missile containers
- Ground support equipment

Water and waste management
- Tanks
- Clarifiers
- Pipelines
- STP/ETP structures

Ports and shipbuilding
- Dock gates
- Cranes
- Modular hull blocks

Strategic **overview**

BTL EPC is poised to graduate from a topline of ₹782 Crore **in FY 25 to a projected ₹2,000 Crore by 2028.**

A decade of preparation. A future of scale

The year under review reaffirmed BTL EPC's belief that India's infrastructure sector is entering a multi-decade growth curve. As the nation industrialises, project sizes are becoming larger and more complex. In this environment, BTL EPC stands ready equipped with proven execution, disciplined capital management, and future-facing capabilities to graduate into its next orbit of growth.

Sectoral tailwinds: Opportunity at scale

India today is at an inflection point. Per capita power consumption is only 1,538 kWh, far below China (6,257 kWh) and the U.S. (12,800 kWh). Closing this gap will require massive investments in generation, distribution, and efficiency. The National Electricity Plan (2022–32) projects 609 GW of capacity by 2031–32, while electricity demand is expected to grow 5–6% annually over the next five years.

Coal will remain central to India's energy mix. Beneficiation and washery technologies will enhance efficiency, reduce costs, and align with clean-coal and carbon-mitigation goals. This plays directly to BTL's competencies.

Meanwhile, India's steel sector is poised for robust growth under the National Infrastructure Pipeline and Make in India initiative. Both ensure sustained demand for EPC and heavy-engineering solution providers like us.

From preparation to performance

BTL EPC's strategy has always been long-term. Even during down cycles, we invested in talent, systems, and global alliances. This foresight is reflected in our FY 2025 performance:

- **Revenue growth:** 22%
- **EBITDA growth:** 21% (margin 13.4%)
- **PAT growth:** 41%
- **ROCE:** 23.1% (up from 20.4%)

This profitable divergence profit growth outpacing revenue highlights the strength of our business model: capital-efficient, resilient, and responsibly governed.

Strategic priorities for the next orbit

Our ambition is clear scale from ₹782.6 Crore in FY 2025 to ₹2,000 Crore by 2028, while expanding EBITDA margins to 15%. Achieving this will require focus on five priorities:

Execution with efficiency – Delivering large, complex projects on time, with uncompromised quality and sustainability.

Systems and governance – Embedding discipline in operations, cash flow management, and project monitoring to handle scale.

Capital prudence – Preserving liquidity, staying under-leveraged, and ensuring growth never compromises financial hygiene.

Technology alliances – Leveraging global know-how to strengthen competitiveness and differentiation.

People and brand – Investing in leadership, technical talent, and visibility to reposition BTL as a modern, solutions-oriented partner.

The road ahead

Our next phase will be defined by speed, precision, and capital discipline. Key focus areas include:

- Strengthening engineering and design for pre-bid technical edge.
- Accelerating project delivery and reducing working capital cycles.
- Enhancing margin consistency through tighter cost management.
- Expanding our presence as not just an EPC player, but a partner of choice for sustainable, technology-driven infrastructure execution.

BTL EPC is at the intersection of opportunity and readiness. The sector is expanding, the demand is accelerating, and our capabilities are proven. The journey ahead is not incremental it is transformational. With disciplined execution, we aim to create disproportionate value for stakeholders and establish BTL EPC among India's most respected engineering solution providers.

Our time starts now.

Ravi Todi
Managing Director

How we have reinvested our Company **in the last few years**

Proprietary design: How we transformed our business in the last few years

The Company invested in proprietary design capabilities

- Empowered the Company to provide complete design solutions
- The Company increased design professionals.
- The Company moderated design turnaround time from 90-150 day to 60 days
- This strengthened the Company's positioning as a nimble complete solution provider

Technology investments: How we transformed our business in the last few years

The Company modernised and retrofitted equipment

- It invested in advanced semi automatic and automatic welding
- It created a strong eco-system of material providers
- It engaged consultants for time-motion studies
- It enhanced the role of AI in project management

Deeper governance: How we transformed our business in the last few years

The Company strengthened its governance-driven culture

- It delegated extensively across teams with enunciated guardrails
- Through his continuous engagement and direction, the MD guided his team away from daily reactive tasks towards strategic leadership roles
- It enhanced the role of data in decision making
- It created cross-functional committees

Chief Financial Officer's **performance overview**

A financial perspective **into our business**

How we accelerated business growth in FY 25 and reinforced our foundation for business sustainability

Big picture: The big picture message is that BTL EPC reported high growth without compromising its fundamentals during the year under review. The all-round growth was the result of the Company seeking to prioritise controlled momentum without diluting high operational and financial benchmarks.

This validated the Company's overall discipline, marked by planning, checks cum balances, technology-based monitoring (ERP), liquidity emphasis and a commitment to complete all projects within the scheduled time. The Company retained its national leadership in the space of Bulk Material Handling Systems (conveyor system) including the supply of underground mining conveyor systems, marked by competencies in the field of design and engineering, manufacturing, project management, and fund flow management.

The Company balanced its business momentum while creating a new foundation that will empower the Company towards the next growth phase. The fact that the Company could report revenue growth of 22%, EBITDA growth of 21%, PAT growth of 41% and win new contracts (the largest in its existence) indicates its overarching competence in addressing stakeholders needs for the moment and the future.

Order book: The principal challenge that the Company faced during the year under review was the need to bag orders through a prudent leverage of its credentials. This challenge was accentuated by the fact that the Indian government announced the largest infrastructure building outlay in the last three Union Budgets (2023-24, 2024-25 and 2025-26), particularly in the area of coal-based power plants and the modernisation of steel plants, indicating that growth of the country would now be driven by proactive infrastructure expansion. In this environment, there will be a priority to be growth-ready through credentials, effective project bidding and timely projects completion.

During the last financial year, your Company seeded its growth foundation to graduate to the next level. At the start of the year under review, your Company possessed an order book of ₹1,178.98 Crore; during the year under review, your Company added ₹1,686.26 Crore in new orders and finished the year with a pending order book of ₹2,165.83 Crore. The order book was indicative of sizable growth in the engineering division since business in the Agrimech division was conducted on a cash-and-carry basis.

The Company's order book primarily comprised Bulk Material Handling Systems (conveyor systems) catering to key industries such as Coal, Mining, Power, Steel, and Fertilisers. In addition, the Company addresses ash handling systems for power plants, and Chemical Plant projects for steel plants. This diversified portfolio reflects the Company's presence across critical infrastructure and industrial sectors.

This order book crossed ₹2,000+ Crore for the first time, enhancing respect for the Company among heavy engineering fabrication cum EPC players in Eastern India, which translated into a better perception among stakeholders. This order book is to be liquidated in the next 24 months, translating into revenues from FY 26 to FY 28.

Revenue: The Company derives its revenue from the manufacturing and supply of engineering products, execution of turnkey projects, and agri-machinery sales. During the year under review, 37% of our revenues was contributed by self-manufactured products, 54% by turnkey projects, and 9% by the agri-machinery business.

Profitable growth: The Company's business model was validated by profitable growth across 10+ years. Each time the Company scaled revenues, it generated a superior amortisation of fixed expenses, widening margins. In view of this, the Company's revenue growth now translates into a higher rate of profit accretion.

Profitable growth

Year	FY 23	FY 24	FY 25
Revenue growth (%)	60	23	22
PAT growth (%)	154	120	41

Rating: The highlight of the Company's performance was how it was perceived by demanding credit rating agencies. Your Company upgraded its credit rating from BBB to BBB+, as appraised by CRISIL. The rating was favourably influenced by the Company's increased pre-qualification credentials, established market presence, experienced management, reputed clientele, order book position and a robust financial risk profile. This creditable rating is likely to generate positive spin-offs, empowering the Company to mobilise low-cost short-term debt across longer tenures. This rating is likely to improve, backed by the Company's robust financial performance in FY 25.

Credit rating

Year	FY 23	FY 24	FY 25
Credit rating	Acuite BBB	Acuite BBB	CRISIL BBB+

Capital efficiency: The Company reported creditable profitability during the year under review and maintained its EBITDA margin above 13%. RoCE strengthened to 23.11% in FY 25 as compared to 20.42% during last FY; RoE improved from 14.97% (FY 2023-24) to 17.77% (FY 2024-25).

The improvement in business health was led by larger contracts, upgraded manufacturing, greater in-house production, and disciplined working capital management, strengthening the Company's foundation for sustainable growth.

The Company is confident of sustaining returns driven by equity-funded growth, efficient execution, advanced technologies, and larger contracts.

Funding the expansion: BTL EPC's expansion continues to be funded on a strong and conservative financial base. The Company carries low long-term debt, while short-term borrowings are limited to cash-credit facilities from banks only. During the year under review, total debt declined from ₹136.98 Crore to ₹121.58 Crore, while net worth (including revaluation) strengthened from ₹269.95 Crore to ₹325.23 Crore. This low gearing, backed by internal accruals and prudent working capital management, provides the Company with ample headroom to fund growth and enhance long-term value creation. This also provides comfortable room for the Company to raise additional debt in case of any future requirements.

Margins: During the year under review, the Company sustained its EBITDA margins at levels comparable to the previous year. This performance was supported by a consistent focus on timely execution and the closure of projects, with an increasing number of contracts and larger project sizes contributing to a better absorption of fixed costs. A prudent mix of volume-driven economies, resource optimisation and activity-based costing sustained margins, positioning the Company among the most competitive players in the countries heavy engineering space.

Year	FY 23	FY 24	FY 25
EBITDA as on % of revenues	9.64	13.6	13.4

Liquidity: Liquidity management remained the cornerstone of the Company's financial discipline. BTL EPC followed a policy of reinvesting earnings into growth, moderated on long-term debt, and selectively used short-term borrowings. This approach strengthened net worth, optimised working capital, and reduced finance costs despite increased volume.

During the year, efficiency improved through tighter inventory control, faster receivable collections, and milestone-linked project payment realisations. These measures enhanced working capital turns, kept borrowings well below sanctioned limits, and improved interest coverage.

With a robust Balance Sheet, healthy cash flows, and strong gearing ratios, the Company leveraged its position to secure procurement efficiencies and enhance profitability. Going forward, BTL will drive liquidity through value-addition, greater in-house manufacturing, asset-light execution, and a faster execution of turnkey projects.

Working capital intensity

Year	FY 23	FY 24	FY 25
Working capital (cash credit) use as % of total sanction	89	81	62
Receivable days	131	138	130

Debt management: The Company's total debt declined from ₹136.98 Crore to ₹121.58 Crore; net worth (including revaluation) strengthened from ₹269.95 Crore to ₹325.23 Crore, making the gearing stronger in 2024-25 as compared to 2023-24–as the Company grew net worth on the one hand and used short-term debt to address working capital requirements during the last financial year.

By the virtue of completing projects on schedule coupled with realising receivables on schedule and milestone-based retentions, the Company remained comfortably liquid. The Company's preference for the use of net worth in business growth proved value-accretive, maximising cash flows and creating a war chest for prospective investments and inorganic expansion.

Debt status

Year	FY 23	FY 24	FY 25
Total debt (₹ Crore)	117.14	136.98	121.58
Debt-equity ratio	0.51	0.51	0.37

Material procurement: The Company is engaged in a business marked by fluctuations in material costs and a commitment to provide completed projects at a focused cost. This makes it imperative to take a forward call on commodity price movements, negotiate volume-based documents with material providers and work with specialised material providers only. During the year under review, your Company moderated overall material costs as a proportion of revenues from 76% to 75.7%, enhancing margins.

Digitalisation interventions: In the heavy engineering and EPC business, the ability to manage complex, concurrent site dynamics is critical. To strengthen this capability, BTL EPC made decisive investments in digitalisation, ERP systems, advanced design software and online monitoring platforms. Together, these initiatives created an integrated framework for project planning, execution, and control. The adoption of design optimisation software helped standardise processes, reduce material wastage, and enable precise planning. Online monitoring systems now track project progress, equipment utilisation, and resource efficiency, ensuring issues are flagged early and addressed quickly.

On the financial side, ERP-driven digitalisation strengthened planning, cost control, and project monitoring. This improved bidding accuracy, enhanced execution discipline, and ensured that projects are delivered within targeted cost and time benchmarks.

BTL EPC aims to extend digital integration across the entire value chain—from design and procurement to execution and closure—leveraging technology for efficiency, stronger risk management, and sustainable growth.

Merger and acquisition: During the year under review, BTL completed the merger and acquisition of MBE Coal and Mineral Technology Pvt. Ltd, strengthening its manufacturing base and expanding its product portfolio to include washeries cum mineral beneficiation projects and their products. This strategic move will unlock new avenues for growth, support our vision of achieving a ₹2,000 Crore topline with more than 15% EBITDA, and reinforce our commitment to innovation, diversification, and long-term value creation.

Way forward: The Company enjoyed a strong financial position at the end of the fiscal year under review. The Company's net worth stood at ₹325.23 Crore (including revaluation) as on 31st March 2025, with ₹121.58 Crore in debt (long- and short-term). The Company's net worth was the outcome of a long-term build-up of surpluses. In an unpredictable world, this significant net worth bias implies relative de-risking; it provides the Company with resilient capital during challenging periods.

With the Government of India's strong emphasis on infrastructure development—ranging from new power plant projects and capacity upgrades of existing facilities to the modernisation and expansion of steel plants and enhanced coal production mandates for mining companies—the Company is strategically positioned for significant growth across its core sectors of power, steel, and mining. A substantial pipeline of tenders and enquiries from existing as well as potential clients has already been released or is in the process of being issued, providing a foundation for opportunities. Building on this momentum, the Company has set an ambitious target of achieving revenues of over ₹2,000 + Crore in the next three years, supported by a sustainable EBITDA margin of more than 15%.

Sourab Kumar Jha,
Chief Financial Officer

Business **driver**

How we deepened our technological **capabilities at BTL EPC**

Overview

At BTL EPC, technology is seamlessly integrated across every stage of operations: from estimation and design to manufacturing and quality assurance. Leveraging a combination of advanced software, automation tools, and semi-automated equipment, we optimise processes, reduce cycle times, and enhance project delivery.

Deepening our technology-led competence

Collaborations: The Company partnered global technology leaders to infuse cutting-edge practices and drive operational excellence.

Capability building: The Company invested in workforce training programs to accelerate adoption of new technologies and tools.

Proprietary: There was an emphasis on indigenous design and manufacture, enhancing cost-effectiveness.

Contemporary/advanced tools: The Company deployed the latest design tools, software, and design automation for enhanced efficiency and precision. The Company deployed state-of-the-art design software, digital modeling tools, and automation systems to boost precision and productivity.

Integrated design: Built a specialised design team with deep domain expertise to deliver customised solutions efficiently.

Engagement/end-to-end engagement: The Company involves technical personnel across all project phases - from concept to commissioning. This enables efficient execution and comprehensive knowledge alignment.

Highlights, FY 2024-25

The positive outcomes that emerged from the technology interventions comprised increased customer reach, improved lead generation, enhanced customer support, quicker turnaround time, concurrent management of multiple projects, reduction in repair and rework at project sites, improved interface and integration checks (between mechanical, civil, and structural design disciplines), data-driven decision-making, implementation of customer relationship management and the deployment of state-of-the-art automated equipment, improving quality and productivity.

The Company made the following technology investments during the year under review.

Key projects design: Ash handling and coal handling plants, by-product plants and JSW paddle feeder.

Software upgrades: AutoCAD, Pogicad, PVElite, SolidEdge and Ansys

Manufacturing: CNC and automatic machines.

Initiatives, FY 2024–25

Software and design enhancements: BTL EPC upgraded engineering tools with E3D, Ansys Rocky, and ETAP, while expanding its Tekla license base to enhance design efficiency and project accuracy.

Manufacturing upgrades: BTL EPC strengthened manufacturing capabilities with the installation of CNC machines and deployment of automatic production equipment.

Outlook, FY 2025–26

BTL EPC will leverage technology to scale to the next orbit of growth. This includes optimised estimation and design, a faster delivery cycle, increased throughput, deployment of the latest technologies, and minimising downtime. BTL EPC will launch new products using MBE CMT technology and introduce crushers via a technology transfer with UK-based collaborator. It also plans to roll out underground mining equipment in collaboration with Poland. With an unwavering focus on providing complete, technologically advanced solutions, the Company remains committed to deliver customer delight through continuous innovation and excellence.

Business **excellence**

How we invested deeper in **cutting-edge research at BTL EPC**

Overview

At BTL EPC, research and development catalyses innovation, competitiveness, and growth in our heavy engineering manufacturing-driven business.

The management envisions R&D as a key enabler in developing non-conventional, cost-effective solutions that optimise performance.

The Company is engaged with industry experts, academic institutions, reputed consultants, and technology collaborators to stay abreast of the latest advancements. Regular knowledge-sharing initiatives such as seminars, technical sessions, and training programs in partnership with esteemed institutions (the IITs, Jadavpur University, and IIEST Shibpur) have strengthened our capability to upgrade our technological edge.

A forward-looking ₹50 Lacs investment was made in research and development in FY 25.

Outlook, FY 2025–26

BTL EPC will leverage its R&D capabilities to propel the Company into its next phase of growth. The focus will be on strengthening competencies by prioritising research in areas where the Company enjoys a competitive edge, enabling the development of cutting-edge and cost-effective solutions.

BTL EPC plans to explore emerging technologies such as artificial intelligence, machine learning, and other advanced digital tools to drive product innovation and improve quality. The Company is committed to deepen a culture of continuous learning, creativity, and cross-functional knowledge sharing, while promoting collaboration with academic institutions and external technology partners.

These initiatives will support the development of new products and services, enhance operational excellence, and reinforce BTL EPC's position as a future-ready, innovation-driven organisation.

Case study

In NTPC Pakri, TP13A foundation modification through design analysis with IIT and NTPC

Reality: The foundation design of TP13A required a critical modification due to unforeseen structural challenges. The existing design proved inadequate to address updated load and site conditions, posing risks to structural stability.

Activity: BTL EPC collaborated with experts from IIT and NTPC to undertake a comprehensive design analysis. Advanced engineering simulations and structural evaluations were conducted to reassess and optimise the foundation layout.

Overcome: Through re-engineering, the foundation design was modified to address all technical and safety standards. The solution ensured structural integrity without compromising project timelines, reinforcing BTL's research-driven capability in resolving complex engineering challenges.

Case study

Exhauster foundation redesign with a Vibration Isolation System (with GERB and CET) in SAIL Coke Oven By-Product, Bhilai

Reality: The initial foundation design for the exhauster system encountered vibration issues during operations, leading to concerns about equipment performance, structural fatigue, and long-term reliability.

Activity: BTL EPC collaborated with vibration control specialists GERB and engineering consultant CET to redesign the foundation. A vibration isolation system was integrated into the new design using advanced engineering tools and techniques to mitigate vibration.

Overcome: The redesigned foundation with the vibration isolation system eliminated excessive vibrations, ensuring smooth equipment operation and structural stability. This solution enhanced operational efficiency and demonstrated BTL EPC's research-driven ability to deliver engineering excellence.

Our **responsibility**

Our Environment, Health, and Safety **(EHS) commitment at BTL EPC**

Overview

At BTL EPC, EHS is not merely a compliance function; it is a priority.

Our EHS policy is modern, measurable, and mission-driven; it is aimed to safeguard the well-being of our workforce and stakeholders, minimise environmental impact, and leverage digital and AI tools for proactive risk management.

Aligned with ISO 45001, ISO 14001, and statutory regulations, our EHS policy enforces continuous learning and adaptive risk control. HSE is critical to operations because it protects lives, sustains productivity, ensures legal compliance, and upholds our industry reputation.

Our strengths

Zero harm culture: The Company embedded across all operational levels, emphasising prevention and proactive safety.

Technological leadership: The Company integrated AI, ML, and real-time data analytics for decision-making responsiveness.

Certified talent pool: The Company deployed trained safety professionals accredited by NEBOSH, RLI, IOSH, and DGFASLI.

Global benchmarks: The Company participated in national and international EHS forums for enhanced safety. It tracked and improved safety behaviour using analytics.

Initiatives, FY 2024–25

AI-powered safety platforms: The Company invested in predictive hazard identification, risk mapping, and incident prevention.

Mobile safety applications: The Company invested in real-time hazard reporting, digital inspections, and instant safety alerts.

Wearable technology: The Company engaged in health risk monitoring through biometric systems and safety trackers.

Digital SOP libraries: The Company made high-risk procedures accessible via handheld devices on-site.

Up-skilling initiatives: The Company invested in advanced certifications for safety personnel and multilingual AI training kiosks.

Digitised safety plans: The Company formulated heat wave and monsoon response plans linked to weather APIs.

Digital HSE audits: The Company ensured transparency, traceability, and accountability.

Green infrastructure: The Company invested in solar lighting, ventilation optimisation, and rainwater harvesting.

Highlights, FY 2024-25

- The Vision Zero 2025 initiative was launched to pursue zero injuries, compromise, and downtime.
- The Company reported no major incidents across multiple high-risk sites.
- The Company's first aid certification covered all staff and contractual workers.
- The Company engaged in digital toolbox talks and safety briefings via safety apps.
- The Company's safety rewards and recognition app was launched.
- The Company's AI-enabled workshops were operationalised in the Durgapur and Kharagpur units.
- Over 90% lost time injury frequency rate reduction was achieved across five years.
- Environment initiatives comprised advanced paint booths, reduced emissions, water and energy optimisation, and sustainable materials use.

Achievements, FY 2024-25

- The Company maintained its zero-fatality record in high-risk construction and fabrication zones.
- The Company was acknowledged by clients for excellence in projects like Nagarnar (strict adherence to permit-to-work systems, real-time hazard reporting, and behavioural safety observation protocols), Kalinganagar (appreciation for the rapid implementation of AI-based safety kiosks and wearable safety trackers), Sindri (landed for process safety measures and advanced gas detection systems) and Parki NTPC project (robust marine safety drills and wind speed-triggered work stoppage protocols, unique in EPC marine works).
- Operationalisation of high-tech, AI-enabled workshops with automated systems that reduced manual intervention and hazards exposure.
- Multi-lingual safety training kiosks for accessible and customised learning.
- Global active participation involvement in National Safety Week and International EHS forums.

Outlook, FY 2025-26

BTL EPC is committed to deepen its HSE outperformance by enhancing safety protocols across all operational areas. The Company plans to deepen investments in employee training and real-time health monitoring infrastructure. It will emphasise an alignment with evolving HSE regulations and compliance with ISO standards. BTL will seek to improve year-on-year metrics related to water, power, and chemical consumption per unit of output, deepening environmental sustainability. These efforts are expected to boost productivity by reducing downtime and ensuring a safer work environment.

Our **responsibility**

Our Environment, Social, **and Governance culture at BTL EPC**

Overview

At BTL EPC Ltd., we are integrating ESG principles deeper into operations and strategy. We promote environmental sustainability through responsible engineering and resource efficiency, ensure a safe and inclusive workplace. Our governance practices are centred around transparency, integrity, and accountability. The complement of these initiatives is reinforcing our position as a responsible forward-looking player.

Our ESG policy

At BTL EPC Ltd., our ESG policy is built around a commitment to environmental sustainability, social responsibility, and strong governance. These ESG principles are integral to our long-term sustainability, empowering us protect the environment, uphold corporate values, and maintain our reputation as a trusted player in the infrastructure and EPC industry.

The Company focuses on minimising resource consumption and managing waste. It is equally committed to foster a safe, healthy, and inclusive workplace. In line with this, it sustained continuous training, increasing the deployment of safety personnel, and investing in health-monitoring infrastructure. These efforts resulted in substantial improvements in safety performance and reduced incident rates across project sites.

The Company's governance framework emphasises transparency, regulatory compliance, and ethical conduct.

Targeted ESG investments

BTL EPC made focused investments in infrastructure, equipment, and personnel to enhance its ESG framework. These included upgraded safety equipment for workers, training programs and certification courses for employees and the deployment of environmental sustainability measures such as waste management systems and low-emission equipment.

Creditable ESG achievements

The Company has been recognised for its progress in key ESG areas, reflected in the following positives:

- Notable reduction in on-site accidents
- Adoption of green technologies for energy efficiency and waste reduction
- Wide implementation of health and safety certification programs for all workers

Our water management

Overview

BTL EPC Ltd. emphasises responsible water use as a part of its commitment to environmental protection. Water at BTL EPC is used for sanitation, drinking, and hygiene, with a focus on efficient use and conservation.

Initiatives, FY 2024–25

Rainwater harvesting: Implemented to reduce dependence on external water sources and recharge groundwater.

Low-flow plumbing fixtures: Installed to minimise water consumption without compromising utility.

Ecopal bio-toilets: Eco-friendly sanitation systems ensure minimal water use while maintaining worker hygiene standards.

Outlook

BTL EPC remains dedicated to sustainable water management by expanding its conservation infrastructure and integrating innovative technologies. The Company's proactive approach reflects its long-term vision for resource efficiency and environmental stewardship.

Our energy management

Overview

BTL EPC is committed to reduce its environmental footprint through efficient energy management. The Company optimises energy consumption across operations by upgrading infrastructure, adopting renewable energy solutions, and promoting energy-conscious behaviour.

Initiatives, FY 2024–25

Infrastructure upgrades: The Company adopted LED lighting, energy-efficient machinery, and solar-powered systems for administrative and domestic applications.

FY 2024-25 Initiatives: The Company introduced solar-powered street lighting, replacement of conventional HVAC systems with energy-efficient models, and organisation of employee awareness campaigns to foster energy conservation. The Company is in the process of adding solar panels for their factories.

Our resource management

Overview

BTL EPC Ltd. practices a responsible and sustainability-oriented approach to resource management, aligning its operations with globally recognised standards such as ISO 14001. The Company emphasises eco-efficiency and continuous monitoring to optimise resource consumption and minimise environmental impact.

BTL EPC's principal resource inputs include steel and metals for fabrication, electrical energy (sourced from the grid and renewable solar power), water (used for sanitation and domestic purposes), and packaging materials. This conscious use pattern reflects the Company's commitment to reduce its ecological footprint.

In line with its vision for sustainable development, BTL EPC has adopted model practices such as the deployment of Eco Pal bio-toilets, a pioneering sanitation solution while also assisting clients in fulfilling their CSR mandates through community sanitation projects. The Company's green engineering approach integrates environmental responsibility with social impact, supported by behavioural change programs that promote sanitation adoption.

BTL EPC has set ambitious long-term goals, including a transition to 100% renewable electricity, achieving net-zero manufacturing waste, minimising freshwater usage, and expanding Eco Pal installations across rural India. These goals reinforce the Company's integrated strategy for sustainable growth and community development.

Our health commitment

BTL EPC emphasises employee health and safety, particularly for field workers exposed to harsh weather and physical hazards. To mitigate these risks, the Company implemented safety protocols, on-site first-aid, emergency medical support, and comprehensive health insurance. Regular health monitoring, training, and wellness programs support employee well-being. The effectiveness of these initiatives is tracked through incident data, feedback, and routine medical check-ups.

Initiatives, FY 24-25

Climate-specific safety measures: The Company implemented a Heatwave Management Plan, including hydration stations and distribution of ORS; deployed a Monsoon Management Plan with waterproof gear and proper drainage systems.

Health monitoring: The Company introduced real-time health data recording systems at all sites; daily monitoring using wearable devices and regular health assessments, including temperature and blood pressure checks.

Health education and preparedness: First-aid certification was provided for all employees; regular health and wellness workshops focused on stress, nutrition, and fitness.

On-site safety enhancements: On-site first aid is equipped with basic medical supplies and adequately staffed; we provide comprehensive medical insurance for employees that covers health-related expenses; emergency medical support is available at all project sites and offices to handle immediate medical needs.

Our safety commitment

At BTL EPC, safety remains a priority across all operational areas including construction, manufacturing, logistics, and power plant sites. Key risk zones include working at heights, handling heavy equipment, exposure to hazardous substances, and managing high-voltage systems. The Company adopted a proactive approach to mitigate these risks through a defined safety policy, Board-level oversight, and integration of safety into strategic project planning. Regular audits, training, and stakeholder engagement strengthened the safety culture.

Initiatives, FY 24-25

Policy: The Company has a clear, enforceable safety policy that defines safety responsibilities for every employee.

Safety importance: Safety is a core value of the Company, integrated into every stage of project planning and execution.

Board focus: The Board reviews safety performance and ensures that resources are allocated to improve safety standards.

Awareness: The Company conducts regular safety training programs and awareness campaigns.

Engagements: Regular safety meetings with stakeholders ensure a collaborative safety culture.

Safety team: The Company strengthens the safety team with employees who possess specialised certifications, such as an advanced diploma in industrial safety from RLI Kolkata.

Periodic reporting: Internal and external stakeholders receive regular safety reports, including daily safety reports, audits, and inspection findings.

Recruitment: The Company hired top-tier safety advisors to oversee project-specific safety plans and to improve safety protocols.

Training: The Company provided specialised training for site engineers and safety officers based on project-specific requirements.

Infrastructure: The Company upgraded safety infrastructure, including the installation of paint booths and protective equipment at sites.

Safety week: The annual celebration of National Safety Days, Environment Day and Fire Safety Days reinforced the safety culture.

Safety management: The Company managed through on-site corrective actions, disciplinary measures for repeat offenses, root cause analysis, and regular safety reviews to ensure a continued adherence with protocols.

Monitoring and measurement of safe operations: Safe operations were monitored through the tracking of accident-free hours, routine safety audits and site inspections to ensure compliance, and systematic incident reporting and analysis to enhance safety protocols and prevent future occurrences.

Our safety certifications

- ISO 45001 (Occupational Health and Safety Management Systems)
- Certification from leading industry bodies for compliance with national and international safety standards.

Case studies

Effective heat wave management

Reality: Multiple project sites faced extreme heat, with temperatures exceeding 45°C, raising the risk of heat-related illnesses like dehydration and heat stroke, particularly for outdoor workers exposed to direct sun and limited cooling options.

Activity: Key measures included daily weather monitoring with alerts, adjusted work hours to avoid peak heat, and the set up of cooling stations with fans, ORS, and shaded rest zones. Workers received training on recognising heat stress symptoms, while regular health check-ups and strict hydration protocols ensured ongoing protection and awareness.

Outcome: The proactive measures led to zero cases of severe heat-related illness, with productivity and morale maintained across sites. The initiative was recognised as a best practice in health and safety audits, while worker feedback reflected a trust in site safety and a culture of care.

Accident-free project sites

Reality: Construction and engineering projects carry inherent risks, particularly in high-risk activities such as heavy lifting, working at heights, and equipment handling. In such environments, maintaining accident-free operations requires rigorous planning, continuous vigilance, and a strong safety culture.

Activity: To ensure zero-accident outcomes, a comprehensive safety management system was implemented across all project sites. This included strict adherence to standard operating procedures, daily toolbox talks, mandatory PPE usage, regular safety audits, and on-site safety officers monitoring compliance. Continuous training and awareness sessions were also conducted to reinforce safe work practices and emergency preparedness.

Outcome: Several projects were completed without a single reportable accident, reflecting the effectiveness of our safety measures. This achievement not only ensured the well-being of our workforce but also enhanced project efficiency, client satisfaction, and our reputation for delivering safe and responsible operations.

Our governance commitment

Governance is seen as possibly the most important corporate development across the last two decades, directed to take unpredictability out of business, prepare stakeholders of what to expect from an enterprise and create a global understanding of related best practices.

The result is that governance represents the soul of a business enterprise. It is the measure by which management pedigree is appraised; it is the measure by which corporate depth is ascertained; it is the broad understanding based on which critical investments decisions are made.

In today's world, a comprehensive governance framework comprises a company's stand on ethics, regulatory compliance, best practice benchmarking, digitalisation, risk appetite cum mitigation, Board role, strategic direction and desired corporate momentum. It has been observed that companies with a deep governance culture are not only more predictable in terms of profits and profitability but also enhance stakeholder value in a more sustainable way.

Overview

BTL EPC's commitment to governance has enhanced its respect and stakeholder trust, positioning it as a responsible industry leader.

BTL EPC's governance is influenced by an alignment of regulatory compliance, stakeholder interests, and long-term value creation covering the following priorities:

Roadmap: We have created a transparent roadmap for the benefit of all our stakeholders. This underlines that quantum of value that we seek to create (based on today's understanding of realities), by when and through what business vertical. This framework represents our fundamental approach to value-creation, attracting like-minded stakeholders. We seek to create disproportionate long-term value, a principle that guides all decisions related to space selection, geographies, recruitment, technologies, acquisitions, eco-system compatibility and customer selection.

Ethical: We remain committed to do the right things (in addition to doing the right things for enhanced efficiency). This combination enhances organisational predictability, taking shocks out of the system. More importantly, this attracts stakeholders who believe in doing business our way. This result is stakeholder trust. This comprises, among other things, a conservative interpretation of accounting policies, complete alignment with compliances and following the laws of the land. We also live the highest conduct standards - a strict adherence with gender equality, zero sexual harassment tolerance, no patience for unethical behavior, unbiased recruitment, respect for human dignity and compliance with environmental standards.

Focus: We have chosen to specialise in the heavy engineering space across select verticals. This focus will empower us to deepen our presence in each vertical and evolve from just another player into one that can be completely trusted. This relatively narrow field of competence represents our biggest insurance; this specialisation is strengthening our brand in a progressively commoditising world.

Controlled growth: We will address markets that are growing attractively. To expand aggressively implies that we generate sub-average realisations or nurse large unutilised capacity until the market growth caught up our installed base. We believe that steady growth is safe, protecting stakeholder interests. We will balance caution with aggression (strategic aggression and tactical conservatism), focus on capital investments generating an attractively short-term payback, maximise cash flows over mere paper profits and work with an under-borrowed Balance Sheet.

Stakeholder relevance: We prioritise the well-being of all stakeholders. Our customers will enjoy efficient and cost-effective solutions; our employees must feel a sense of ownership and purpose; our investors we promise superior returns; our community must benefit from our presence; our government must benefit through tax revenues and job creation; our vendors must grow their businesses by providing products and services to us. By this commitment, we exist not for ourselves but for our entire eco-system – every agency associated with our Company should benefit.

Knowledge-driven: We are a knowledge-driven organisation. We have invested in digitalisation with the forward-looking objective to accelerate processes, generate rich data (consumers, customers, consumption, markets etc.) resulting in an accurate understanding of ground realities and informed decision-making. This approach has helped mature the organisation into one that is driven largely by technology-aided growth. We believe that, going ahead, our investment in SAP, data analytics and digitalisation initiatives will strengthen our processes and fact-based decision-making.

Frugality: We conduct ourselves with responsible frugality. We will seek to peg any increase in fixed expenses that is either matched or lower than historical inflation. We seek to expand our revenues without sizable net worth infusion.

Board of Directors: We believe that quality of our Board will influence the quality of our strategic decision making and the respect that our Company evokes. The result is that we have embarked on the process to transform our Board one individual at a time. Our Board members will bring a wealth of their understanding and experience to our business. These individuals will bring to our table a complement of values, bandwidth, business understanding and strategic direction. The Company emphasised Board-level oversight on long-term strategy, risk management, ESG (Environmental, Social, and Governance) integration, and sustainable growth pathways.

We have chosen to specialise in the heavy engineering space across select verticals. This focus will empower us to deepen our presence in each vertical and evolve from just another player into one that can be completely trusted.

Composition of the Board of Directors

Board composition in FY 2024–25

Name	Designation	Category
Mr. Sunil Kumar Mittra	Chairman	Independent Director
Mr. Ravi Todi	Managing Director	Promoter Director
Ms. Rhea Todi	Whole time Director	Executive / Woman
Mr. Avik Mukherjee	Executive Director	Executive
Mr. Sourav Daspatnaik	Independent Director	Independent
Mr. Subrata Paul	Independent Director	Independent
Ms. Arundhuti Dhar	Independent Director	Independent / Woman

Independent Directors: 4

Woman Directors: 2

Director associated since inception: Mr. Ravi Todi

Directors with over 10 years of directorship experience: Mr. Ravi Todi, Mr. Sunil Mittra, Mr. Subrata Paul, Mr. Sourav Daspatnaik, Ms. Arundhuti Dhar

Average age of Directors: 57 years

Combined experience of Board Members: 210+ years across various sectors

Directors' Age, Education and Professional Experience

Mr. Sunil Kumar Mittra: 76 years | IIT-BHU (Mechanical), MBA (CU), IIM-A | 41+ years in engineering & quality systems

Mr. Ravi Todi: 56 years | B.Com. (St. Xavier's), Executive MBA from Harvard Business School, Boston | 31+ years in strategic leadership & entrepreneurship

Ms. Rhea Todi: 26 years | B.Sc. (Business Admin), Chapman University, CA | Cross-functional leadership in communication, CSR and agro business

Mr. Avik Mukherjee: 60 years | B.Sc. (Physics), PGDHRM, IIM-B alum | 35+ years in HR & strategic management

Mr. Sourav Daspatnaik: 62 years | B.E. (BIT Mesra), M.S. (Stevens, NJ) | 37+ years in operations, water & clean-tech projects

Mr. Subrata Paul: 73 years | IIT-KGP, MBA (London Business School) | 38+ years across diverse sectors (FMCG to infrastructure)

Ms. Arundhuti Dhar: 52 years | B.A. (St. Xavier's), IIMC Certificates | 29+ years in CSR, brand strategy & social development

Board Members' value addition: Skills, knowledge and key functional areas

Director	Key Skills & Expertise	Functional Contribution
Mr. Sunil Kumar Mittra	Engineering, Quality Control, Strategic Oversight	Governance, Audit, Strategic Advice
Mr. Ravi Todi	Business Leadership, Growth Strategy, Entrepreneurship	Group Vision, Strategic Direction
Ms. Rhea Todi	Communication and Brand leadership	CSR, Stakeholder engagement, business development
Mr. Avik Mukherjee	HR, Policy, Organisational Development	People Strategy, Remuneration, Culture
Mr. Sourav Daspatnaik	Operations, Sustainability, Public Sector Engagement	CSR, CleanTech Projects, Stakeholder Mgmt
Mr. Subrata Paul	Infrastructure, Project Execution, Risk Management	Project Evaluation, Audit Oversight
Ms. Arundhuti Dhar	Social Impact, Financial Inclusion, Training	CSR, Social Initiatives, Diversity & Inclusion

Board Committees and Members

Committee	Members	Chairperson
Audit Committee	Mr. Sunil Kumar Mittra, Mr. Subrata Paul, Mr. Ravi Todi	Mr. Sunil Kumar Mittra (ID)
Nomination and Remuneration	Mr. Sourav Daspatnaik, Mr. Sunil Mittra, Mr. Avik Mukherjee	Mr. Sourav Daspatnaik (ID)
Corporate Social Responsibility	Mr. Sourav Daspatnaik, Mr. Ravi Todi, Ms. Rhea Todi	Mr. Sourav Daspatnaik (ID)
Management Committee	Mr. Ravi Todi, Ms. Rhea Todi, Mr. Avik Mukherjee, Mr. Subrata Paul	Mr. Ravi Todi (MD)
Independent Directors' Committee	Mr. Sunil Mittra, Mr. Sourav Daspatnaik, Mr. Subrata Paul, Ms. Arundhuti Dhar	(Rotational / As Required)

Responsibility

Our Corporate, Social Responsibility **(CSR) commitment**

Overview

BTL EPC views Corporate Social Responsibility (CSR) as an essential part of its business philosophy, rooted in the belief that sustainable growth is meaningful only when it uplifts the communities it touches. Guided by the principles of inclusivity, shared prosperity, and long-term impact, the Company actively contributes to the social and economic well-being of underprivileged communities across India.

Our CSR focus

BTL EPC focuses on the following areas under Schedule VII of the Companies Act, 2013:

Education and skill development: The Company provided scholarships, mentorship programme, and support for higher education of underprivileged students. Key programmes comprises scholarships and mentorships via Atmasantosh Foundation for underprivileged youth.

Health and sanitation: The Company organised medical camps and wellness outreach in underserved communities. Key programmes comprises free medical camps and COVID-relief efforts through Acharya Shanti Sagar Foundation.

Women and child welfare: The Company supported communities through education, healthcare, and community-based initiatives. Key programmes are integrated within education and healthcare initiatives for long-term support.

Village and community development: The Company supported sanitation, infrastructure, public health, and livelihood development. Key programmes comprised support for infrastructure, sanitation, heritage restoration, and livelihood programme.

Environmental sustainability: The Company involved in civic engagement, awareness drives, and environmental workshops. Key programmes comprised civic awareness campaigns with Alliance Française du Bengale.

Promotion of art, culture and heritage: The Company helped preserve India's cultural legacy, contemporary art and artists. Key programmes comprised the promotion of theatre and performing arts through Anamika Kala Sangam and Bengal Biennale.

Animal welfare: The Company engaged in the rescue and treatment of stray and abandoned animals, veterinary services, and adoption support. Key programmes are rescue, treatment, and adoption support via Chhaya Animal Foundation.

Our CSR spending

Financial year	CSR expenditure (₹ in Lacs.)
2020–21	₹31.13
2021–22	₹12.25
2022–23	₹15.15
2023–24	₹33.01
2024–25	₹60.65

Business **driver**

Our talent **management at BTL EPC**

Overview

At BTL EPC, we navigate a dynamic business landscape, addressing workforce competitiveness and capabilities. The more competitive our people, the more effective our organisation.

The Company's human capital strategy was aligned with the Company's growth ambition, ensuring that the workforce remained future-ready. The strength of the HR function comprised responsiveness in adapting to dynamic sectorial realities.

HR initiatives, FY 2024–25

Continuous learning and upskilling: The Company rolled out comprehensive training programs, expanded the use of e-learning platforms, and launched career development initiatives to keep its employees ahead of industry trends.

Enhanced data and analytics capabilities: The Company developed and implemented robust people analytics platforms to generate actionable insights on workforce performance, engagement, and strategic planning.

Talent acquisition and retention: The Company deployed recruitment strategies, improved onboarding processes, and enhanced retention initiatives to build a high-performing workforce.

Outlook, FY 25-26

As competition for skilled talent intensifies, the human resource function at BTL EPC will emphasise upskilling, career progression, and leadership readiness.

The big numbers

Employee benefit expenses

Year	FY 2021-22	FY 2022-23	FY 2023-24	FY 2024-25
Employee benefit expenses (₹ cr)	26.55	31.59	34.77	42.54

Employees

Year	FY 2021-22	FY 2022-23	FY 2023-24	FY 2024-25
Employees	579	578	609	717

Training hours

The BTL EPC **organisational culture**

What employees have to say about working at our Company

"I joined BTL EPC in July 2013 as a Technical Executive to the Managing Director and now working as Assistant General Manager - Business Analyst. One of the most enriching aspects of working here is continuous learning. Being a part of the Managing Director's office exposed me to various functions (manufacturing, marketing, and operations). The opportunity to analyse data and contribute to decision-making in manufacturing operations proved rewarding. The Company is not just a workplace but a place to grow, contribute, and feel valued."

Biswamoy Sengupta,
AGM Business Analyst

"I joined BTL EPC as a Senior Manager Planning, and today I am General Manager Construction Planning. What I appreciate about working at BTL is its positive energy. The work culture empowers individuals to operate like a team of friends. There is a healthy balance between professional responsibilities and personal well-being. My most memorable experience was during the IOC Paradip project. Despite delays outside our control, we were able to save liquidated damages worth ₹5.5 Crore through our credibility."

Abhishek Das,
General Manager
Construction Planning

"I joined BTL EPC as a Management Trainee and am now Assistant General Manager - Accounts. What I value most about BTL EPC is the learning opportunity. BTL EPC ensures that those who outperform are given bigger opportunities. Whenever one faces difficulties in addressing new responsibilities, guidance and encouragement from seniors is always at hand. The Company promotes learning, collaboration, and a positive work culture."

Sumit Kedia,
Assistant General Manager
Accounts

"I joined BTL EPC as Manager – Purchase and am now working as General Manager - Business Operations. Over seven years, the organisation has entrusted me with the responsibility of leading business operations across India. BTL EPC stands out as a company for those who are looking to grow and assume greater responsibilities. To support our development, the Company launched managerial and short-term training programs, encouraging continuous learning."

Rajneesh Kumar,
General Manager- Business Operations

"I joined BTL EPC as a Graduate Engineering Trainee and am now General Manager – Technical. In personal emergencies, the Company has always been understanding and accommodating. A memorable experience was during the COVID-19 crisis when the management extended unwavering support and achieved record-breaking growth thereafter. That experience remains a testament to the resilience of BTL EPC's culture."

Sayan Bhattacharjee,
General Manager – Technical

Management discussion **and analysis**

Global economic review

Overview: Global growth declined marginally to 3.2% (2024) due to manufacturing slowdowns in Europe/Asia, though services outperformed. Inflation eased to 4.5% (2024).

Regional growth (%)	2024	2023
World output	3.2	3.3
Advanced economies	1.7	1.7
Emerging and developing economies	4.2	4.4

(Source: IMF, KPMG, Press Information Bureau, BBC, India Today)

Outlook: The global economy has entered a phase of uncertainty driven by rising trade tensions, geopolitical conflicts, and climate-related disruptions. The imposition of tariffs and retaliatory measures among major economies has introduced volatility, while ongoing regional conflicts and trade restrictions further complicate recovery. In light of these factors, the World Bank has projected global economic growth at 2.7% for both 2025 and 2026, reflecting the impact of these macroeconomic risks.

Indian economic review

Overview

India's real GDP growth stood at 6.5% in FY 2024–25, moderating from 9.2% in the previous year. This slowdown was attributed to softer manufacturing performance and reduced net investments. Despite the deceleration, India remained the world's fifth-largest economy, with nominal GDP rising to ₹331 Trillion. Per capita income also improved, growing from ₹2.15 Lacs to ₹2.35 Lacs, reflecting continued economic expansion.

Inflationary pressures eased significantly, with CPI inflation averaging 4.63%, the lowest since the pandemic, supporting household consumption and savings. Meanwhile, foreign exchange reserves reached USD 676 Billion as of April 2025, reinforcing India's external resilience.

India's net GST collections increased 8.6%, totaling ₹19.56 Lacs Crore in FY 2024-25. Gross GST collections in FY 2024-25 stood at ₹22.08 Lacs Crore, a 9.4% increase YoY.

Gross inward foreign direct investment revived in FY 2024-25, rising 20.6% YoY from USD 51.8 Billion in the first eight months of FY 2023-24 to USD 62.5 Billion during the same period in FY 2024-25.

The banking sector continued its improvement, with gross non-performing assets (NPA) for scheduled commercial banks (SCBs) declining to 2.6% as of September 2024, down from 2.7% in March 2024.

India's services sector grew an estimated 7.3% in FY 2024-25 (9.0% in FY 2023-24), driven by public administration, defense and other services (expanded at 8.8% as in the previous year). In the infrastructure and utilities sector, electricity, gas, water supply and other utility services grew a projected 6.0% in FY 2024-25, compared to 8.6% in FY 2023-24. Meanwhile, the construction sector expanded at ~8.6% in FY 2024-25, slowing from 10.4% in the previous year.

Manufacturing activity was subdued in FY 2024-25, with growth projected at 4.3%, which was lower than 12.3% in FY 2023-24.

Outlook

India is expected to remain the fastest-growing major economy. Initial Reserve Bank of India estimates have forecast India's GDP growth downwards from 6.7% to 6.5% based on risks arising from US tariff levies on India and other countries. The following are some key growth catalysts for India in FY26.

Union Budget FY 2024-25: The Union Budget 2025-26 laid a strong foundation for India's economic trajectory, emphasising agriculture, MSMEs, investment, and exports as the four primary growth engines. With a fiscal deficit target of 4.4% of GDP, the government reinforced fiscal prudence while allocating ₹11.21 Lacs Crore for capital expenditure (3.1% of GDP) to drive infrastructure development. The February 2025 Budget marked a shift in approach, with the government proposing substantial personal tax cuts. Effective April 1, 2025, individuals earning up to ₹12 Lacs annually will be fully exempt from income tax. Economists estimate that the resulting ₹1 Lacs Crore in tax savings could boost consumption by ₹3-3.5 Lacs Crore, potentially increasing the nominal private final consumption Expenditure (PFCE) by 1.5-2% of its current ₹200 Lacs Crore.

Easing inflation: India's consumer price index-based retail inflation in March 2025 eased to 3.34%, the lowest since August 2019, raising hopes of further repo rate cuts by the Reserve Bank of India.

Global infrastructure overview

The global infrastructure sector, projected at USD 2.89 Trillion by 2025 and growing at 6.27% CAGR, presents a robust opportunity landscape for EPC players. With Asia-Pacific leading infrastructure demand, driven by urbanisation and industrial expansion, EPC firms are well-positioned to benefit from large-scale public and private capital expenditure in transport, energy, water, and digital infra. The global pivot toward green and digital infrastructure, especially in Europe and North America, is catalysing demand for technology-integrated, sustainable engineering solutions. As governments increasingly deploy funding to de-risk projects and attract private capital, EPC companies with proven execution capabilities, ESG compliance, and digital integration will gain a competitive edge in tapping into next-generation infrastructure mandates across geographies.

(Source: Mordor intelligence, Reanin, IPFA, Am.gs, Firstsentierinvestors, S&P Global)

Indian infrastructure overview

India's sustained infrastructure push with a ₹11.21 Lacs Crore capital outlay (3.4% of GDP) in FY26 reaffirms its strategy of infrastructure-led growth. With the domestic infrastructure, market projected to grow at a CAGR of 9.57% to USD 353.11 Billion by 2030, the outlook for EPC services remains robust. The government's move to monetise ₹10 Lacs Crore worth of public assets and reinvest proceeds into new projects underscores a shift toward capital recycling and value unlocking, offering significant opportunities for efficient, execution-focused EPC players.

(Source: Mordor intelligence, IBEF, Economic Times)

Indian power sector overview

India's power sector, with an installed capacity of 441.97 GW in 2023-24, is witnessing a structural transformation driven by rapid urbanisation, renewables expansion, and a push for energy security. The renewables segment is currently at ~180 GW and is expected to grow at ~10% CAGR, supported by the national 500 GW target by 2030. This creates consistent demand for solar, wind, hybrid, and grid-scale battery EPC solutions.

The nuclear energy mission, with a ₹200 Billion (~USD 2.33B) allocation for developing Small Modular Reactors (SMRs), marks a significant policy-level diversification. Investments in thermal power generation are expected to double to ₹2.3 Lacs Crore over the three-year period ending 2027–28, compared to the previous three years, driven by rising energy demand and the renewed emphasis on meeting base load power requirements. Parallel investment in smart grids and transmission highlights a rising demand for high-tech EPC capabilities across generation, transmission, and distribution. Overall, the power sector remains a critical EPC growth engine, demanding speed, scale, and innovation.

(Source: Mordor Intelligence, IBEF)

Government initiatives

Revamped distribution sector scheme (RDSS): The RDSS was allocated ₹160.21 Billion in this year's budget, giving a significant boost to the power distribution sector. During her budget speech, the finance minister also highlighted plans to promote electricity distribution reforms. States can access an additional borrowing space of up to 0.5% of their GSDP, contingent upon the implementation of specific reform measures.

Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya: The scheme aims to provide universal household electrification in India by ensuring last-mile connectivity in rural and urban areas. It offers free connections to BPL households and subsidised options for others, covering meters, wiring, and basic fittings. Implemented by DISCOMs with tech-enabled monitoring, the scheme has advanced rural electrification, socio-economic growth, and opportunities for EPC companies.

Pradhan Mantri Surya Ghar Muft Bijli: Clean energy remained a key focus area, with the launch of the Pradhan Mantri Surya Ghar Muft Bijli Yojana in February 2024 to accelerate India's rooftop solar adoption. The scheme targets the solarisation of 10 Millionhouseholds, offering up to 300 units of free electricity per month. It received a budget allocation of ₹200 Billion this year an 80% increase over the previous year—aligning with the goal of achieving 30 GW of residential rooftop solar capacity by 2027.

(Sources: Powerline.net.in, Powermint.gov.in, Psuconnect.in)

Growth drivers

Rising renewable energy integration: India's ambitious renewable energy goals have become a major driver for EPC projects. The ministry of new and renewable energy reported achieving 180 GW of renewable energy capacity as of December 2023. This push is creating massive opportunities for EPC contractors in solar and wind projects.

Expanding transmission infrastructure: The expansion of transmission infrastructure is crucial for power evacuation from new generation sources. Power Grid Corporation of India reported completion of 15,240 circuit Km of transmission lines in 2023. The focus on inter-regional connectivity has led to numerous EPC opportunities. For instance, in February 28, 2024, Larsen & Toubro secured a major ₹ 2,500 Crore transmission line project in Northern India.

Increasing smart grid modernisation: Smart grid initiatives are driving the modernisation of existing power infrastructure.

Company overview

BTL EPC Ltd. has played a pivotal role in advancing India's industrial and agricultural landscape for 50 years. As a comprehensive engineering solutions provider, we combine detailed planning, precision manufacturing, and expert on-site execution. Our capabilities span the development of advanced bulk material handling systems, innovative ash handling solutions, and resilient steel plant infrastructure each vital to supporting modern industry.

Financial analysis

Balance sheet

- Total non-current assets for FY 2024-25 stood at ₹273 Crore compared to ₹215 Crore in FY 2023-24.

Profit and loss statement

- Revenues increased 22% to ₹782.59 Crore in FY 2024-25 compared to ₹641.29 Crore in FY 2023-24.
- EBITDA increased 20% to ₹105.12 Crore in FY 2024-25 compared to ₹87.64 Crore in FY 2023-24.
- Profit after tax increased by 41% to ₹52.87 Crore in FY 2024-25 compared to ₹37.60 Crore in FY 2023-24.
- Total expenses (including depreciation and amortisation) for FY 2024-25 stood at ₹713 Crore compared to ₹590 Crore in FY 2023-24.
- Depreciation and amortisation stood at ₹2 Crore in FY 2024-25 compared to ₹1 Crore in FY 2023-24.

Risk management

Contractual risks

EPC contracts often carry stringent clauses related to liquidate damages, penalties for delay, or scope variations. Ambiguities in scope or misaligned expectations can lead to disputes or litigation.

Mitigation: Contracts undergo thorough legal and commercial review prior to signing. A dedicated contract management team ensures scope alignment, tracks change orders, and maintains transparent client communication.

Cost overruns

Volatility in raw material prices (example; steel, cement), labour costs, or transportation can lead to budget deviations, impacting profit margins, especially in long-duration contracts.

Mitigation: To counter this, the Company adopts detailed cost estimation models, value engineering practices, and real-time cost monitoring systems. Wherever feasible, fixed-price contracts are negotiated, and procurement is optimised to lock in prices early.

Regulatory and compliance risks

Frequent changes in environmental, labor, or industrial regulations can affect project timelines and increase compliance burdens.

Mitigation: A dedicated compliance team monitors regulatory updates and liaises with local authorities. Projects are planned in adherence to prevailing laws and environmental clearance requirements.

Financial risk

Working capital pressures, delayed client payments, and foreign exchange exposure may adversely impact cash flows and profitability.

Mitigation: Financial discipline is maintained through milestone-based billing, credit assessment of clients, and efficient treasury management. Forex risks are mitigated through forward contracts or natural hedging.

Workforce challenges

Shortages of skilled manpower, especially in specialised technical areas, can affect quality and timelines. High attrition further compounds this challenge.

Mitigation: In-house training academies, retention programs, and employee welfare initiatives are used to build and retain a skilled workforce. Strategic hiring and workforce planning are aligned with project requirements.

Current Ratio (x)	1.16	1.24
Net profit margin (%)	6.76	5.86

Internal control systems & their adequacy

The Company's internal financial controls related to its financial statements are appropriate and aligned with the size and nature of its business operations. An independent team of chartered accountants conducts internal audits across various locations, and their findings are summarised and presented to the audit committee for review and feedback. The audit committee holds discussions with the Company's statutory auditors to gain insights into the financial statements, reporting systems, internal controls, and adherence to established accounting policies and procedures.

Human resources

Company remains committed to attracting, retaining, and nurturing talent through a range of initiatives, programs, and training sessions. Emphasis is placed on internal talent development by providing employees with opportunities to grow and take on diverse roles within the organisation.

Cautionary statement

The management discussion and analysis report containing your Company's objectives, projections, estimates, and expectations may constitute certain statements, which are forward-looking within the meaning of applicable laws and regulations. The statements in this management discussion and analysis report could differ materially from those expressed or implied.

Board of **Directors**

Mr. Sunil Kumar Mittra
Chairman

Mr. Mittra possesses a distinguished academic background and extensive industry experience exceeding 41 years. He holds a Bachelor of Engineering (Mechanical) from the Indian Institute of Technology (IIT) - Banaras Hindu University, followed by an MBA from Calcutta University. His commitment to continuous learning is further evidenced by his post-graduate certificate in Statistical Quality Control, where he was recognised with the prestigious PC Mahalanobis Silver Medal. Mr. Mittra has also completed the esteemed Three Tier Program at the Indian Institute of Management, Ahmedabad.

Mr. Ravi Todi
Managing Director

Mr. Todi serves as the Promoter Director of the Shrachi Group of Companies. With over 31 years of experience across various domains, he has been a driving force behind the Company's achievements. His leadership has been instrumental in steering the Group's growth trajectory. A proud alumnus of St. Xavier's College, Kolkata (B.Com.), holds Executive MBA from Harvard Business School, Boston.

Ms. Rhea Todi
Whole time Director

Ms. Rhea Todi holds a Bachelor of Science in Business Administration with a minor in Economics from Chapman University, CA. She has a diverse professional background, having contributed to notable organisations such as South City International School and Anamika Khanna. Currently, as a director at BTL EPC LTD, she leads initiatives in the agro division, corporate communication for the engineering division, and oversees CSR programs. Her multifaceted expertise reflects her passion for driving growth and creating positive impact across industries.

Mr. Aviik Mukherjee
Whole time Director (Change in designation wef. 01.04.2025)

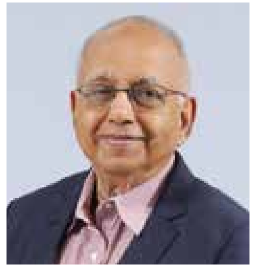
Mr. Avik Mukherjee is a seasoned HR professional with over 35 years of experience in Corporate and Plant-level HR across Engineering, Chemical, Fertiliser, FMCG, and EPC sectors. He specialises in strategic management, employee relations, and organisational development, having worked with leading Indian and multinational companies in Northern and Eastern India. He holds a B.Sc (Hons) in Physics, PGDHRM & LW, and a Diploma in Personnel Management, along with executive education from IIM Bangalore. Certified as an Engagement Champion by Gallup India, he also has training in Business Process Management and Balanced Scorecard implementation.

Mr. Subrata Paul
Independent Director

A graduate of the esteemed Indian Institute of Technology, Kharagpur, with a prestigious engineering degree, Mr. Paul further strengthened his qualifications with an MBA from the renowned London Business School. His seasoned career spans over 38 years, during which he has passionately pursued opportunities across diverse sectors, including FMCG, Engineering, Electronics, Telecommunication, Construction, Mining, and Infrastructure. This breadth of experience has resulted in a wealth of expertise that underpins his successful professional journey.

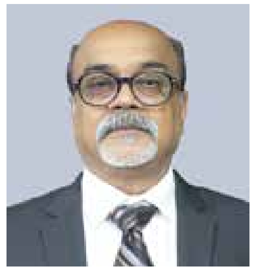
Ms. Arundhuti Dhar
Independent Director

A graduate in Political Science (Hons.) with Economics and Maths from St. Xavier's College, Kolkata, Ms. Dhar holds a remarkable academic background. She augmented her expertise through three certificates courses from IIMC, Joka, specialising in Brand Management, sales Planning and Finance. Pioneering the First Academy for Defense Services aspirants' training, she has over 29 years of multifaceted experience across sectors and esteemed organisations like IL&FS Property Management, HDFC Bank and American Express Bank. Demonstrating her commitment to social responsibility, Ms. Dhar actively participates in impactful CSR initiatives with diverse NGOs.



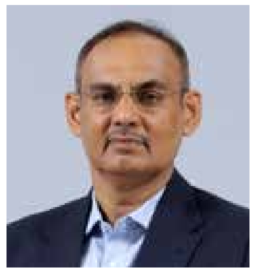
Mr. Sandipan Chakravortty
*Additional Director (* Appointed wef 09.06.2025)*

A seasoned industry leader with a B.Tech and M.Tech in Mechanical Engineering from IIT Kharagpur, a CEDEP certification from INSEAD (Paris), and a Post-Management Programme from Case Western Reserve University, USA. He has served as Managing Director of Tata Ryerson Ltd. (now Tata Steel Downstream Products Ltd.), Director (Sales) at Tata Steel, and Chairman of CII (Eastern Region), Tata Martrade International Logistics Ltd., MJUNCTION, and JUSCO. He is a past President of the Bengal Chamber of Commerce & Industry and has been on the Boards of IIT Kharagpur and Kolkata Port Trust. Currently, he is a Governing Council member of Globsyn Business School and Siksha 'O' Anusandhan University and remains active in CII and the Bengal Chamber.



Mr. Ketan Mangaldas Shanghavi
*Independent Director (* Retired w.e.f.19.02.2025)*

Mr. Shanghavi endowed with a Bachelor of Commerce degree, brings a wealth of knowledge to BTL EPC , honed over an impressive 43 years career encompassing a diverse range of fields.



Mr. Sourav Daspatnaik
*Independent Director (* Retired w.e.f. 31.08.2025)*

A graduate of the esteemed Indian Institute of Technology, Kharagpur, with a prestigious engineering (Mechanical) from Birla Institute of Technology, Mesra, India and a Masters degree in Operations Management from Stevens Institute of Technology, New Jersey, USA.

His 37-year career has provided him with extensive cross-functional experience, continuously enhancing his expertise and value. Mr. Daspatnaik is the Managing Director of Swach Environment Private Limited. He leads initiatives under the Jal Jivan Mission and the National Mission for Clean Ganga, collaborating with state governments. He founded Water Alliance India (WAI) and serves on the Governing Council of the Consulting Engineering Association of India. He is a committee member of Water Mission, FICCI, and a director in several companies, including Hindustan Motors Ltd. In the past, he has worked with Tata Motors, Tata Steel, and Mercer Consulting.

BOARD'S REPORT

FOR THE YEAR ENDED 31ST MARCH 2025

Dear Members,

Your directors have great pleasure in presenting the 33rd Annual Report of the Company along with the Audited Financial Statements for the financial year ended March 31, 2025.

During the year under review, the Company continued to strengthen its position as a leading Engineering Company involved in manufacturing of equipment & components and execution of complex turnkey infrastructure and industrial projects across diverse sectors. Our focus on timely delivery, engineering excellence, cost efficiency, and adherence to quality and safety standards has enabled us to maintain the confidence of our clients and stakeholders.

Your directors remain committed to enhancing shareholder value through sustainable growth, operational efficiency, and continuous adoption of latest technology. While continuing our tradition of delivering value-driven engineering solutions, we have also embraced technological advancements and digital integration to drive productivity and improve project outcomes.

We are pleased to share with you our vision of growth and resilience. Our strategic approach remains grounded in execution capability, prudent risk management, and long-term value creation, underpinned by a blend of realism and optimism that guides all our future endeavours.

1. FINANCIAL PERFORMANCE FOR THE YEAR ENDED MARCH 31, 2025

4. BUSINESS REVIEW

During the Financial Year 2024-25, your company has made some remarkable achievements & a brief detail of the same is produced below –

A. **Bagged new orders worth ₹ 1,686 Cr. (Net of GST): -** The major projects bagged during 2024-25 –

CLIENT	Work Detail	Order Value (Net of GST)
BHEL	Conveyor package (CHP, LHP, GHP & BMHP)at 2 X 800 MW NTPC Lara TPH Stage -II	225.70
ADANI POWER LTD	Ash Handling Plant at 2 X 800 MW Adani Power Plant at Raigarh	180.00
ADANI POWER LTD	Coal Handling Plant at 2 X 800 MW Adani Power Plant at Raigarh	222.00
NTPC LTD	Coal Handling Plant Pkg -II at NTPC Talaipalli Coal Mines	604.00
BHEL	EPC Pkg. for CHP, LHP, GHP, BHP & Mill Reject Hndling System at NTPC Sipat STPP (1 X 800 MW STAGE– III)	393.00
	TOTAL	**1,624.70**

B. **Major Projects Under Execution during 2024-25**

1. Conveyor Package including LHP & GHP for Yadadri TPS – TSGENCO
2. Ash handling Package for Yadadri TPS - TSGENCO
3. Coal handling Plant for NTPC Pakri Mines
4. Conveyor package for TNGENCO STTP, Ennore
5. Talcher Fertilizer Limited, UREA handling Plant, Talcher
6. Conveyor package for Udangudi STTP
7. Coal Handling Plant for WBPDCL Power Plant at Sagardighi
8. Ash Handling system for Adani Power (2 X 800 MW) Raigarh Thermal Power Plant
9. Conveyor Systems at NTPC Lara
10. Conveyor Systems at NTPC Talcher

Apart from the above, your company's substantial business revenue comes from Design & Engineering, manufacturing & Supply of –

- Under Ground Conveyor System for Coal India and its Subsidiaries,
- Refinery Columns, Pressure Vessel, etc.
- Belt Conveyor system Equipment, etc.

C. **Details of Major milestones achieved /project commissioned by the company during FY 24-25-**

SL	Client	Brief Description
1	BHEL	Bangladesh Maitree CHP – Partial Performance Guarantee test successfully completed
2	TRF Ltd	NMDC Steel Plant Conveyor packages – Performce Guarantee test successfully completed.
3	BHEL	Yadadri Thermal Power Plant – CHP & AHP Project – Two units out of 5 Units Commercial operation declared

D. **Major Development in order booking (Operation) after closure of FY 2024-25 and before approval of Board Report –**

- Coal Handling Plant package for NTPC Kerandari Coal Mining Project. Order value ₹ 130.49 Cr.

E. **Reward & Recognition: -** Your company is honoured to receive the "Outstanding Contribution to Power EPC" award at the "11th EPC World Awards" for the work on the Feroze Gandhi Unchahar Thermal Power Plant (FGUTPP) of NTPC at Raebareli, UP. This recognition is a testament to our commitment to excellence, innovation, and delivering world-class EPC solutions.

5. **Acquisition and Merger of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) through CIRP process -** During the year under review, a significant milestone was achieved by the Company through the successful acquisition & merger of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) under the Corporate Insolvency Resolution Process (CIRP). The Resolution Plan submitted by the Company was duly approved by the Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT) on 6th November 2024. As per the approved resolution plan, ₹ 12.01 Cr has been paid on 23.12.2024 to designated Bank account of CoC as the consideration for acquisition. Later M/s MBE - CMT has been merged with M/s BTL EPC Ltd as per order duly approved by Hon'ble NCLT.

6. **Acquisition of McNally Bharat Engineering Company Limited through CIRP Process: -**The Corporate Insolvency Resolution Process (CIRP) of McNally Bharat Engineering Company Limited [CIN: L45202WB1961PLC025181] commenced on April 29, 2022, pursuant to the admission of an application filed by Bank of India under Section 7 of the Insolvency and Bankruptcy Code, 2016 (IBC) by the Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench.

   BTL EPC Limited submitted a resolution plan for McNally Bharat Engineering Company Limited (MBECL), which was approved by the Hon'ble NCLT, Kolkata Bench, on December 19, 2023, thereby declaring BTL EPC Limited as the Successful Resolution Applicant.

Key Commercial Proposals of the Approved Resolution Plan:

Particulars	₹ In Cr
Cash payout under the Resolution Plan	155.00
Maximum liability towards active bank guarantees	251.00
Capital expenditure and working capital requirements	5.11
Total Resolution Plan Amount	**411.11**

In addition to the above, the resolution plan includes the issuance of equity shares in MBECL as follows:

- 4% equity shares to be issued to assenting financial creditors, and
- 1% equity shares to be issued to specified financial creditors having no bank guarantee exposure in MBECL.

These equity shares carry an option of buy-back within 3 years for a total consideration of ₹ 24 crore and ₹ 6 crores respectively.

Subsequent Developments:

Post-approval of the resolution plan, an amendment was sought and approved by the Hon'ble NCLT, allowing for an extension of the due date for the payment of ₹ 155 crores till March 31, 2025.

For implementation of the resolution plan, a Special Purpose Vehicle (SPV) named M/s Mandal Vyapar Pvt. Ltd. (MVPL) has been constituted. The paid-up share capital of the SPV as on March 31, 2025, stood at ₹ 10,32,500, comprising 1,03,250 equity shares of ₹ 10 each.

Shareholding Pattern of MVPL (as on 31.03.2025): -M/s BTL EPC Ltd – 19.00%, Mr Ravi Todi- 32%, Mr. Narayan Dhelia – 48.99%, M/s Mahabaleshwar Merchants Pvt Ltd –0.01%.

As of the report date, the SPV has already paid ₹ 88.81 crore towards the resolution plan. The balance amount of ₹ 66.19 crore, along with applicable interest on delayed payment, is currently outstanding.

A further request has been made to the Hon'ble NCLT for extension of the payment due date to September 30, 2025, and the matter is presently under adjudication.

7. MATERIAL CHANGES AND COMMITMENTS AFFECTING THE FINANCIAL POSITION OF THE COMPANY BETWEEN THE END OF THE FINANCIAL YEAR AND THE DATE OF THE REPORT

A. **Reclassification of Authorized Share capital of the company: -** The Board of Directors at its meeting held on 30th April, 2024, and the shareholders at the Extra-Ordinary General Meeting held on 13th May, 2024, approved the reclassification of the authorized share capital of the Company and the consequent alteration of the Capital Clause of the Memorandum of Association.

Capital Structure	Authorized Share Capital Structure as on 31.03.24	Authorised Share Capital post Reclassification as on 13th May 24
Equity Shares (EQ)	₹25,45,00,000 (2,54,00,000 No. of shares of F.V. ₹10 each)	₹20,45,00,000 (2,04,50,000 No. of shares of F.V. ₹10 each)
Preference Shares (P.S.)	NA	₹ 5,00,00,000 (50,00,000 no. of Preference shares of F.V. ₹10 each)

Paid-up Share Capital (Equity) as on the date of reclassification stood at 12,08,74,710 comprising 1,20,87,471 equity shares of 10 each.

Authorized Share Capital as on 31.03.25 (Post Merger of MBE Coal & Mineral Technology India Pvt Ltd)-

Capital Structure	Authorised Share Capital as on 31.03.25
Equity Shares (EQ)	₹1,00,45,00,000 (10,04,50,000 No. of shares of F.V. ₹10 each)
Preference Shares (P.S.)	₹ 5,00,00,000 (50,00,000 no. of Preference shares of F.V. ₹10 each)

B. Issue of Compulsory Convertible Preference Shares (CCPS) & Conversion to Equity Shares :- The Board, at its meeting held on 3rd May, 2024, and the shareholders in the EGM dated 13th May, 2024, approved the issuance of Compulsory Convertible Preference Shares (CCPS). Subsequently, the Board in its meeting held on 29th May, 2024, allotted 42,00,000 CCPS of ₹10 each, aggregating to ₹4.20 crore, to the following promoter shareholders

Shareholder's Name	No of Shares	Face value	Amount (₹)
Mr. Ravi Todi	3,000,000	10	30,000,000
Mrs. Sarika Todi	1,200,000	10	12,000,000
Total	**4,200,000**		**42,000,000**

CCPS has finally been converted to Equity Shares wef. 28.06.25 and the following shares have been allotted to the CCPS holders. The allotted shares shall rank paripasu in all respect with the existing issued shares of the company.

S. No.	Name	No. of CCPS	Face Value (₹)	Conversion Ratio	Equity Shares Allotted
1	Mr. Ravi Todi	30,00,000	10	107:01	28,037
2	Mrs. Sarika Todi	12,00,000	10	107:01	11,215
	TOTAL	**42,00,000**			**39,252**

C. Buyback: - In its meeting held on 27th June, 2024, the Board approved a **buyback of equity shares** for a maximum amount of ₹4.00 crore. Of this, equity shares worth ₹3.69 crore were accepted and extinguished. Consequently, the paid-up equity capital of the Company was reduced as follows:

PARTICULARS	NO. OF SHARES	AMOUNT (₹)
Pre-Buyback Paid-up Equity Capital	1,20,87,471	12,08,74,710
Buyback of Equity Shares	36,94,036	3,69,40,360
Post-Buyback Paid-up Equity Capital	83,97,035	8,39,70,350

D Allotment of Bonus Shares:

Pursuant to the approval of the Board of Directors and the shareholders through the Extraordinary General Meeting (EGM), the Company has allotted Bonus Shares in the ratio of 2:1, i.e., two (2) fully paid-up equity shares of ₹10/- each for every one (1) fully paid-up equity share held, to the eligible shareholders whose names appeared in the Register of Members as on the record date.

As on the record date, a total of 7 shareholders, holding 83,97,035 equity shares, became entitled to receive Bonus Shares. Accordingly, the Company allotted ₹1,67,94,070 (One Crore Sixty Seven Lacs Ninety Four Thousand Seventy) fully paid-up equity shares of face value ₹10/- each as Bonus Shares.

The allotment was made by capitalizing a sum of ₹16,79,40,700/- (Rupees Sixteen Crore Seventy Nine Lacs Forty Thousand Seven Hundred only) out of the Securities Premium Account and Free Reserves of the Company, in compliance with applicable provisions of the Companies Act, 2013 and relevant rules made thereunder.

Apart from the above, there are no other material changes and commitments affecting the financial position of the Company which have occurred between the end of the financial year as on 31st March 2025 and the date of this report.

8. RESERVE

The Company does not propose to transfer any amount to the General Reserve.

9. DIVIDEND

The company has not proposed & declared any dividend to the shareholders for the financial year ended on 31st March 2025.

10. SHARE CAPITAL

- **Authorized Share capital** - The authorized share capital of your Company as on 31st March 2025 are ₹ 105.45 Crores.
- **Paid Up Share Capital** – The Paid-up share capital comprises of ₹ 8.39 crores equity shares & ₹ 4.20 Crore Compulsory Convertible Preference Shares (CCPS) as on 31.03.25.

11. EXTRACT OF THE ANNUAL RETURN

Pursuant to the provisions of Section 134(3)(a) and Section 92(3) of the Companies Act, 2013 ('the Act') and relevant Rules made thereunder, draft Annual Return of the Company for the FY 2024-25 is uploaded on the website of the Company and can be accessed on (https://btlepcltd.com/about/compliance/)

The final annual return shall be uploaded in the same web link after the said return is filed with the Registrar of Companies, Kolkata.

12. DETAILS OF BOARD AND COMMITTEE MEETINGS HELD DURING THE YEAR

The Board of Directors had constituted various Committees and terms of reference/role in compliance with the provisions of the Companies Act 2013 viz. Audit Committee, Nomination and Remuneration Committee, Corporate Social Responsibility Committee and Management Committee.

Details of the number of meetings held during the financial year and attendance at meetings are provided as **Annexure 1** of this Report.

13. COMMITTEES OF BOARD

The details of the composition of the Committees of the Board of Directors are as under:-

a. Audit Committee: -

Composition of the Audit Committee –
Pursuant to the provision of Section 177 of the Companies Act, 2013 read with rule 6 of Companies (Meeting of Board and its Power) Rules, 2014, the Audit Committee meeting was held with the following members:

S. No.	Name of Member	Designation
1.	Mr. Sunil Kumar Mittra	Independent Director (Chairman of the Committee)
2.	Mr. Subrata Paul	Independent Director (Member)
3.	Mr. Ravi Todi	Managing Director (Member)

During the year under review, the committee met on 17.07.2024 & 9.09.2024 and all the members of the Committee had attended that meeting.

During the year under review, the Committee was reconstituted as follows:

- Mr. Subrata Paul, Independent Director, was inducted as a member of the Committee with effect from 18th March, 2025, in place of Mr. Ketan Mangaldas Shanghavi, who ceased to be a member of the Board upon completion of his second consecutive term of five years as an Independent Director, with effect from 19th February, 2025.

Adoption of recommendations made by Audit Committee - The Board is pleased to inform you that the recommendations made by the Audit Committee in their various meetings were accepted by the Board & accordingly implemented.

Vigil Mechanism

Your Company has in place a vigil mechanism for directors and employees to report concerns about unethical behavior, actual or suspected fraud or violation of your Company's Code of Conduct. Adequate safeguards are provided against victimization to those who avail of the mechanism or access to the Chairman of the Audit Committee. The Vigil Mechanism provides for adequate safeguards against victimization of an employee and directors who availed of the Vigil Mechanism. The Audit Committee of the Company oversees the functioning of the Vigil Mechanism framework.

The Whistle Blower shall have right to access the Chairman of the Audit Committee directly in cases where the Whistle Blower feels that Whistle Blowing officer has conflict of interest in matter reported or if he is unable to settle the complaint.

The Company has framed a Whistle Blower Policy which is available on the website of the Company at the following link https://btlepcltd.com/about/policies/.

b. Nomination & Remuneration Committee

Pursuant to the provisions of Section 178 of the Companies Act, 2013 read with applicable rules, the Company has a duly constituted Nomination & Remuneration Committee to oversee matters related to appointment, performance evaluation, and remuneration of Directors and senior management personnel.

As on 31st March, 2025, the Committee comprises the following members:

S. No.	Name of Member	Designation
1.	Mr. Sourav Daspatnaik	Independent Director (Chairman of the Committee)
2.	Mr. Sunil Kumar Mittra	Independent Director (Member)
3.	Mr. Avik Mukherjee	Executive Director (Member)

During the financial year 2024–25, two meetings of the Nomination & Remuneration Committee were held on 17th July, 2024 and 27th December, 2024. The details of the meetings and attendance of the members are provided in **Annexure - 1** forming part of this Report.

The Nomination & Remuneration Policy of the Company, outlining the criteria for appointment, evaluation, and remuneration of Directors and key managerial personnel, is available on the Company's website at: https://btlepcltd.com/about/policies/

During the year under review, the Committee was reconstituted as follows:

18. STATUTORY AUDITORS

M/s. JKVS & Co., Chartered Accountants (Firm Registration No. 318086E), were appointed as the Statutory Auditors of the Company for a term of five (5) consecutive years at the 28th Annual General Meeting (AGM) held on 30th September 2020. Their tenure shall conclude at the conclusion of the 33rd AGM to be held in the year 2025.

The Board of Directors, based on the recommendation of the Audit Committee, proposes the appointment of M/s. Singhi & Co., Chartered Accountants (Firm Registration No. 302049E), as the Statutory Auditors of the Company for a term of five(5) consecutive years, commencing from the conclusion of the 33rd AGM until the conclusion of the 38th AGM to be held in the year 2030, subject to the approval of the members at the ensuing AGM. The remuneration payable to the Statutory Auditors shall be as mutually agreed upon between the Board of Directors and the Auditors, from time to time.

The existing Auditors, M/s. JKVS & Co., have not reported any fraud under the second proviso to Section 143(12) of the Companies Act, 2013 during their tenure.

19. AUDITOR'S REPORT AND NOTES TO FINANCIAL STATEMENTS

The observation made in the Auditor's Report are self-explanatory and therefore, do not call for any further comments under Section 134(3) (f) of the Act and forms a part of this Annual Report.

20. INTERNAL AUDIT & CONTROLS

The Board reviewed the scope of work of the Internal Auditors which includes review of processes for safeguarding the assets of the Company, review of operational efficiency, effectiveness of systems and processes, and assessing the internal control strengths in all areas.

Pursuant to Section 138 of the Companies Act, 2013 read with rules 13 of the Companies (Accounts) Rules, 2014, M/s. GARV & Associates, Chartered Accountants (Firm Registration No. 301094E) are appointed as the Internal Auditor of the Company who also evaluate the functioning and quality of Internal Controls.

21. BRANCH AUDITORS

M/s. Ahmed Mashuque & Co. Chartered Accountants were appointed as the Branch Auditors for conducting the branch audit of our Bangladesh branch office during the FY 2024-25.

22. COST AUDITORS

In terms of the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Cost Records and Audit) Amendment Rules, 2014, the Board of Directors of your Company have on the recommendation of the Audit Committee, had appointed M/s. SPK Associates., Cost Accountants, Kolkata as Cost Auditors, to conduct the cost audit of the Company for the financial year 31st March, 2025. As required under the Act, the remuneration payable to the cost auditor, as approved by the Board is required to be placed before the Members in a general meeting for their ratification. Accordingly, a resolution seeking Member's ratification for the remuneration payable to Cost Auditors forms part of the Notice of the ensuing Annual General Meeting.

23. SECRETARIAL AUDITOR

Pursuant to provisions of Section 204 of the Companies Act, 2013 read with the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Company had appointed PCS Ambalika Sarkar Diwan, as Secretarial Auditor for conducting the Secretarial Audit of your Company for the financial year ended 31st March, 2025. The Report of the Secretarial Auditor is annexed as **Annexure 3** of this Report.

24. DIRECTORS AND KEY MANAGERIAL PERSONNEL

Mr. Amitava Guin, Wholetime Director of the Company, retired from the Board of Directors of the Company w.e.f 10th May, 2024 due to attaining Superannuation. The Board appreciates his efforts and initiatives provided in the Growth of the Company.

Ms. Rhea Todi (DIN:09771543) was appointed as Additional Director in the nature of Executive-Wholetime Director w.e.f. 4th June, 2024 approved by resolution passed by Circulation by the Board of Directors on the recommendation of the Nomination & Remuneration Committee of the Company. Her appointment was later regularized in the Annual General meeting held on 16.09.2024 wherein she was regularized from Additional Director to Wholetime Director of the company.

Mr. Avik Mukherjee (DIN:10706114) was appointed as Additional Director in the nature of Executive Director w.e.f. 17th July, 2024 approved by the Board of Directors on the recommendation of the Nomination & Remuneration Committee of the Company. His appointment was later regularized in the Annual General meeting held on 16.09.2024 wherein he was regularized from Additional Director to Executive Director of the company. Post closure of Financial year, on 9th June 2025 on the recommendation of the Nomination and Remuneration committee, Board further changed his designation from Executive Director to Wholetime Director of the company which was followed by approval of the Members in its meeting held on 11th June 2025.

In accordance with the provisions of the Section 152(6) of the Companies Act, 2013 read with Companies (Management and Administration) Rules, 2014 and the Articles of Association of the Company, Mr. Avik Mukherjee (DIN:10706114) Executive Director of the Company retires by rotation at the ensuing Annual General Meeting and being eligible has offered herself for re-appointment.

Mr. Ketan Mangaldas Shanghavi, Independent Director of the company ceased to be director of the company due to completion of two terms of 5 years in compliance with section 149 of the companies Act, 2013.

Mr. Sandipan Chakravortty (DIN-00053550) has been appointed as Additional Director in the nature of Independent Director w.e.f. from 09.06.25.

In terms of provisions of Section 203 of the Companies Act, 2013, the Key managerial personnel of the Company are Mr. Ravi Todi, Managing Director, Ms. Rhea Todi, Wholetime Director, Mr. Avik Mukherjee, Executive Director, Mr. Sourab Kumar Jha, Chief Financial Officer and Mr. Utkarsh Tiwari, Company Secretary and they shall continue to hold their designation under the provisions Section 203 of the Companies Act, 2013.

25. PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS:-

26. CONTRACTS AND ARRANGEMENTS WITH RELATED PARTIES

During the year under review, the Company has entered into transactions with related parties as defined under section 2 (76) of the Act read with Rules made thereunder, which were in ordinary course of business and on arms' length basis and in accordance with the provision of the Act and Rules made thereunder. All related party transactions have been approved by the Audit Committee and the Board of Directors of your Company. Accordingly, the disclosure of Related Party Transactions as required under Section 134(3) (h) of the Companies Act, 2013 in Form AOC 2 is annexed to this report as **Annexure 4**.

However, the details of the related party transactions as required to be given pursuant to the provisions of IND AS 24 issued by Institute of Chartered Accountants of India are set out in Note 47 to the standalone financial statements forming part of this Annual Report & note No -47 to the Consolidated Financial Statements.

27. RISK MANAGEMENT POLICY

Pursuant to the requirements of Section 134(3)(n) of the Companies Act, 2013, the Company has in place a comprehensive Risk Management Policy, -

The Policy provides a framework for: -

- Overseeing and approving the Company's enterprise-wide risk management strategy.
- Identifying, assessing, and managing various categories of risks, including strategic, financial, credit, market, liquidity, operational, security, property, IT, legal, regulatory, and reputational risks.

The Board and senior management are actively engaged in the risk management process, which includes monitoring and reporting key risks and uncertainties that may affect the Company's ability to achieve its strategic objectives. The risk governance structure ensures that risk management is integrated with the Company's business planning and decision-making processes.

In alignment with its Risk Management Policy, the Company has strengthened its internal control and management systems, leading to enhanced risk mitigation mechanisms. The methodologies and processes of Risk Management, Internal Control, and Internal Audit are now fully aligned, ensuring a cohesive and effective approach across the organization.

At present, no significant risks have been identified which could threaten the existence or sustainability of the Company.

28. HUMAN RESOURCES

Your Company continuously aims and focuses on attracting, retaining and developing talent through various activities, programs and training. Your Company's thrust is on the promotion of talent internally through job rotation and job enlargement.

29. REPORT ON SEXUAL HARASSMENT OF WOMEN AT WORKPLACE

Your Directors further state that during the year under review, there were no cases filed or reported pursuant to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

30. SIGNIFICANT AND MATERIAL ORDERS PASSED BY THE REGULATORS

During the year under review, no material order has been passed by the regulators or courts or tribunals impacting the going concern status and the company's operations.

31. INTERNAL CONTROL SYSTEMS & THEIR ADEQUACY

The internal financial control with reference to the Financial Statements is commensurate with the size and nature of business of the Company. A team of independent Chartered Accountants carry out internal audit in various locations and a summary of their reports are placed before the Audit Committee for their comments and observation. The Audit Committee also meets the Company's Statutory Auditors to ascertain their views on the financial statements, financial reporting system, internal control system and compliance to accounting policies & procedures.

32. DEPOSITS

The Company has neither accepted nor renewed any deposit during the year. There was no unpaid/unclaimed deposit as at 31st March, 2025

ANNEXURE 3

SECRETARIAL AUDIT REPORT
FORM MR-3

(For the period 01-04-2024 to 31-03-2025)

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members
BTL EPC Limited

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **BTL EPC Limited having CIN:U29100WB1992PLC054541 (hereinafter called the company)**. Secretarial Audit was conducted in a manner that provided a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing an opinion thereon.

Based on the verification of the books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit including the electronic records maintained available in the official portal of Ministry of Corporate Affairs (www.mca.gov.in), I hereby report that in my opinion, the company has, during the audit period ended on **31st March, 2025**, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I. have examined the books, papers, minute books, forms and returns filed in the official portal of Ministry of Corporate Affairs (www.mca.gov.in) and other records maintained by the company for the audit period ended on 31st March, 2025 according to the provisions of :

1. The Companies Act, 2013 (the Act) and the rules made thereunder;
2. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
3. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings and Notification Orders, Guidelines issued by the Reserve Bank of India from time to time;
4. The SEBI (Depositories and Participants) Regulation, 2018;
5. The Secretarial Standards (SS-I and SS-II) prescribed by the Institute of Companies Secretaries of India(ICSI);

   The laws which are specifically applicable to the industry to which the Company belongs, as identified by the management is verified, that is to say:

6. The Factories Act, 1948;
7. The Payment of Bonus Act, 1965;
8. The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH Act) read with the Sexual Harassment of Women (Prevention, Prohibition and Redressal) Rules 2013 (Rules)

II. The following SEBI Regulations are not applicable to the Company being an unlisted public company:

1. SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015
2. SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018
3. SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011
4. SEBI (Prohibition of Insider Trading) Regulations, 2015;
5. Any other SEBI regulations applicable to listed entities.

III. I further report that:

a. The Board of Directors of the Company and its committees are duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors as on 31st March, 2025.

b. Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

c. Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes.

d. The Company has obtained all necessary approvals under the various provisions of the Act;

e. There was no prosecution initiated and no fines or penalties were imposed during the year under review under the Act, SEBI Act, SCRA, Depositories Act, Listing Agreement, Rules, Regulations and Guidelines framed under these Acts against/ on the Company, its Directors and Officers.

f The Directors have complied with the disclosure requirements in respect of their eligibility of appointment, their being independent and compliance with the Code of Business Conduct & Ethics for Directors and Management Personnel;

IV. I further report that based on the information received and records maintained there are adequate system and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

V. During the audit period, the following events/actions took place having a major bearing on the Company's affairs in pursuance of the laws, rules, regulations, guidelines, standards, etc., referred to above:

a. The Company has amended the Capital Clause of its Memorandum of Association to reclassify the authorized share capital into 2,04,50,000 equity shares and 50,00,000 preference shares. All necessary compliances under Sections 13, 61, and other applicable provisions of the Companies Act, 2013 have been duly fulfilled.

b. The Company has allotted Compulsorily Convertible Preference Shares (CCPS) carrying a 0.5% coupon rate, amounting to ₹ 4,20,00,000. All required compliances under Sections 42, 55, 62, and other applicable provisions of the Companies Act, 2013, read with the Companies (Share Capital and Debentures) Rules, 2014, have been duly completed.

c. The Company has executed a buy-back of equity shares amounting to ₹ 3,69,04,360, divided into 36,90,436 equity shares of face value ₹ 10 each, from its existing shareholders. All necessary compliances under Section 68 and other applicable provisions of the Companies Act, 2013 have been duly complied with.

d. The authorized Capital of the company has been increased from ₹20,45,00,000 (2,04,50,000 No. of shares of F.V. ₹ 10 each) to ₹1,00,45,00,000 (10,04,50,000 No. of shares of F.V. ₹, 10 each)

e. The company has successfully completed its merger with MBE Coal & Mineral Technology India Private Limited as per Chapter X Clause 3 of Resolution Plan dated 14th June, 2024. The filing of Form INC-28 with the Registrar of Companies has been duly completed.

f. The Company has duly complied with the provisions relating to Corporate Social Responsibility (CSR) expenditures during the year.

g. The managerial remuneration of Mr. Ravi Todi, Managing Director of the company, has been increased from ₹ 1,60,00,000 per annum to ₹ 4,00,00,000 per annum. All necessary compliances under Sections 197, 198, and 203 of the Companies Act, 2013, along with applicable rules, have been duly complied with.

h. During the period under audit the Borrowing powers of the company increased from ₹ 400 Crore to ₹ 800 Crore. All the compliances necessary under Section 180 (1)(C) of the Companies Act, 2013 along with the applicable rules are complied with.

i. During the period under review, significant changes occurred in the composition of the Board of Directors. These changes were made in compliance with the provisions of the Companies Act, 2013 and the applicable rules. The details of changes made are stated here-as-under:

Sl. No.	Name	Designation	Appointment/ Resignation	With effect from
1.	Mr.Amitava Guin	Whole-time Director	Resignation	10-05-24
2.	Ms. Rhea Todi	Whole-time Director	Appointment	04-06-24
3.	Mr. Avik Mukherjee	Executive Director	Appointment	17-07-24
4.	Mr. Ketan Mangaldas Shanghavi	Independent Director	Cessation	19-02-25

'Annexure A'

To,
The Members
BTL EPC Limited

The report of even date is to be read along with this letter.

1. Maintenance of secretarial record is the responsibility of the management of the company. My responsibility is to express an opinion on these secretarial records based on my audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. I believe that the processes and practices followed provide a reasonable basis for my opinion.
3. Where ever required, I have obtained the Management representation about the compliance of laws, rules and regulations and happening of events etc.
4. The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of management. The examination was limited to the verification of procedures on test basis.
5. The Secretarial Audit is neither an assurance as to the future viability of the company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of BTL EPC LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of M/S. BTL EPC LIMITED ("the Company"), which comprises the standalone Balance Sheet as at March 31 2025, the standalone Statement of Profit & Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements") in which it included the financial information for the year ended on that date audited by the branch auditor of the Company's branch located at Bangladesh.

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditor on separate financial statements and on the other financial information of the branch, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS ") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to the following notes:

1. Note 71 of the standalone financial statements, which states that no current tax is payable on the retention money for which milestone has not been achieved during the year for reasons stated therein. No provision for current tax for ₹ 594.16 lacs (at prevailing tax rate) is made on such retention money though deferred tax liability has been provided for the same.
2. Note 58 of the standalone financial statements, which states that balance confirmations are not available from parties under Trade receivables and Retention Money receivables as at March 31, 2025. The management has confirmed that the balances outstanding from the parties are fully recoverable and hence no provision would be required in the books of account.
3. Note 60 of the standalone financial statements, which describes the submission of resolution plan for acquisition of McNally Bharat Engineering Company limited and status of the same as on March 31, 2025.
4. Note 61 of the standalone financial statements, which describes the acquisition of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) pursuant to the approval of a Resolution Plan under the Corporate Insolvency Resolution Process (CIRP) by the Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench, vide its order dated 6th November 2024, under the provisions of the Insolvency and Bankruptcy Code, 2016.

Our opinion is not modified on account of the above stated matters.

Information other than the Standalone Financial Statements and Auditor's Report thereon

The Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Annual Report, but does not include standalone financial statements, and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance and conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those Charged with Governance for the Standalone Financial Statements

The Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the relevant rules, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

a. Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d. Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e. Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

We did not audit the financial statements and other financial information of the Company's Bangladesh Branch included in the accompanying standalone financial statements of the Company whose financial statements reflect total assets of ₹ 381.09 lacs as at March 31, 2025, total revenue of ₹ 277.18 lacs and net cash outflows of ₹ 0.66 lac for the year ended on that date. This financial statements/ financial information has been audited by branch auditor and whose reports have been furnished to us by the management, and our opinion in so far as it relates to the amounts and disclosures included in respect of branch, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid branch, is based solely on the report of such branch auditor.

The Branch is located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their country and which have been audited by branch auditor under generally accepted auditing standards applicable in their country. The Company's management has converted the financial statements of such branch located outside India from accounting principles generally accepted in their country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such branch located outside India is based on the report of such branch auditor and the conversion adjustments prepared by the management of the Company and audited by us.

Our opinion on the standalone financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of above matter with respect to our reliance on the work done and the reports of the other auditor.

Report on Other Legal and Regulatory Requirements

1) As required by the Companies (Auditor's report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements and other financial information of the branch, as noted in the 'Other Matters' paragraph we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2) A. As required by section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the branch, as noted in the 'Other Matters' paragraph we report that:

a) We/the branch auditor whose report we have relied upon, have sought and obtained all the information and explanations which to the best of our knowledge and belief are necessary for the purpose of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2B(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rule, 2014.

c) The report on the financial statements of Bangladesh branch of the Company audited under section 143(8) of the Act by the branch auditors has been furnished to us by the Management and has been properly dealt with us in preparing this report.

d) The Balance Sheet, Statement of Profit & Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

e) In our opinion, the aforesaid standalone financial statements comply with the accounting standards specified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time.

f) On the basis of written representations received from the Directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of section 164(2) of the Act.

g) The modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2A(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2B(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

h) With respect to the adequacy of the internal financial controls with reference to the standalone financial statement of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

i) In our opinion and to the best of our information and according to the explanations given to us, the managerial remuneration paid/provided by the Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V to the Act; and

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i) The Company has disclosed the impact of pending litigations as at March 31, 2025 on its financial position in its standalone financial statements - Refer Note No. 44 to the standalone financial statements.

ii) The Company has made provision, as required under the applicable law or accounting standards for material foreseeable losses on long term contracts including derivative contracts- Refer Note 31 to the standalone financial statements.

iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.

iv) a. The management has represented that, to the best of its knowledge and belief, as disclosed in the notes to accounts, during the year no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding whether recorded in writing or otherwise, that the intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate beneficiaries) or provide any guarantee, security or the like on behalf of the ultimate beneficiaries (Refer Note 66 to the standalone financial statements).

b. The management has represented, that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, during the year no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer Note 67 to the standalone financial statements).

c. Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our attention that cause us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under paragraph 2B(iv) (a) & (b) above, contain any material mis-statement.

v) The company has not declared or paid any dividend during the current and previous financial year. Accordingly, the provision of section 123 of the Act is not applicable to the company.

vi) Based on our examination which included test checks, the Company has used Accounting softwares for maintaining its books of accounts which has a feature of recording audit trail (edit log) facility except that audit trail was not enabled during the period at database level. Further, in respect of Payroll Application, the audit trail was not enabled during the period at both application level and database level. For the accounting softwares with enabled audit trail at application level, the audit trail facility has been operating throughout the year for all relevant transactions recorded in the software and we did not come across any instances of audit trail feature being tampered with during the course of our audit and the audit trail has been preserved by the company as per the statutory requirements for record retention except at the database level as the audit trail feature is not enabled.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our independent auditor's report of even date in respect to Statutory Audit of BTL EPC Limited for the year ended March 31, 2025)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief and based on the consideration of the report by the branch auditor, we state that:

i. In respect of the Company's Property, Plant and Equipment:

a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant & equipment.

(B) The company has maintained proper records showing full particulars of intangible assets.

b) The property, plant and equipment were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the property, plant and equipment at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the standalone financial statements are held in the name of the Company as at the balance sheet date except the followings (Refer Note 4.2 to the standalone financial statements):

Particulars	Description of item of the Property	Gross Carrying Value (₹ In Lacs)	Title deed held in the name of	Whether title deed holder is a promoter, director or their relative or employees	Property held since which year	Reason for not being held in the name of the Company
Property, plant & equipment	Freehold Land at 2, Jessore Road, Kolkata - 700028.	8,577.66	M/s. Kanoi Engineering & Industries Ltd.	No	1997 to 1998	The Company has acquired property through amalgamation/merger and also company has effected name change to BTL EPC Ltd, so name change in the deed is under process at appropriate Authority. However, in BLRO record name Property is updated in the name of BTL EPC Limited.
Property, plant & equipment	Freehold Land at 2, Jessore Road, Kolkata - 700028.	2,562.16	M/s. Bengal Tools Limited	No	1997 to 1998	The name of the Company has been changed to BTL EPC Limited as per ROC order, so name change in the deed is under process at appropriate Authority. However, in BLRO record name Property is updated in the name of BTL EPC Limited.
Property, plant & equipment	Freehold Land at 9A, K B Sarani, Kolkata - 700080.	1,002.34	M/s. Bengal Tools Limited	No	2010	The name of the Company has been changed to BTL EPC Limited as per ROC order, so name change in the deed is under process at appropriate Authority.
Investment Property	Freehold Land at Ashok Nagar	79.05	M/s Bengal Cylinder & Container Pvt. Ltd. and M/s GNB Credit Pvt. Ltd.	No	2009 to 2011	The Company has acquired property through amalgamation/merger and also company has effected name change to BTL EPC Ltd, so name change in the deed is under process at appropriate Authority.

d) The company has not revalued any of its property, plant and equipment (including Right of Use assets) or intangible asset during the year.

e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated during the year or are pending as at 31st March, 2025 against the Company for holding any benami property under the Prohibition of Benami Property Transaction Act, 1988 (as amended in 2016) and rules made thereunder.

ii. (a) The inventories have been physically verified during the year by the management. In respect of inventories lying with the third parties at the year end, those have substantially been confirmed by them. In our opinion, the frequency of verification is reasonable and procedures & coverage as followed by the management were appropriate. The discrepancies noticed on verification between the physical stock and the book stock for each class of inventory, wherever ascertained were not more than 10%.

(b) During the year, the company has been sanctioned working capital limits in excess of ₹ five crores in aggregate from banks on the basis of security of current asset of the Company. The quarterly returns/statements filed by the company with such banks are in agreement with the books of accounts other than those as set out below (Refer note no. 56 to the standalone financial statements).

Name of the Banks	Quarter Ended	Particulars of security provided	Amount as per Books of Accounts (₹ in lacs)	Amount as per Quarterly Statements (₹ in lacs)	Differences (₹ in lacs)	Reasons for material differences
State Bank of India, IDBI Bank Limited, Canara Bank, Punjab National Bank, Indian Overseas Bank, The Karnataka Bank Limited, HDFC Bank Limited, IndusInd Bank, Bank of India and Bank of Maharashtra	Jun-24	Inventories	5,459.67	5,626.58	(166.91)	Reason for difference due to Stock-in-Transit, which we have not given/ considered in Bank Quarterly Statement.
	Sep-24		5064.55	5,433.76	(369.21)	
	Dec-24		4,734.68	5,366.75	(632.07)	
	Mar-25		5,752.67	5,499.31	253.36	
	Jun-24	Trade Receivables	26,128.78	26,010.90	117.88	1. Deferred Trade Receivables on account of PSU Client upto 360 days and Other Clients upto 180 days are considered in Drawing Power Statement, whereas as per Schedule-III presentation it is presented in Other Current Financial Assets. 2. Trade Receivables ageing more than 360 days on account of PSU Clients and 180 days on Account of Other Clients are out of Drawing Power Statement purview. Whereas as per Schedule-III presentation these are part of Trade Receivables. 3. Few Trade Receivables including generated out of India are beyond Drawing Power Statement. 4. Few Trade Receivables have been written off after submission of quarterly statement with the Bank.
	Sep-24		23,253.89	23,009.00	244.89	
	Dec-24		23,317.78	23,149.62	168.16	
	Mar-25		32,345.78	32,149.33	196.45	

iii. According to the information and explanations given to us and on the basis of our examination of the records of the Company, during the year the Company has granted loans but has not made investments, not provided any guarantee or security or advance in the nature of loan, secured or unsecured, to companies, firms, limited liability partnerships or any other parties.

a. During the year, the Company has granted loans but has not provided guarantee or security or advance in the nature of loan, secured or unsecured, to companies, firms, limited liability partnerships or any other parties as follows:

(₹ In Lacs)

Particulars	Guarantees	Loans	Advances in nature of loans
Aggregate amount granted/ provided during the year			
- Subsidiaries	-	137.32	-
- Others	-	-	-
Balance outstanding as at balance sheet date in respect of above cases - Subsidiaries	-	39.03	-
- Others	-	-	-

b. According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the terms and conditions of the loans granted during the year, prima facie are not prejudicial to the interest of the Company. The Company has not made investment or provided any guarantee or security or advances in the nature of loan during the year.

c. According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion the repayment of principal and payment of interest has been stipulated and the receipts have been regular.

d. According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount during the year for more than ninety days in respect of loans given.

e. According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdue of existing loans given to the same parties.

f. According to the information and explanations given to us and on the basis of our examination of the records of the Company, during the year the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.

iv. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees & securities provided, as applicable.

v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of section 73 to 76 of the Act and the Rules framed there under to the extent notified.

vi. The Central Government has prescribed maintenance of cost records under section 148(1) of the Act, for the Company. We have broadly reviewed such accounts and records and are of the opinion that prime facie, the prescribed accounts & records have been made & maintained but no detailed examination of such records and accounts have been carried out by us.

vii. According to the information and explanations given to us and on the basis of our examination of the books of account:

a) The Company is generally regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income tax, duty of customs, Goods & Service Tax, cess and other statutory dues during the year by the Company with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, duty of customs, Goods & Service Tax, cess and other statutory dues were in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.

b) The disputed dues of income tax, sales tax, duty of customs, duty of excise, value added tax or goods and service tax or any other statutory dues which have not been deposited and the forum where the dispute is pending as on March 31, 2025 are as under:

Name of the Statute	Nature of the Dues	Amount Involved (₹ in lacs)	Period to which the amount relates	Forum where dispute is pending
The West Bengal Tax on Entry of Goods into Local Areas Act, 2012	Entry Tax	48.88	Sep'13 to Mar'17	Hon'ble High Court of Calcutta

Goods and Service Tax Act, 2017	Goods and Service Tax	27.44	2020-21, 2024-25	Appellate Authority, Maharashtra

viii. According to the information and explanations given to us, the Company has not surrendered or disclosed any transactions, previously unrecorded in the books of accounts, as income during the year in the tax assessments under the Income Tax Act, 1961. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

ix. (a) According to the records of the Company examined by us and the information and explanation given to us, the company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) According to the information and explanations given to us and the records of the Company examined by us including representation received from the management, the Company has not been declared wilful defaulter by any bank, financial institution or other lender.

(c) According to the information and explanations given to us and the records of the Company examined by us, Term Loans were applied for the purpose for which the loans were obtained.

(d) According to the information and explanations given to us and on an overall examination of the financial statements of the Company, prima facie, no funds raised on short-term basis have been used for long-term purpose by the Company.

(e) The company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the company.

(f) According to the information and explanations given to us and the records of the Company examined by us, the company has not raised loans during the year on the pledge of securities held in its subsidiary.

Accordingly, the requirement to report on clause 3(ix)(f) of the Order is not applicable to the company.

x. (a) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has not raised any money by way of initial public offer or further public offer (including debt instrument). Accordingly reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the company, the Company has made a preferential allotment of 0.50% Non-Cumulative Compulsorily Convertible Preference Shares (CCPS) during the current financial year. The Company has complied with the requirements of Sections 42 and 62 of the Companies Act, 2013 to the extent applicable, and the funds raised have been used for the purposes for which they were raised.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanation given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the management.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) According to the information and explanations and representations made by the management, no whistle-blower complaints have been received during the year by the company.

xii. The Company is not a Nidhi Company. Accordingly, clause 3(xii)(a) to 3(xii)(c) of the Order is not applicable to the company.

xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

xiv. (a) In our opinion and based on our examination and explanation given to us, the company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

xv. According to the information and explanations give to us and based on our examination of the records of the Company, the company has not entered into any non-cash transactions with directors or persons connected with him and hence requirement to report on clause 3(xv) of the Order is not applicable on the Company.

xvi. (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtaining a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.

(c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) Management has represented that, to the best of its knowledge and belief, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

xvii. In our opinion and according to the information and explanations provided to us, the Company has not incurred cash losses in the current financial year and in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year. Accordingly, provisions of clause 3(xviii) of the Order is not applicable to the Company.

xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

xx. (a) According to the records of the Company examined by us and the information and explanation given to us, the company has no unspent amount in respect of other than ongoing projects, accordingly, clause 3(xx)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and based on our examination of the records of the Company, there is no unspent amount under section 135(5) of the Companies Act, pursuant to ongoing projects at the balance sheet date, accordingly, clause 3(xx)(b) of the Order is not applicable.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2A(h) under 'Report on Other Legal and Regulatory Requirements' section of our Independent auditor's report of even date in respect to Statutory Audit of BTL EPC Limited for the year ended March 31, 2025)

Report on the Internal Financial Controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the standalone financial statements of BTL EPC Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to the standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the standalone financial statements included obtaining an understanding of internal financial controls with reference to the standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the branch auditor in terms of his report referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls with reference to the standalone financial statement

A company's internal financial control with reference to the standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to the standalone financial statements includes those policies and procedures that- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Limitations of Internal Financial Controls with reference to the standalone financial statement

Because of the inherent limitations of internal financial controls with reference to the standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the standalone financial statements to future periods are subject to the risk that the internal financial control with reference to the standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to the standalone financial statements and such internal financial controls with reference to the standalone financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to the standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

Other Matter

Our aforesaid reports u/s 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to standalone financial statements in so far as it relates to Company's Bangladesh branch, is based on the corresponding report of the branch auditor. Our opinion is not modified in respect of this matter.

Mem. No. A60573

1. Corporate and General Information

BTL EPC Limited (the Company) is a Public Limited Company domiciled in India and incorporated under the provision of Companies Act 1956. The Company has its registered office at 2, Jessore Road, Kolkata - 700028 and five manufacturing facilities across West Bengal. The Company is primarily engaged in supply of highly engineered material handling refinery and power plant equipment including execution of turnkey contract in various field and various machineries & equipment's used in the farming.

2. Basis of Accounting

2.1 Statement of Compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India. These standalone financial statements have been approved for issue by the Board of Directors at their meeting held on 29th July, 2025.

2.2 Basis of Measurement

The standalone financial statements have been prepared following accrual basis of accounting on a historical cost basis, except for the following which are measured at fair value:

a) Certain Financial Assets and Liabilities is measured at Fair value/ Amortized cost

b) Defined Benefit Plans – Plan assets measured at Actuarial Valuation

c) Derivative Financial Instruments measured at fair value

2.3 Functional and Presentation Currency

The Standalone Financial Statements are presented in Indian Rupees (INR), which is the functional currency of the Company. All financial information presented in INR has been rounded off to the nearest Lacs as per the requirements of Schedule III, unless otherwise stated.

2.4 Use of Estimates and Judgements

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the accompanying disclosures including contingent liabilities. Actual results may differ from these estimates. Difference between actual results and estimates are recognised in the period prospectively in which the results are known/ materialised.

Estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Detailed information about estimates and judgements is included in Note 3.17.

2.5 Current Vs non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 "Presentation of Financial Statements". The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

An asset is classified as current when it is:

- Expected to be realized or is intended to be sold or consumed in the normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is current if:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

2.6. Presentation of Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Division II of Schedule III to the Act, are presented by way of notes forming part of the standalone financial statements along with the other notes required to be disclosed under the notified Accounting Standards.

2.7 Measurement of Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 — Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided by the management of the company considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

3. Material Accounting Policies

A summary of the material accounting policies applied in the preparation of the standalone financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the standalone financial statements

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

3.1 Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is measured by including, unless specifically mentioned below, cost of purchase and other costs incurred in bringing the inventories to their present location and condition. NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

- Raw Materials, Stores and Spare Parts: At Cost (on weighted average basis for Agro Machinery division and FIFO for Engineering Division) or Net Realizable Value whichever is lower. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
- Finished Goods: Finished goods are measured at cost or NRV whichever is lower.
- Contract in Progress: For long term contracts, contract in progress is valued at realizable value/ contractual rate and provision for losses, as may be estimated for completion thereof.
- Stock in Trade: Measured at cost (i.e., purchase cost) or net realizable value whichever is lower.

3.2 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

3.3 Income Tax

Income Tax comprises current and deferred tax. It is recognized in the statement of profit & loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

3.3.1 Current Tax

Current tax comprises the expected tax payable on the taxable income for the year and any adjustments to the tax payable in respect of previous years. It is measured using tax rates and tax laws enacted by the reporting date.

3.3.2 Deferred Tax

- Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes i.e tax base.
- Deferred Tax assets are recognised to the extent that it is probable that future taxable amounts will be available to utilise those temporary differences, carried forward tax losses and unused tax credits.
- Deferred Tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax laws that have been enacted or substantively enacted by the reporting date.
- Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.
- Tax relating to items recognized directly in equity or Other Comprehensive Income (OCI) is recognized in equity or OCI and not in the Statement of Profit and Loss.
- The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

3.4 Property, Plant and Equipment

3.4.1 Recognition and Measurement:

- Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).
- Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.
- In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.
- If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.
- Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.
- Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

3.4.2 Subsequent Expenditure

- Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.
- Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipmentas a replacement if the recognition criteria are satisfied. Any unamortized part of the previously recognized expenses of similar nature is derecognized.

3.4.3 Depreciation and Amortization

- Depreciation on all items of PPE is calculated using the straight-line method to allocate their cost, net of their residual value, over their estimated useful lives as prescribed in Schedule II to the Act.
- Depreciation methods, useful lives and residual values are reviewed at the end of each financial year and adjusted prospectively, if appropriate.
- Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

3.4.4 Reclassification to Investment Property

- When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at it's carrying amount on the date of reclassification.

3.5 Intangible Assets

- Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.
- The Company amortises intangible assets with a finite useful life using the straight-line method over five years. Amortisation methods and useful lives are reviewed at the end of each financial year and adjusted prospectively, if appropriate.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

3.6 LEASES

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

3.6.1. As a lessee:

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use Assets (ROU Assets)

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date at which the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note 3.12 Impairment of non-financial assets.

ii) Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of properties, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

3.7 Revenue Recognition

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

3.7.1. Sale of Products:
Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

3.7.2. Revenue from construction contracts:
Revenue from fixed-price construction contract, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is assessed by the Management. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date. The significant terms of payment of the contract are the Job advances, progressive payments and mile stone payments as mutually agreed upon.

3.7.3. Other income
a. Interest income on investments and loans is recognised using the time proportion method, based on underlying interest rates.

b. Dividend income is recognised when the Company's right to receive the payment is established.

c. Other items of income are accounted for as and when the right to receive such income arises, it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

3.8 Employee Benefits

3.8.1 Short Term Employee Benefits
Short-term employee benefit obligations are measured on an undiscounted basis and expensed as the relative service is provided. A liability is recognised for the amount expected to be paid e.g. towards bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

3.8.2 Other Long Term Employee Benefits
The liabilities for earned leave are measured and provided on the basis of actuarial valuation made by an external valuer at the end of each financial year using the projected unit credit method. Re-measurement gains or losses are recognised in Statement of Profit and Loss in the period in which they arise.

3.8.3. Post-Employment Benefits
The Company operates the following post-employment schemes:

Defined Contribution Plan

Provident Fund, a defined contribution plan, is a post-employment benefit plan under which the Company pays contributions into a separate entity and has no legal or constructive obligation to pay further amounts. The Company recognises the contributions payable towards the provident fund as an expense in the Statement of Profit and Loss in the periods during which the related services are rendered by employees.

Defined Benefit Plan

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Re-measurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Re-measurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

3.9 Foreign Currency Transactions

Foreign currency transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

Non-monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

3.10 Borrowing Cost

- Borrowing costs consists of interest and other costs incurred in connection with the borrowing of funds.
- Borrowing costs attributable to the acquisition or construction of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. Income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowings costs eligible for capitalisation. All other borrowing costs are expensed in the period in which they are incurred.
- Transaction costs in respect of long-term borrowings are amortised over the tenor of respective loans using effective interest method.

3.11 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.11.1 Financial Assets

a) Recognition and Initial Measurement:

All financial assets are initially recognized when the company becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

b) Classification and Subsequent Measurement:

For purposes of subsequent measurement, financial assets are classified in four categories:

- Measured at Amortized Cost;
- Measured at Fair Value Through Other Comprehensive Income (FVTOCI);
- Measured at Fair Value Through Profit or Loss (FVTPL); and
- Equity Instruments measured at Fair Value through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

- **Measured at Amortized Cost:**

A debt instrument is measured at the amortized cost if both the following conditions are met:

a) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and

b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

- **Measured at FVTOCI:**
  A debt instrument is measured at the FVTOCI if both the following conditions are met:

  a) The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and

  b) The asset's contractual cash flows represent SPPI.

  Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on re-measurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the statement of profit and loss in investment income.

- **Measured at FVTPL:**
  FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

- **Equity Instruments measured at FVTOCI:**
  All equity investments in scope of Ind AS – 109 are measured at fair value. Equity instruments which are, held for trading are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable. In case the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

c) De-recognition:

The Company derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

d) Impairment of Financial Assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS – 109 requires expected credit losses to be measured through a loss allowance. The company recognizes lifetime expected losses for all contract assets and or all trade receivables that do not constitute a financing transaction.

For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

3.11.2. Financial Liabilities

a) Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

b) Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

c) De-recognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

d) Off-setting financial instruments:

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

3.11.3 Derivative financial instruments:

The Company enters into derivative financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps to manage its exposure to interest rate and foreign exchange rate risks. The Company does not hold derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately.

3.12 Impairment of Non-Financial Assets:

The Company assess, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

3.13 Provisions, Contingent Liabilities and Contingent Assets:

3.13.1 Provisions:

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

3.13.2 Contingent Liabilities and Assets:

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in Other Notes to the Standalone Financial Statements. Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

3.14 Investment properties:

Investment Property is property (comprising land or building or both) held to earn rental income or for capital appreciation or both, but not for sale in ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Upon initial recognition, an investment property is measured at cost. Subsequently they are stated in the balance sheet at cost, less accumulated depreciation and accumulated impairment losses, if any.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

Any gain or loss on disposal of investment property is determined as the difference between net disposal proceeds and the carrying amount of the property and is recognized in the statement of profit and loss.

The depreciable investment property i.e., buildings, are depreciated on a straight-line method at a rate determined based on the useful life as provided under Schedule II of the Act.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The net difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

3.15 Segment Reporting:

The identification of operating segment is consistent with performance assessment and resource allocation by the chief operating decision maker. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the other components of the Company and for which discrete financial information is available.

Operating segments of the Company comprises two segments Engineering and Agro Machinery. All operating segments, operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segments and assess their performance.

3.16 Earnings Per Share:

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity shareholders by the weighted average number of ordinary shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity shareholders adjusted for the effects of potential ordinary shares by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

3.17 Compulsory Convertible Preference Shares (CCPS)

The Company has issued Compulsory Convertible Preference Shares (CCPS). CCPS are classified and accounted for in accordance with the requirements of Ind AS 32 – Financial Instruments: Presentation.

Classification:

CCPS are compulsorily convertible into a variable number of equity shares based on the terms of issue and valuation at the time of conversion. Accordingly, the instrument is evaluated to determine whether it contains a liability component and an equity component.

Where the number of shares to be issued on conversion is fixed, the CCPS are classified as equity.

Where the number of shares is variable or linked to fair value/valuation formula, CCPS are classified as a financial liability (in full or in part).

Initial Recognition and Measurement:

On initial recognition, the CCPS is split into equity component (residual interest) and liability component (present value of contractual cash flows, if any, such as dividend obligations not discretionary). The liability component is recognised at fair value, determined by discounting expected future cash flows at the market rate of interest for a similar instrument without conversion feature. The equity component represents the residual amount after deducting the liability component from the fair value of the instrument as a whole.

Subsequent Measurement:

The liability component, if any, is subsequently measured at amortised cost using the effective interest rate method.

The equity component is not remeasured subsequently.

Dividends on CCPS that are discretionary and non-cumulative are recorded directly in equity, while those that are contractual obligations are recognised as finance cost in the Statement of Profit and Loss.

Conversion:

Upon conversion of CCPS into equity shares, the carrying amount of the instrument (including both liability and equity components, if any) is transferred to equity share capital and securities premium, as applicable. No gain or loss is recognised on conversion.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

3.18 Business Combination

Business combinations are accounted for using the acquisition method of accounting. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities assumed at their acquisition date i.e. the date on which control is acquired. Contingent consideration to be transferred is recognised at fair value and included as part of cost of acquisition. Transaction related costs are expensed in the period in which the costs are incurred.

Where the aggregate of consideration transferred and amount recognised for non-controlling interests exceeds the fair value of net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. After initial recognition, goodwill is tested for impairment annually and measured at cost less any accumulated impairment losses if any. Alternatively, in case of a bargain purchase wherein the aggregate of consideration transferred and amount recognised for non-controlling interests is lower than the fair value of net identifiable assets acquired and liabilities assumed, the difference is recognised as capital reserve within equity.

Any contingent consideration to be transferred by the Company is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in the statement of profit and loss. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

3.19 Significant Judgements and Key Sources of Estimation in applying accounting policies

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Information about significant judgements and key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the standalone financial statements is included in the following notes:

i) Revenue Recognition: The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage of completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion.

ii) Recognition of Deferred Tax Assets: The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

iii) Useful lives of depreciable/ amortizable assets (tangible and intangible): Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to actual normal wear and tear that may change the utility of property, plant and equipment.

iv) Defined Benefit Obligation (DBO): Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.

v) Provisions and Contingencies: The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

vi) Impairment of Financial Assets: The Company reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.

vii) Expected Credit Loss Model: The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. As a practical expedient, the Company uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables. In case of vendor advances under litigation loss allowance is considered based on case-to-case basis.

viii) Fair value measurement of financial Instruments: When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models is taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

3.20 Recent Accounting Pronouncements:

During the year ended 31st March 2025, the Company considered the amendments notified by the Ministry of Corporate Affairs (MCA) through the 1st Amendment dated 12th August 2024, the 2nd Amendment dated 9th September 2024, and the 3rd Amendment dated 28th September 2024 to the Companies (Indian Accounting Standards) Rules, 2015.

These amendments primarily relate to the introduction of Ind AS 117 – Insurance Contracts, along with consequential changes to other standards including Ind AS 101, 103, 104, 105, 107, 109, and 115, which address accounting and disclosure requirements for insurance contracts and financial guarantee contracts. The amendments also include changes to Ind AS 116 – Leases, specifically addressing accounting and disclosure requirements for sale and leaseback arrangements.

The adoption of these amendments to the extent applicable to the Company did not have impact on the profit or loss and earnings per share of the Company for the year.

Standards issued but not yet effective

The Ministry of Corporate Affairs (MCA), vide notification dated 7th May 2025, has amended Indian Accounting Standard (Ind AS) 21 – The Effects of Changes in Foreign Exchange Rates and Ind AS 101 – First-time Adoption of Indian Accounting Standards. These amendments are applicable for annual reporting periods beginning on or after 1st April 2025.

The key amendment relates to providing guidance for assessing lack of exchangeability between currencies and estimating the spot exchange rate when a currency is not exchangeable. Additional disclosure requirements have also been introduced in such scenarios, including the nature and financial effect of the currency in exchangeability, the estimation methodology used, and risks arising therefrom.

The Company is currently evaluating the impact of these amendments and expects that their application will not have a material effect on the standalone financial statements.

20.B.5. Terms/ Rights attached to CCPS :

The Company has issued 0.50% Non-Cumulative Compulsory Convertible Preference Shares (CCPS) having a par value of ₹ 10 each. These shares carry a fixed non-cumulative dividend of 0.50% per annum, which is discretionary and payable only out of profits, if declared by the Board of Directors. The CCPS do not carry any voting rights, except as provided under the Companies Act, 2013.

These CCPS are compulsorily convertible into Equity Shares of the Company at any time after 6 months from the date of issue and as per the terms of issue. The number of Equity Shares to be issued upon conversion is fixed in accordance with the terms and conditions.

In the event of liquidation, CCPS holders are entitled to receive preferential repayment of capital before any distribution to Equity Shareholders, but after all secured and unsecured creditors have been paid.

45. Disclosure as required under the Micro, Small and Medium Enterprises Development Act, 2006, to the extent ascertained, and as per notification number GSR 679 (E) dated 4th September, 2015

44.2. Capital Commitments

(₹ in Lacs)

Sl. No.	Particulars	As at 31st March 2025	As at 31st March 2024
i	The principal amount outstanding at the end of financial year.	2,823.47	1,062.83
ii	Interest on principal amount due at the end of financial year.	38.48	6.35
iii	The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day during each accounting year.	-	-
iv	The amount of interest due and payable for the period of delay in making payment but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006	-	-
v	The amount of interest accrued and remaining unpaid at the end of the year	38.48	6.35
vi	The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006	-	-

The above details has been determined to the extent such suppliers have been identified on the basis of information provided by the suppliers. There has been a provision of Interest of ₹ 38.48 lacs (PY: ₹ 6.35 lacs) in books in accordance with MSME Act, which has not been claimed.

46. Leases

46.1. The lease liability is measured at the present value of remaining lease payments discounted using incremental borrowing rate at the date of initial application and right of use asset has been recognized at an amount equal to the lease liability plus prepaid rentals recognised in the Balance Sheet before the date of initial application, if any. Further, the Company has exercised the following practical expedient:

Leases for which the lease term ends within 12 months of the date of initial application have been accounted as short term leases. Further, refer Note 3.6 Material Accounting Policies for detailed measurement and recognition principles on Leases.

Machinery Hire Charges and Rental expense recorded for short-term leases or cancellable in nature was ₹ 419.57 lacs (P.Y. ₹ 205.99 lacs) and ₹ 152.45 lacs (P.Y. ₹ 128.05 lacs) for the year ended 31st March, 2025 (Refer Note - 40).

The changes in the carrying value of right of use (ROU) assets for the year ended 31st March, 2025 are disclosed in Note 6.

As per the requirement of Ind AS -107 maturity analysis of lease liability have been shown under maturity analysis of Long term borrowing under Liquidity risk Note 54.2.1.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

47. Disclosure pursuant to Indian Accounting Standard - 19 'Employee Benefits'

47.1. Defined Contribution Plan:

The Company has defined benefit contribution plans in the term of Provident Fund and ESIC (Employees State Insurance Corporation) and the contribution are charged to the Statement of Profit & Loss of the year when the contributions to the respective funds are due. There is no other obligation other than contribution payable to the respective funds.

47.1.1. Provident Fund Contribution

Provident Fund as per the provisions of the Employees Provident Funds and Miscellaneous Provisions Act, 1952.

47.1.2. The amount recognized as an expense for the Defined Contribution Plans are as under:

(₹ in Lacs)

Sl. No.	Particulars	For the year ended 31st March 2025	For the year ended 31st March 2024
a	Provident Fund	211.37	173.00

47.1.3. ESIC (Employees State Insurance Corporation) Contribution

ESIC contribution as per the provisions of the ESI Act 1948.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

47.1.4. The amount recognized as an expense for the Defined Contribution Plans are as under:

(₹ in Lacs)

Sl. No.	Particulars	For the year ended 31st March 2025	For the year ended 31st March 2024
a	ESIC Contribution	23.70	23.13

47.2. Defined Benefit Plan:

The Company has a Gratuity Fund Scheme in L.I.C. for its employees. The liability in respect of contributions of these funds is ascertained using the projected unit credit method with actuarial valuation being carried out at each Balance Sheet date. The scheme, which is partially funded, is administered by Life Insurance Corporation of India (LIC).

Actuarial gains / losses arising during Defined Benefit plans are recognised immediately in the Statement of Profit & Loss as income / expense for the year in which they occur.

47.2.1. Gratuity Plan

Every employee who has completed five years or more of service is entitled to Gratuity as per the provisions of the Payment of Gratuity Act, 1972. The present value of defined obligation and related current cost are measured using the Projected Unit Credit Method with actuarial valuation being carried out at Balance Sheet date.

47.2.2. Risk Exposure

Through its defined benefit plans, the company is exposed to a number of risks, the most significant of which are detailed below:

INTEREST RATE RISK	The Defined Benefit Obligation Calculated uses a discount rate based on Government bonds. If bonds yeild fall, the defined benefit obligation will tend to increase.
SALARY GROWTH RISK	The present value of defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of plan participants will increase the plan liabilities.
DEMOGRAPHIC RISK	This is the risk of variability of results due to unsytematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of Salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

47.2.3. Reconciliation of the net defined benefit (asset)/ liability

The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit (asset)/ liability and its components:

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Balance at the beginning of the year	408.91	368.76	32.34	36.95
Addition due to acquisition through Business Combination	33.59	-	-	-

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Actuarial (gain)/ Loss on defined benefit obligation due to -				
Change in experience variance	112.70	1.54	(34.64)	(15.39)
Change in Demographic assumption	-	-	-	-
Change in Financial Assumption	22.26	13.62	0.10	1.40
Return on plan assets greater/ (lesser) than discount rate	(0.86)	(1.21)	-	-
Actuarial (Gains)/Losses recognized in OCI	**134.10**	**13.95**	**(34.54)**	**(13.99)**

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

47.2.8. Funding arrangements and Funding Policy:

The Company has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Company. Any deficit in the assets arising as a result of such valuation is funded by the Company.

47.2.9. Actuarial Assumptions

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Financial Assumptions				
Discount Rate	6.75%	7.15%	6.85%	7.15%
Salary Escalation Rate	5.50%	5.50%	5.50%	5.50%
Demographic Assumptions				
Mortality Rate	100% of IALM 2012-14	100% of IALM 2012-14	100% of IALM 2012-14	100% of IALM 2012-14
Attrition rate	1.00%	1.00%	1.00%	1.00%

47.2.10. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

47.2.11. At 31st March 2025, the weighted average duration of the defined benefit obligation was 10 years (previous year 10 years). The distribution of the timing of benefits payment i.e., the maturity analysis of the benefit payments is as follows:

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
1 Year	86.43	53.32	0.01	1.32
2- 5 Years	155.45	104.09	0.07	5.77
6 to 10 Years	177.15	153.25	0.82	12.23
More than 10 years	924.17	668.29	7.18	88.90

47.2.12. Sensitivity Analysis

The sensitivity analysis below have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occuring at the end of the reporting period. Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below :

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Effect on DBO due to 1% increase in Discount Rate	530.97	371.93	1.63	28.31
Effect on DBO due to 1% decrease in Discount Rate	646.59	452.30	2.32	37.24
Effect on DBO due to 1% increase in Salary Escalation Rate	644.66	450.67	2.32	37.27
Effect on DBO due to 1% decrease in Salary Escalation Rate	531.74	372.69	1.62	28.21

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Net Receivables	**32,631.58**	**31,439.85**

49.2.1. Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognised as revenue as and when the performance obligation is satisfied.

49.2.2. Refer Note 54.1 of Standalone financial statement for movement of expected credit loss during the current and previous year.

50. Segment Reporting

The Company has disclosed business segment as primary segment. The company has following business segments:

i. Engineering

ii. Agro Machinery

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the Chief Operating Decision Maker, in deciding how to allocate resources and assessing performance. Operating segments are reported in a manner consistent with the internal financial reporting provided to the chief operating decision maker. Based on the management approach as defined in Ind AS 108, the Chief Operating Decision Maker evaluates the Company's performance based on segment.

Notes to Standalone Financial Statements as at and for the year ended 31st March, 2025

Revenue from Operations includes approximately ₹ 51,905.12 lacs (PY: ₹ 51,675.07 lacs) pertaining to sales to the company's top two customers. No other single customer contributed 10% or more of the Company's revenue in year ended March 31,2025 and March 31, 2024.

52. Fair Values of Financial Assets and Financial Liabilities measured at Amortised Cost

52.1. The following is the comparison by class of the carrying amounts and fair value of the Company's financial instruments that are measured at amortized cost:

(₹ in Lacs)

Particulars	As at 31st March 2025		As at 31st March 2024	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets				
Investment (at Cost)	22.47	22.47	57.50	57.50
Trade Receivables	29,526.62	29,526.62	26,341.18	26,341.18
Cash and Cash Equivalents	626.50	626.50	2,059.92	2,059.92
Bank balances other than above	2,814.33	2,814.33	3,329.07	3,329.07
Loans	99.17	99.17	78.72	78.72
Other Financial Assets	24,302.95	24,302.95	21,299.13	21,299.13
Total Financial Assets	**57,392.04**	**57,392.04**	**53,165.52**	**53,165.52**
Financial Liabilities				
Borrowings	12,157.71	12,157.71	13,697.97	13,697.97
Trade Payables	25,228.75	25,228.75	21,756.39	21,756.39
Lease Liabilities	60.92	60.92	42.95	42.95
Other Financial Liabilities	2,804.20	2,804.20	3,217.59	3,217.59
Total Financial Liabilities	**40,251.58**	**40,251.58**	**38,714.90**	**38,714.90**

52.2. The management has assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, short term borrowings, current loans and other financial assets & liabilities approximates their carrying amounts.

52.3. The management considers that the carrying amounts of Financial assets and Financial liabilities recognised at nominal cost/amortised cost in the Financial statements approximate their fair values.

52.4. Non current borrowings has been contracted at floating rates of interest, which are reset at short intervals. Fair value of floating interest rate borrowings approximates their carrying value subject to adjustments made for transaction cost.

53. Fair Value Hierarchy

The following are the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair value are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels of fair value measurement as prescribed under the Ind AS 113 "Fair Value Measurement". An explanation of each level follows underneath the tables.

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted price including within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparty. This is the case with listed instruments where market is not liquid and for unlisted instruments.

53.1. Assets and Liabilities measured at Fair Value - recurring fair value measurements

As at 31st March 2025 and 31st March 2024

(₹ in Lacs)

Particulars	As at 31st March 2025			As at 31st March 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial Assets						
Investment	60.74	-	0.19	56.32	-	0.19

53.2 Assets and Liabilities measured at Fair Value - through Amortized Cost

As at 31st March 2025 and 31st March 2024

(₹ in Lacs)

Particulars	As at 31st March 2025			As at 31st March 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial Assets						
Investment (at Cost)	-	-	22.47	-	-	57.50
Trade Receivables	-	-	29,526.62	-	-	26,341.18
Cash and Cash Equivalents	-	-	626.50	-	-	2,059.92
Bank balances other than above	-	-	2,814.33	-	-	3,329.07
Loans	-	-	99.17	-	-	78.72
Other Financial Assets	-	-	24,302.95	-	-	21,299.13
Total Financial Assets	**-**	**-**	**57,392.04**	**-**	**-**	**53,165.52**
Financial Liabilities						
Borrowings	-	-	12,157.71	-	-	13,697.97
Trade Payables	-	-	25,228.75	-	-	21,756.39
Lease Liabilities	-	-	60.92	-	-	42.95
Other Financial Liabilities	-	-	2,804.20	-	-	3,217.59
Total Financial Liabilities	**-**	**-**	**40,251.58**	**-**	**-**	**38,714.90**

53.3. The following methods and assumptions were used to estimate the fair values:

The investments being listed, the fair value has been taken at the market rates of the same on the reporting dates. They are classified as Level 1 fair values in the fair value hierarchy.

The values of non current borrowings are based on the discounted cash flows using a current borrowing rate. They are classified as Level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including own credit risks, which was assessed as on the balance sheet date to be insignificant.

53.4. During the year ended March 31, 2025 and March 31, 2024, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfer into and out of Level 3 fair value measurements.

54. Financial Risk Management

The company's principal financial liabilities comprises borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include investments, trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets.

The Company is exposed to market risk, liquidity risk and credit risk. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Company. The Risk management committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

54.1.Credit Risk

The Company's customer profile include public sector enterprises, state owned companies and large private corporates. Accordingly, the Company's customer credit risk is low. The Company's average project execution cycle is around 24 to 36 months. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 45 to 90 days and certain retention money to be released at the end of the project. In some cases retentions are substituted with bank/corporate guarantees. The Company has a detailed review mechanism of overdue customer at various levels within organisation to ensure proper attention and focus for realisation. The company is making provisions on trade receivables based on Expected Credit Loss (ECL) model. The reconciliation of ECL is as follows:

Reconciliation of provision for expected credit loss

(₹ in Lacs)

Particulars	As at 31st March 2025	As at 31st March 2024
Loss allowance at the beginning of the year	1,041.51	1,326.46
Changes in loss allowance *	1,777.65	(284.95)
Loss allowance at the end of the year	2,819.16	1,041.51

** Changes in loss allowances includes ₹ 1497.39 pertaining to Acquisition through Business Combination.*

54.2. Liquidity Risk

The Company determines its liquidity requirement in the short, medium and long term. This is done by drawing up cash forecast for short term and long term needs.

The Company manage its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for funding from banks and inter corporate and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in certain fixed deposits which provides flexibility to liquidate.

54.2.1. Maturity Analysis for financial liabilities

a The following are the remaining contractual maturities of financial liabilities as at 31st March 2025. (₹ in Lacs)

Particulars	Not Due	On Demand	Less than 1 year	1 Year to 5 Year	More than 5 Years	Total
Long Term Borrowings	-	-	-	816.44	-	816.44
Short Term Borrowings	-	10,561.32	779.95	-	-	11,341.27
Trade payables	19,969.22	5,259.53	-	-	-	25,228.75
Lease liabilities	-	-	24.89	35.65	0.38	60.92
Other financial liabilities	-	-	1,486.66	1,034.70	282.84	2,804.20
Total	**19,969.22**	**15,820.85**	**2,291.50**	**1,886.79**	**283.22**	**40,251.58**

b The following are the remaining contractual maturities of financial liabilities as at 31st March 2024. (₹ in Lacs)

Particulars	Not Due	On Demand	Less than 1 year	1 Year to 5 Year	More than 5 Years	Total
Long Term Borrowings	-	-	-	1,485.80	-	1,485.80
Short Term Borrowings	-	10,725.11	1,487.06	-	-	12,212.17
Trade payables	16,925.70	4,830.69	-	-	-	21,756.39
Lease liabilities	-	-	17.41	21.27	4.27	42.95
Other financial liabilities	-	-	1,135.75	1,786.40	295.44	3,217.59
Total	**16,925.70**	**15,555.80**	**2,640.22**	**3,293.47**	**299.71**	**38,714.90**

c The amounts are gross and undiscounted and exclude the impact of netting agreements (if any). The interest payments on variable interest rate loans in the tables above reflect market forward interest rates at the respective reporting dates and these amounts may change as market interest rates change. Except for these financial liabilities, it is not expected that cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts. When the amount payable is not fixed, the amount disclosed has been determined with reference to conditions existing at the reporting date.

54.3. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of Foreign Exchange Risk and Interest Rate Risk.

54.4. Foreign Exchange Risk

Foreign Exchange Risk is the exposure of the Company to the potential impact of the movement in foreign exchange rate.

The Company has Foreign Currency Exchange Risk on imports of materials in foreign currency for its business. The Company evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. The Company adopts a policy of selective hedging based on risk perception of the management using derivative, wherever required, to mitigate or eliminate the risk.

The following table demonstrates the sensitivity in the US Dollars (USD) to the Indian Rupee with all other variables held constant.

Unhedged Foreign Currency Exposure (₹ in Lacs)

Particulars	As at 31st March 2025		As at 31st March 2024	
	USD	INR	USD	INR
Financial Assets				
Trade Receivables	-	-	-	-
Financial Liabilities				
Trade Payables & Others	8.78	751.60	6.29	524.42
(Net Exposure)/Exposure in foreign currency	**(8.78)**	**(751.60)**	**(6.29)**	**(524.42)**

Hedged Foreign Currency Exposure (₹ in Lacs)

Particulars	As at 31st March 2025		As at 31st March 2024	
	USD	INR	USD	INR
Derivative Assets				
Forward Contract against Trade Receivable	-	-	-	-
Derivative Liabilities				
Forward & Option Contract Against Trade Payable	-	-	-	-
	-	**-**	**-**	**-**

Sensitivity Analysis

The Analysis is based on assumption that the increase/decrease in foreign currency by 5% with all other variables held constant, on the unhedged foreign currency exposure.

(₹ in Lacs)

Particulars	31st March 2025			31st March 2024		
	Sensitivity Analysis	Impact on		Sensitivity Analysis	Impact on	
		Profit before Tax	Other Equity		Profit before Tax	Other Equity
USD Sensitivity (Increase)	5%	(37.58)	(24.45)	5%	(26.22)	(18.59)
USD Sensitivity (Decrease)	5%	37.58	24.45	5%	26.22	18.59

54.5. Interest Rate Risk

The Company is exposed to risk due to interest rate fluctuation on long term borrowings. Such borrowings are based on fixed as well as floating interest rate. Interest rate risk is determined by current market interest rates, projected debt servicing capability and view on future interest rate. Such interest rate risk is actively evaluated and is managed through portfolio diversification and exercise of prepayment/refinancing options where considered necessary.

a Exposure to interest rate risk

(₹ in Lacs)

Particulars	As on 31st March 2025	As on 31st March 2024
Fixed Rate Instruments		
Financial Liabilities	3,331.39	5,087.86
Variable Rate Instruments		
Financial Liabilities	8,826.32	8,610.11
Total	**12,157.71**	**13,697.97**

b Sensitivity Analysis

A change in 1% in interest rate in reference to loans and borrowings taken with all other variables held constant would have following impact on PBT and Other Equity :

(₹ in Lacs)

Particulars	31st March 2025			31st March 2024		
	Sensitivity Analysis	Impact on		Sensitivity Analysis	Impact on	
		Profit before tax	Other Equity		Profit before tax	Other Equity
Interest Rate Increase by	1%	(121.58)	(79.10)	1%	(136.98)	(97.09)
Interest Rate Decrease by	1%	121.58	79.10	1%	136.98	97.09

54.6. Other Price Risk

The Company's exposure to equity securities price risk arises from investments held by the Company and classified in the balance Sheet either at fair value through OCI. Having regard to the nature of securities, intrinsic worth, intent and long term nature of securities held by the company, fluctuation in their prices are considered acceptable and do not warrant any management.

a Exposure to other market price risk

(₹ in Lacs)

Particulars	As on 31st March 2025	As on 31st March 2024
Investment in Quoted Equity Shares	0.02	0.02
Investment in Equity Oriented Mutual Funds	60.72	56.30
	60.74	**56.32**

b Sensitivity Analysis

The Analysis is based on assumption that the increase/decrease by 5% with all other variables held constant.

(₹ in Lacs)

Particulars	31st March 2025			31st March 2024		
	Sensitivity Analysis	Impact on		Sensitivity Analysis	Impact on	
		Profit before tax	Other Equity		Profit before tax	Other Equity
Market rate Increase	5%	3.04	1.98	5%	2.82	2.00
Market rate Decrease	5%	(3.04)	(1.98)	5%	(2.82)	(2.00)

55. Capital Management

The Company objective to manage its capital is to ensure continuity of business while at the same time provide reasonable returns to its various stakeholders but keep associated costs under control. In order to achieve this, requirement of capital is reviewed periodically with reference to operating and business plans that take into account capital expenditure and strategic investments. Sourcing of capital is done through judicious combination of equity/internal accruals and borrowings, both short term and long term. Net debt to equity ratio is used to monitor capital.

(₹ in Lacs)

Particulars	As on 31st March 2025	As on 31st March 2024
Net Debt	12,157.71	13,697.97
Total Equity	32,522.84	26,994.84
Net Debt to Equity Ratio	0.37	0.51

56. The Company has filed quarterly returns or statements with the bank for sanctioned working facilities, which are in agreement with the books of accounts except the followings

57. CSR Activities

(₹ in Lacs)

Particulars	For the year ended 31st March, 2025	For the Year ended 31st March 2024
Gross amount required to be spent by the Company during the year	60.56	32.48
Total amount of previous year shortfall	-	-
Amount of expenditure incurred on :		
(i) Construction/acquistion of any assets	-	-
(ii) Purposes other than (i) above	60.65	33.01
Shortfall at the end of the year	-	-
Reason of shortfall	-	-
Nature of CSR activities	Promotion of education, sports, arts culture and Animal welfare etc	Promotion of education
Details of related party transaction	Nil	Nil

58. The Company is regularly following up with Customers (Particularly Public Sector Undertaking & Government Undertaking) for balance confirmation as on 31st March 2025. However, such confirmation are not available for most of the parties. The management is confident of recovering the full amount from parties.

59. Financial Ratios

The ratios for the years ended March 31, 2025 and March 31, 2024 as follows:

S No.	Particulars	Numerator	Denominator	For the year ended 31st March 2025	For the year ended 31st March 2024	Variance (in %)
1	Current Ratio	Current Assets	Current Liabilities	1.16	1.24	(6.45%)
2	Debt-Equity Ratio *	Total Debt	Shareholder's Equity	0.37	0.51	(27.45%)
3	Debt Service Coverage Ratio	Earning available for debt services	Debt Services	2.13	1.90	12.11%
4	Return on Equity (%)	Net profit after taxes	Average Shareholder's equity	17.77%	14.97%	18.70%
5	Inventory Turnover Ratio	Cost of good sold	Average Inventory	8.26	6.71	23.10%
6	Trade Receivable Turnover ratio	Revenue from operations	Average trade receivable	2.80	2.63	6.46%
7	Trade Payable Turnover ratio	Purchases of goods or services	Average Trade Payable	2.47	2.36	4.66%
8	Net Capital Turnover Ratio **	Revenue from operations	Working Capital	10.26	6.01	70.72%
9	Net Profit Ratio (%)	Net profit	Revenue from operations	6.76%	5.86%	15.36%
10	Return on Capital Employed (%)	Earning before interest and taxes (EBIT)	Capital Employed	23.11%	20.42%	13.17%
11	Return on Investment (%)	Income from Investment	Timely weighted average investments	8.84%	7.66%	15.40%

** The Debt-Equity Ratio improved from 0.51 to 0.37, primarily due to net profit earned during the period and an increase in capital reserves arising from the merger of M/s MBE Coal & Minerals Technology India Private Limited.*

*** Net Capital Turnover Ratio increased due to increase in Revenue from operations and decrease of Working Capital*

60. Acquisition of McNally Bharat Engineering Company Limited through CIRP Process: - The Corporate Insolvency Resolution Process (CIRP) of McNally Bharat Engineering Company Limited [CIN: L45202WB1961PLC025181] commenced on April 29, 2022, pursuant to the admission of an application filed by Bank of India under Section 7 of the Insolvency and Bankruptcy Code, 2016 (IBC) by the Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench.

BTL EPC Limited submitted a Resolution Plan for McNally Bharat Engineering Company Limited (MBECL), which was approved by the Hon'ble NCLT, Kolkata Bench, on December 19, 2023, thereby declaring BTL EPC Limited as the Successful Resolution Applicant.

The gist of commercial proposal of the resolution plan is as under:-

Particulars	Amount (₹ In Lacs)
Cash payout by way of this Resolution Plan	15,500.00
Maximum liabilities towards active bank guarantees	25,100.00
Towards Capex and working capital requirements	511.00
	41,111.00

In addition to above, 4% equity shares in M/s MBECL to ascending financial creditors and 1% equity shares in M/s MBECL to specified financial creditors who have no Bank Guarantee Exposure in M/s MBECL also being offered. These equity shares have been offered with an option to buy back within 3 years with a total consideration of ₹2400 Lacs and ₹600 Lacs respectively.

Subsequent Developments:

Post-approval of the resolution plan, an amendment was sought and approved by the Hon'ble NCLT, allowing for an extension of the due date for the payment of ₹ 15500 Lacs till March 31, 2025.

For implementation of the resolution plan, a Special Purpose Vehicle (SPV) named M/s Mandal Vyapaar Pvt. Ltd. (MVPL) has been constituted. The paid-up share capital of the SPV as on March 31, 2025, stood at ₹ 10,32,500, comprising 1,03,250 equity shares of ₹ 10 each. Shareholding Pattern of MVPL (as on 31.03.2025): -M/s BTL EPC Ltd – 19%, Mr Ravi Todi- 32%, Mr. Narayan Dhelia – 48.99%, M/s Mahabaleshwar Merchants Pvt Ltd – 0.01%. As a result of such an arrangement, a Fixed deposit with Bank of India amounting to ₹ 1881 Lacs in the form of margin money against Performance Bank Guarantee made by the company during the previous financial year, has been transferred to COC of MBECL and the same has been disclosed as an other receivables (including interest accrued ₹ 47.35 Lacs on such Fixed deposit) to SPV M/s Mandal Vyapaar Private Limited.

As on the reporting date, the total amount paid towards the resolution plan aggregated to ₹ 8881 lacs (including the aforementioned FD of ₹1881 Lacs and ₹ 7000 Lacs paid by SPV). The balance amount of ₹ 6619 Lacs, along with applicable interest on delayed payment, is currently outstanding.

A further request has been made to the Hon'ble NCLT for extension of the payment due date to September 30, 2025, and the matter is presently under adjudication.

61. Business Combination during the year

Acquisition and Merger of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) through CIRP process - During the year under review, a significant milestone was achieved by the Company through the successful acquisition & merger of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) under the Corporate Insolvency Resolution Process (CIRP). The Resolution Plan submitted by the Company was duly approved by the Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT) on 6th November 2024.

In accordance with the approved Resolution Plan, the Company made a payment of ₹ **1201 Lacs** to the **Committee of Creditors (CoC) on 23rd December 2024**. Control over the acquiree was obtained on **7th January 2025**, upon legal and operational handover of management and assets. Accordingly, the acquisition has been accounted for as a business combination using the **acquisition method** in accordance with Ind AS 103 – Business Combinations, effective from **7th January 2025**.

The primary reason for the acquisition of M/s MBE Coal and Minerals Technology India Private Limited was to achieve strategic growth by integrating complementary business capabilities, strengthening the Company's presence in the coal and minerals processing industry, and leveraging operational and technical synergies. The acquisition through CIRP provided an opportunity to acquire a viable business at a value significantly lower than the fair value of its net assets, thereby enhancing long-term shareholder value.

(A) Details of Business Combination

Particulars	Amount (₹ In Lacs)
Fair Value of Net Assets Acquired	1,455.62
Consideration Paid	1,201.00
Capital Reserve recognized	**254.62**

(B) Details of Net Assets acquired

Fair Value of net identifiable assets acquired as at the date of acquisition were:

Particulars	Amount (₹ In Lacs)
Property, Plant and Equipment	335.45
Inventories	58.15
Trade Receivable	2,689.21
Allowances for Expected credit loss	(2,689.21)
Balance with Bank with Current Account	34.83
Cash in hand	0.05
Security Deposits	6.60
Gratuity Receivable	22.28
Balances with Statutory Authorities	9.50
Deferred Tax Assets	1,033.29
Advances taken from BTL EPC Limited	(8.54)
Lease Liability	(0.23)
Employee benefit payable	(1.61)
Liability for Expenses	(21.69)
EMD from Resolution Applicant	(2.00)
Statutory dues	(10.46)
Total	**1,455.62**

(C) Acquisition related costs:

Acquisition related costs of ₹ 56.00 lacs paid for implementation of Resolution plan and acquisition of Company.

The excess of the fair value of net assets acquired over the purchase consideration amounting to ₹ 254.62 Lacs has been recognized as Capital Reserve in accordance with para 34 of Ind AS 103

62. The Company uses an accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective software except for recording of audit trail (edit log) facility at the database level. Further, in respect of Payroll Application, the audit trail was not enabled during the period at both application level and database level. Also, there is no instance of audit trail feature being tampered and the audit trail has been preserved by the company as per the statutory requirements for record retention except at the database level.

63. The Company does not have any transaction with Struck off Companies during the year ended March 31, 2025 and March 31, 2024.

64. No proceedings have been initiated or pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and the rules made there under.

65. The company has complied with the number of layers prescribed under clause (87) of section 2 of the Companies Act read with Companies (Restriction on number of Layers) Rules, 2017.

66. The Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding (whether recorded in writing or otherwise) that the Intermediary shall (i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or (ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

67. The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the company shall (i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or (ii) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

68. The Company does not have any transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year ended 31st March, 2025 and 31st March, 2024 in the tax assessments under the Income Tax Act, 1961.

69. The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year.

70. The company has not been declared wilful defaulter by any bank or financial Institution or other lender.

71. In case of Construction Contract, revenue is recognized considering the retention money which the company is entitled to receive only after successful completion of work of various milestone as per contract. Based on legal opinion and similar favourable judgements for other companies, the management is confident that current tax is not payable on such retention money of ₹ 1700.32 Lacs being booked during the year ended 31st March 2025, however required deferred tax has been provided in the books.

INDEPENDENT AUDITOR'S REPORT

To the Members of BTL EPC LIMITED

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the accompanying consolidated financial statements of M/S. BTL EPC LIMITED (hereinafter referred to as "the Holding Company") and its subsidiary (collectively referred to as 'the Group') comprising of the Consolidated Balance Sheet as at March 31, 2025, the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate audited financial statements and financial information of the subsidiary and branch of the Holding Company, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, of consolidated profit (including other comprehensive income), consolidated statement of changes in equity and its consolidated cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in "Other Matters" paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

EMPHASIS OF MATTER

We draw attention to the following notes:

1. Note 70 of the consolidated financial statements, which states that no current tax is payable on the retention money for which milestone has not been achieved during the year for reasons stated therein. No provision for current tax for ₹ 594.16 lacs (at prevailing tax rate) is made on such retention money though deferred tax liability has been provided for the same.

2. Note 58 of the consolidated financial statements, which states that balance confirmations are not available from parties under Trade receivables and Retention Money receivables as at March 31, 2025. The management has confirmed that the balances outstanding from the parties are fully recoverable and hence no provision would be required in the books of account.

3. Note 59 of the consolidated financial statements, which describes the submission of resolution plan for acquisition of McNally Bharat Engineering Company limited and status of the same as on March 31, 2025.

4. Note 60 of the consolidated financial statements, which describes the acquisition of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) pursuant to the approval of a Resolution Plan under the Corporate Insolvency Resolution Process (CIRP) by the Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench, vide its order dated 6th November 2024, under the provisions of the Insolvency and Bankruptcy Code, 2016.

Our opinion is not modified on account of the above stated matters.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITORS' REPORT THEREON

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Annual Report, but does not include consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for preparation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with the relevant rules issued there under. The respective Board of Directors / Management of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

a. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

e. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

f. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

OTHER MATTERS

1. The consolidated annual financial statements include the financial statements/ financial information of a wholly owned subsidiary company whose financial statements / financial information reflect total assets of ₹ 304.25 lacs as at 31st March, 2025, total revenue of ₹ 0.00 lac and net cash outflows of ₹ 83.30 lacs for the year ended 31st March, 2025 which have not been audited by us.

   The independent auditors report on the financial statements/ financial information of the subsidiary has been furnished to us by the management and our opinion on the statement in so far as it relates to the amounts and disclosures included in the respect of the subsidiary is based solely on the reports of such other auditor.

2. We did not audit the financial statements and other financial information of the Holding Company's Bangladesh Branch whose financial statements reflect total assets of ₹ 381.09 lacs as at 31st March 2025, total revenue of ₹ 277.18 lacs and net cash outflows of ₹ 0.66 lac for the year ended on that date which have not been audited by us. This financial statements/ financial information has been audited by Branch auditor and whose reports have been furnished to us by the management. Our opinion on the Statement, in so far as it relates to the affairs of such branch is based solely on the reports of the Branch auditor.

   The Branch is located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their country and which have been audited by other auditors under generally accepted auditing standards applicable in their country. The Holding Company's management has converted the financial statements of such branch located outside India from accounting principles generally accepted in their country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company's management. Our opinion in so far as it relates to the balances and affairs of such branch located outside India is based on the report of other auditor and the conversion adjustments prepared by the management of the Holding Company and audited by us.

   Our opinion on the consolidated financial statements, and our report on "Other Legal and Regulatory Requirements" below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements and the other financial information of the branch and subsidiary, as noted in the 'other matter' paragraph, we report, to the extent applicable, that:

   a. We/ the other auditors have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b. In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except for the matters stated in the paragraph 1B(vi) below on reporting under

Rule 11(g) of the Companies (Audit and Auditors) Rule, 2014.

c. The report on the accounts of the branch office of the Company audited under Section 143(8) of the Act by branch auditor has been sent to us and have been properly dealt with by us in preparing this report.

d. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated cash flow statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

e. In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with Companies (Indian accounting standards) Rules, 2015, as amended from time to time.

f. On the basis of the written representations received from the directors of the Holding Company as on March 31, 2025 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditor of its subsidiary company, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.

g. With respect to the adequacy of the internal financial controls with reference to the consolidated financial statement of the Group and the operating effectiveness of such controls, refer to our separate Report in Annexure 'A'.

h. According to the information and explanations given to us and based on our examination of the records of the Holding Company, the Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and also the other financial information of the subsidiary and branch, as noted in the 'Other matter' paragraph:

i. The consolidated financial statements has disclosed the impact of pending litigation on the consolidated financial position of the Group – Refer Note 44 to the consolidated financial statements.

ii. The Group has made provision, as required under the applicable law or accounting standards for material foreseeable losses on long term contracts including derivative contracts - Refer Note 31 to the consolidated financial statements.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary.

iv. (a) The respective managements of the Holding Company and its subsidiary which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and to the other auditors of such subsidiary that, to the best of its knowledge and belief, as disclosed in the notes to accounts, during the year no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the holding company or its subsidiary to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding whether recorded in writing or otherwise , that the intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or behalf of the Holding company or its subsidiary (Ultimate beneficiaries) or provide any guarantee, security or the like on behalf of the ultimate beneficiaries (Refer Note 65 to the consolidated financial statements).

(b) The respective managements of the Holding Company and its subsidiary which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and to the other auditors of such subsidiary that, to the best of its knowledge and belief, as disclosed in the notes to the accounts, during the year no funds have been received by the Holding company or its subsidiary from any persons or entities, including foreign entities

("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding company or its subsidiary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer Note 66 to the consolidated financial statements).

(c) Based on such audit procedures that the we have considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiary company incorporated in India whose financial statements have been audited under the Act, nothing has come to our attention that cause us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as provided under paragraph 1B(iv) (a) & (b) above, contain any material mis-statement.

v. The Holding company and its subsidiary company incorporated in India has not declared or paid any dividend during the current and previous financial year. Hence the clause is not applicable.

vi. (a) Based on our examination which included test checks, the Company has used Accounting softwares for maintaining its books of accounts which has a feature of recording audit trail (edit log) facility except that audit trail was not enabled during the period at database level. Further, in respect of Payroll Application, the audit trail was not enabled during the period at both application level and database level. For the accounting softwares with enabled audit trail at application level, the audit trail facility has been operating throughout the year for all relevant transactions recorded in the software and we did not come across any instances of audit trail feature being tampered with during the course of our audit and the audit trail has been preserved by the company as per the statutory requirements for record retention except at the database level as the audit trail feature is not enabled.

(b) In case of subsidiary company, the accounting software used for maintaining its books of account does not have feature of recording audit trail (edit log) facility.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order"/ "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's report, according to the information and explanations given to us, and based on the CARO report of subsidiary company which is included in the consolidated financial statements, we report that there is no qualification or adverse remarks in the said CARO report.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls with reference to the consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of M/S. BTL EPC LIMITED as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to the consolidated financial statements of BTL EPC LIMITED (hereinafter referred to as the "Holding Company") and its subsidiary company, which are companies incorporated within India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company and its subsidiary are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to consolidated financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to covered entities' policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to the consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the consolidated financial statements included obtaining an understanding of internal financial controls with reference to the consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the holding company's internal financial controls with reference to the consolidated financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial control with reference to the consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to the consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to the consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to the consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the holding company has in all material respects, an adequate internal financial controls with reference to the consolidated financial statements and such internal financial controls with reference to the consolidated financial statements were operating effectively as at March 31, 2025, based on the internal control with reference to the consolidated financial statements criteria established by the Holding company considering the essential components of internal control stated in the Guidance Note.

OTHER MATTERS

Our report under Section 143(3) (i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements, in so far as it relates to the subsidiary and branch not audited by us, is based on the corresponding reports of the said subsidiary and branch auditor. Our opinion is not modified in respect of this matter.

1. Corporate and General Information

BTL EPC Limited (the Company or Parent Company) is a Public Limited Group domiciled in India and incorporated under the provision of Companies Act 1956 having registered office aat 2, Jessore Road, Kolkata – 700028 and five manufacturing facilities across West Bengal. The Consolidated Financial Statements comprise financial statements of BTL EPC Limited ('the Parent' or 'the Parent Company') and its Subsidiary (collectively, 'the Group') for the year ended 31st March, 2025.

2. Basis of Accounting

2.1 Statement of Compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India. These consolidated financial statements have been approved for issue by the Board of Directors at their meeting held on 29th day of July, 2025.

2.2 Basis of Measurement

The consolidated financial statements have been prepared following accrual basis of accounting on a historical cost basis, except for the following which are measured at fair value:

a) Certain Financial Assets and Liabilities is measured at Fair value/ Amortized cost

b) Defined Benefit Plans – Plan assets measured at Actuarial Valuation

c) Derivative Financial Instruments measured at fair value

2.3 Basis of Consolidation

Subsidiary

The consolidated financial statements have been prepared on the following basis:

a) The financial statements of the Parent Company and its subsidiary are combined on a line by line basis by adding together like items of assets, liabilities, equity, income, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions.

b) Profit or losses resulting from intra-group transactions that are recognised in assets are fully eliminated.

c) Offset (eliminate) the carrying amount of the parent's investment in subsidiary.

d) Following subsidiary company have been considered in preparation of the consolidated financial statement.

Name of the Subsidiary	% of Ownership	Country of Incorporation
Shrachi Agrimech Limited	100%	India

2.4 Functional and Presentation Currency

The Consolidated Financial Statements are presented in Indian Rupees (INR), which is the functional currency of the Group. All financial information presented in INR has been rounded off to the nearest Lacs as per the requirements of Schedule III, unless otherwise stated.

2.5 Use of Estimates and Judgements

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosures including contingent liabilities. Actual results may differ from these estimates. Difference between actual results and estimates are recognised in the period prospectively in which the results are known/materialised.

Estimates and underlying assumptions are reviewed on an on-going basis and are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

Detailed information about estimates and judgements is included in Note 3.17.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

2.6 Current Vs non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 "Presentation of Financial Statements". The Group has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

An asset is classified as current when it is:

- Expected to be realized or is intended to be sold or consumed in the normal operating cycle; or
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Similarly, a liability is current if:

- It is expected to be settled in normal operating cycle; or
- It is held primarily for the purpose of trading; or
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current. Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

2.7 Presentation of Consolidated Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Division II of Schedule III to the Act, are presented by way of notes forming part of the consolidated financial statements along with the other notes required to be disclosed under the notified Accounting Standards.

2.8 Measurement of Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

- Level 2 — Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 — Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided by the management of the Group considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

3. Material Accounting Policies

A summary of the Material Accounting Policies applied in the preparation of the consolidated financial statements are as given below.

3.1 Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is measured by including, unless specifically mentioned below, cost of purchase and other costs incurred in bringing the inventories to their present location and condition. NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

- **Raw Materials, Stores and Spare Parts:** At Cost (on weighted average basis for Agro Machinery division and FIFO for Engineering Division) or Net Realizable Value whichever is lower. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
- **Finished Goods:** Finished goods are measured at cost or NRV whichever is lower.
- **Contract in Progress:** For long term contracts, contract in progress is valued at realizable value/ contractual rate and provision for losses, as may be estimated for completion thereof.
- **Stock in Trade:** Measured at cost (i.e., purchase cost) or net realizable value whichever is lower.

3.2 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

3.3 Income Tax

Income Tax comprises current and deferred tax. It is recognized in the statement of profit & loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

3.3.1 Current Tax

Current tax comprises the expected tax payable on the taxable income for the year and any adjustments to the tax payable in respect of previous years. It is measured using tax rates and tax laws enacted by the reporting date.

3.3.2 Deferred Tax

- Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes i.e tax base.
- Deferred Tax assets are recognised to the extent that it is probable that future taxable amounts will be available to utilise those temporary differences, carried forward tax losses and unused tax credits.
- Deferred Tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax laws that have been enacted or substantively enacted by the reporting date.
- Minimum Alternate Tax credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the Group will pay normal income tax during the specified period.
- Tax relating to items recognized directly in equity or Other Comprehensive Income (OCI) is recognized in equity or OCI and not in the Statement of Profit and Loss.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

- The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Group has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Group.

3.4 Property, Plant and Equipment

3.4.1 Recognition and Measurement:

- Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).
- Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.
- In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.
- If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.
- Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.
- Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

3.4.2 Subsequent Expenditure

- Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.
- Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any unamortized part of the previously recognized expenses of similar nature is derecognized.

3.4.3 Depreciation and Amortization

- Depreciation on all items of PPE is calculated using the straight-line method to allocate their cost, net of their residual value, over their estimated useful lives as prescribed in Schedule II to the Act.
- Depreciation methods, useful lives and residual values are reviewed at the end of each financial year and adjusted prospectively, if appropriate.
- Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

3.4.4 Reclassification to Investment Property

- When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at it's carrying amount on the date of reclassification.

3.5 Intangible Assets

- Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

- The Group amortises intangible assets with a finite useful life using the straight-line method over five years. Amortisation methods and useful lives are reviewed at the end of each financial year and adjusted prospectively, if appropriate.

3.6 LEASES

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

3.6.1. As a lessee:

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use Assets (ROU Assets)

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date at which the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in Note 3.12 Impairment of non-financial assets.

ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of properties, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

3.7 Revenue Recognition

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Group is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Group as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

3.7.1. Sale of Products:

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

3.7.2. Revenue from construction contracts:

Revenue from fixed-price construction contract, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is assessed by the Management. Efforts or costs expended have been used to measure progress towards completion. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date. The significant terms of payment of the contract are the Job advances, progressive payments and mile stone payments as mutually agreed upon.

3.7.3. Other income

a. Interest income on investments and loans is recognised using the time proportion method, based on underlying interest rates.

b. Dividend income is recognised when the Group's right to receive the payment is established.

c. Other items of income are accounted for as and when the right to receive such income arises, it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

3.8 Employee Benefits

3.8.1 Short Term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and expensed as the relative service is provided. A liability is recognised for the amount expected to be paid e.g. towards bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

3.8.2 Other Long Term Employee Benefits

The liabilities for earned leave are measured and provided on the basis of actuarial valuation made by an external valuer at the end of each financial year using the projected unit credit method. Re-measurement gains or losses are recognised in Statement of Profit and Loss in the period in which they arise.

3.8.3. Post-Employment Benefits

The Group operates the following post-employment schemes:

Defined Contribution Plan

Provident Fund, a defined contribution plan, is a post-employment benefit plan under which the Group pays contributions into a separate entity and has no legal or constructive obligation to pay further amounts. The Group recognises the contributions payable towards the provident fund as an expense in the Statement of Profit and Loss in the periods during which the related services are rendered by employees.

Defined Benefit Plan

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

Re-measurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Re-measurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss.

3.9 Foreign Currency Transactions

Foreign currency transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

Non-monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

3.10 Borrowing Cost

- Borrowing costs consists of interest and other costs incurred in connection with the borrowing of funds.
- Borrowing costs attributable to the acquisition or construction of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset. Income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowings costs eligible for capitalisation. All other borrowing costs are expensed in the period in which they are incurred.
- Transaction costs in respect of long-term borrowings are amortised over the tenor of respective loans using effective interest method.

3.11 Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.11.1 Financial Assets

a) **Recognition and Initial Measurement:**
All financial assets are initially recognized when the Group becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

b) **Classification and Subsequent Measurement:**
For the purposes of subsequent measurement, financial assets are classified in four categories:

- Measured at Amortized Cost;
- Measured at Fair Value Through Other Comprehensive Income (FVTOCI);
- Measured at Fair Value Through Profit or Loss (FVTPL); and
- Equity Instruments measured at Fair Value through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

- **Measured at Amortized Cost:**
  A debt instrument is measured at the amortized cost if both the following conditions are met:

  a) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and

  b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

  After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR)method.

- **Measured at FVTOCI:**
  A debt instrument is measured at the FVTOCI if both the following conditions are met:

  a) The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and

  b) The asset's contractual cash flows represent SPPI.

  Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on re-measurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the statement of profit and loss in investment income.

- **Measured at FVTPL:**
  FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

- **Equity Instruments measured at FVTOCI:**
  All equity investments in scope of Ind AS – 109 are measured at fair value. Equity instruments which are, held for trading are classified as at FVTPL. For all other equity instruments, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by instrument basis. The classification is made on initial recognition and is irrevocable. In case the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

c) **De-recognition:**

The Group derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

d) **Impairment of Financial Assets**

The Group assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS – 109 requires expected credit losses to be measured through a loss allowance. The Group recognizes lifetime expected losses for all contract assets and or all trade receivables that do not constitute a financing transaction.

For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

3.11.2. Financial Liabilities

a) Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

b) Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

c) De-recognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

d) Offsetting financial instruments:

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

3.11.3 Derivative financial instruments:

The Group enters into derivative financial instruments viz. foreign exchange forward contracts, interest rate swaps and cross currency swaps tomanage its exposure to interest rate and foreign exchange rate risks. The Group does not hold derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately.

3.12 Impairment of Non-Financial Assets:

The Group assess, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

3.13 Provisions, Contingent Liabilities and Contingent Assets:

3.13.1 Provisions:

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an out flow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

3.13.2 Contingent Liabilities and Assets:

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Group discloses the existence of contingent liabilities in Other Notes to the Consolidated Financial Statements. Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

3.14 Investment properties:

Investment Property is property (comprising land or building or both) held to earn rental income or for capital appreciation or both, but not for sale in ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Upon initial recognition, an investment property is measured at cost. Subsequently they are stated in the balance sheet at cost, less accumulated depreciation and accumulated impairment losses, if any.

Any gain or loss on disposal of investment property is determined as the difference between net disposal proceeds and the carrying amount of the property and is recognized in the statement of profit and loss.

The depreciable investment property i.e., buildings, are depreciated on a straight-line method at a rate determined based on the useful life as provided under Schedule II of the Act.

Investment properties are derecognized either when they have been disposed of or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The net difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

3.15 Segment Reporting:

The identification of operating segment is consistent with performance assessment and resource allocation by the chief operating decision maker. An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the other components of the Group and for which discrete financial information is available.

Operating segments of the Group comprises two segments Engineering and Agro Machinery. All operating segments, operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segments and assess their performance.

3.16 Earnings Per Share:

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity shareholders by the weighted average number of ordinary shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity shareholders adjusted for the effects of potential ordinary shares by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

3.17 Compulsory Convertible Preference Shares (CCPS)

The Company has issued Compulsory Convertible Preference Shares (CCPS). CCPS are classified and accounted for in accordance with the requirements of Ind AS 32 – Financial Instruments: Presentation.

Classification:

CCPS are compulsorily convertible into a variable number of equity shares based on the terms of issue and valuation at the time of conversion. Accordingly, the instrument is evaluated to determine whether it contains a liability component and an equity component.

Where the number of shares to be issued on conversion is fixed, the CCPS are classified as equity.

Where the number of shares is variable or linked to fair value/valuation formula, CCPS are classified as a financial liability (in full or in part).

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

Initial Recognition and Measurement:

On initial recognition, the CCPS is split into equity component (residual interest) and liability component (present value of contractual cash flows, if any, such as dividend obligations not discretionary). The liability component is recognised at fair value, determined by discounting expected future cash flows at the market rate of interest for a similar instrument without conversion feature. The equity component represents the residual amount after deducting the liability component from the fair value of the instrument as a whole.

Subsequent Measurement:

The liability component, if any, is subsequently measured at amortised cost using the effective interest rate method.

The equity component is not remeasured subsequently.

Dividends on CCPS that are discretionary and non-cumulative are recorded directly in equity, while those that are contractual obligations are recognised as finance cost in the Statement of Profit and Loss.

Conversion:

Upon conversion of CCPS into equity shares, the carrying amount of the instrument (including both liability and equity components, if any) is transferred to equity share capital and securities premium, as applicable. No gain or loss is recognised on conversion.

3.18 Business Combination

Business combinations are accounted for using the acquisition method of accounting. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities assumed at their acquisition date i.e. the date on which control is acquired. Contingent consideration to be transferred is recognised at fair value and included as part of cost of acquisition. Transaction related costs are expensed in the period in which the costs are incurred.

Where the aggregate of consideration transferred and amount recognised for non-controlling interests exceeds the fair value of net identifiable assets acquired and liabilities assumed, the excess is recorded as goodwill. After initial recognition, goodwill is tested for impairment annually and measured at cost less any accumulated impairment losses if any. Alternatively, in case of a bargain purchase wherein the aggregate of consideration transferred and amount recognised for non-controlling interests is lower than the fair value of net identifiable assets acquired and liabilities assumed, the difference is recognised as capital reserve within equity.

Any contingent consideration to be transferred by the Company is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in the statement of profit and loss. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

3.19 Significant Judgements and Key Sources of Estimation in applying accounting policies

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. Information about significant judgements and key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is included in the following notes:

i) **Revenue Recognition:** The Group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage of completion method requires the Group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion.

ii) **Recognition of Deferred Tax Assets:** The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgement is required in assessing the impact of any legal or economic limits.

iii) **Useful lives of depreciable/ amortizable assets (tangible and intangible):** Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to actual normal wear and tear that may change the utility of property, plant and equipment.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

iv) **Defined Benefit Obligation (DBO):** Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Group considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.

v) **Provisions and Contingencies:** The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgement by management regarding the probability of exposure to potential loss.

vi) **Impairment of Financial Assets:** The Group reviews its carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.

vii) **Expected Credit Loss Model:** The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. As a practical expedient, the Group uses historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates to determine impairment loss allowance on portfolio of its trade receivables. In case of vendor advances under litigation loss allowance is considered based on case-to-case basis.

viii) **Fair value measurement of financial Instruments:** When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models is taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

3.20 Recent Accounting Pronouncements

During the year ended 31st March 2025, the Company considered the amendments notified by the Ministry of Corporate Affairs (MCA) through the 1st Amendment dated 12th August 2024, the 2nd Amendment dated 9th September 2024, and the 3rd Amendment dated 28th September 2024 to the Companies (Indian Accounting Standards) Rules, 2015.

These amendments primarily relate to the introduction of Ind AS 117 – Insurance Contracts, along with consequential changes to other standards including Ind AS 101, 103, 104, 105, 107, 109, and 115, which address accounting and disclosure requirements for insurance contracts and financial guarantee contracts. The amendments also include changes to Ind AS 116 – Leases, specifically addressing accounting and disclosure requirements for sale and leaseback arrangements.

The adoption of these amendments to the extent applicable to the Company did not have impact on the profit or loss and earnings per share of the Company for the year.

Standards issued but not yet effective

The Ministry of Corporate Affairs (MCA), vide notification dated 7th May 2025, has amended Indian Accounting Standard (Ind AS) 21 – The Effects of Changes in Foreign Exchange Rates and Ind AS 101 – First-time Adoption of Indian Accounting Standards. These amendments are applicable for annual reporting periods beginning on or after 1st April 2025.

The key amendment relates to providing guidance for assessing lack of exchangeability between currencies and estimating the spot exchange rate when a currency is not exchangeable. Additional disclosure requirements have also been introduced in such scenarios, including the nature and financial effect of the currency in exchangeability, the estimation methodology used, and risks arising therefrom.

The Company is currently evaluating the impact of these amendments and expects that their application will not have a material effect on the consolidated financial statements.

The lease liability is measured at the present value of remaining lease payments discounted using incremental borrowing rate at the date of initial application and right of use asset has been recognized at an amount equal to the lease liability plus prepaid rentals recognised in the Balance Sheet before the date of initial application, if any. Further, the Group has exercised the following practical expedient:

Leases for which the lease term ends within 12 months of the date of initial application have been accounted as short term leases. Further, refer Note 3.6 Material Accounting Policies for detailed measurement and recognition principles on Leases.

Machinery Hire Charges and Rental expense recorded for short-term leases or cancellable in nature was ₹ 419.57 lacs (P.Y. ₹ 205.99 lacs) and ₹ 152.45 lacs (P.Y. ₹ 128.05 lacs) for the year ended 31st March, 2025 (Refer Note - 40).

The changes in the carrying value of right of use (ROU) assets for the year ended 31st March, 2025 are disclosed in Note 6.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

As per the requirement of Ind AS -107 maturity analysis of lease liability have been shown under maturity analysis of Long term borrowing under Liquidity risk Note 54.2.1.

The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

47. Disclosure pursuant to Indian Accounting Standard - 19 'Employee Benefits'

47.1. Defined Contribution Plan:

The Group has defined benefit contribution plans in the term of Provident Fund and ESIC (Employees State Insurance Corporation) and the contribution are charged to the Statement of Profit & Loss of the year when the contributions to the respective funds are due. There is no other obligation other than contribution payable to the respective funds.

47.1.1. Provident Fund Contribution

Provident Fund as per the provisions of the Employees Provident Funds and Miscellaneous Provisions Act, 1952.

47.1.2. The amount recognized as an expense for the Defined Contribution Plans are as under:

(₹ in Lacs)

Sl. No.	Particulars	For the year ended 31st March 2025	For the year ended 31st March 2024
a	Provident Fund	211.37	173.00

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

47.1.3. ESIC (Employees State Insurance Corporation) Contribution

ESIC contribution as per the provisions of the ESI Act 1948.

47.1.4. The amount recognized as an expense for the Defined Contribution Plans are as under:

(₹ in Lacs)

Sl. No.	Particulars	For the year ended 31st March 2025	For the year ended 31st March 2024
a	ESIC Contribution	23.70	23.13

47.2. Defined Benefit Plan:

The Group has a Gratuity Fund Scheme in L.I.C. for its employees. The liability in respect of contributions of these funds is ascertained using the projected unit credit method with actuarial valuation being carried out at each Balance Sheet date. The scheme, which is partially funded, is administered by Life Insurance Corporation of India (LIC).

Actuarial gains / losses arising during Defined Benefit plans are recognised immediately in the Statement of Profit & Loss as income / expense for the year in which they occur.

47.2.1. Gratuity Plan

Every employee who has completed five years or more of service is entitled to Gratuity as per the provisions of the Payment of Gratuity Act, 1972. The present value of defined obligation and related current cost are measured using the Projected Unit Credit Method with actuarial valuation being carried out at Balance Sheet date.

47.2.2. Risk Exposure

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

INTEREST RATE RISK	The Defined Benefit Obligation Calculated uses a discount rate based on Government bonds. If bonds yeild fall, the defined benefit obligation will tend to increase.
SALARY GROWTH RISK	The present value of defined benefit plan liability is calculated by reference to the future salaries of plan participants. An increase in the salary of plan participants will increase the plan liabilities.
DEMOGRAPHIC RISK	This is the risk of variability of results due to unsytematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of Salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

47.2.3. Reconciliation of the net defined benefit (asset)/ liability

The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit (asset)/ liability and its components:

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24

Interest Income on Plan Assets	(26.34)	(22.01)	-	-
Expenses recognized in statement of Profit or Loss	**61.23**	**39.54**	**4.15**	**9.38**

47.2.7. Remeasurements recognized in Other Comprehensive Income

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Actuarial (gain)/ Loss on defined benefit obligation due to -				
Change in experience variance	112.70	1.54	(34.64)	(15.39)
Change in Demographic assumption	-	-	-	-
Change in Financial Assumption	22.26	13.62	0.10	1.40
Return on plan assets greater/ (lesser) than discount rate	(0.86)	(1.21)	-	-
Actuarial (Gains)/Losses recognized in OCI	**134.10**	**13.95**	**(34.54)**	**(13.99)**

47.2.8. Funding arrangements and Funding Policy:

The Group has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Group Any deficit in the assets arising as a result of such valuation is funded by the Group.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

47.2.9. Actuarial Assumptions

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Financial Assumptions				
Discount Rate	6.75%	7.15%	6.85%	7.15%
Salary Escalation Rate	5.50%	5.50%	5.50%	5.50%
Demographic Assumptions				
Mortality Rate	100% of IALM 2012-14	100% of IALM 2012-14	100% of IALM 2012-14	100% of IALM 2012-14
Attrition rate	1.00%	1.00%	1.00%	1.00%

47.2.10. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

47.2.11. At 31st March 2025, the weighted average duration of the defined benefit obligation was 10 years (previous year 10 years). The distribution of the timing of benefits payment i.e., the maturity analysis of the benefit payments is as follows:

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
1 Year	86.43	53.32	0.01	1.32
2- 5 Years	155.45	104.09	0.07	5.77
6 to 10 Years	177.15	153.25	0.82	12.23
More than 10 years	924.17	668.29	7.18	88.90

47.2.12. Sensitivity Analysis

The sensitivity analysis below have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occuring at the end of the reporting period. Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below :

(₹ in Lacs)

Particulars	Gratuity Funded		Gratuity-unfunded	
	2024-25	2023-24	2024-25	2023-24
Effect on DBO due to 1% increase in Discount Rate	530.97	371.93	1.63	28.31
Effect on DBO due to 1% decrease in Discount Rate	646.59	452.30	2.32	37.24
Effect on DBO due to 1% increase in Salary Escalation Rate	644.66	450.67	2.32	37.27
Effect on DBO due to 1% decrease in Salary Escalation Rate	531.74	372.69	1.62	28.21

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

49.2.1. Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognised as revenue as and when the performance obligation is satisfied.

49.2.2. Refer Note 54.1 of Consolidated financial statement for movement of expected credit loss during the current and previous year.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

50. Segment Reporting

The Group has disclosed business segment as primary segment. The Group has following business segments:

i. Engineering

ii. Agro Machinery

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the Chief Operating Decision Maker, in deciding how to allocate resources and assessing performance. Operating segments are reported in a manner consistent with the internal financial reporting provided to the chief operating decision maker. Based on the management approach as defined in Ind AS 108, the Chief Operating Decision Maker evaluates the Group's performance based on segment.

Revenue from Operations includes approximately ₹ 51,905.12 lacs (PY: ₹ 51,675.07 lacs) pertaining to sales to the company's top two customers. No other single customer contributed 10% or more of the Company's revenue in year ended March 31,2025 and March 31, 2024.

Other Financial Liabilities	2,817.57	2,817.57	3,220.54	3,220.54
Total Financial Liabilities	**40,642.21**	**40,642.21**	**39,393.55**	**39,393.55**

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

52.2. The management has assessed that the fair values of cash and cash equivalents, trade receivables, trade payables, short term borrowings, current loans and other financial assets & liabilities approximates their carrying amounts.

52.3. The management considers that the carrying amounts of Financial assets and Financial liabilities recognised at nominal cost/amortised cost in the Financial statements approximate their fair values.

52.4. Non current borrowings has been contracted at floating rates of interest, which are reset at short intervals. Fair value of floating interest rate borrowings approximates their carrying value subject to adjustments made for transaction cost.

53. Fair Value Hierarchy

The following are the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognized and measured at fair value and (b) measured at amortized cost and for which fair value are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels of fair value measurement as prescribed under the Ind AS 113 "Fair Value Measurement". An explanation of each level follows underneath the tables.

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted price including within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparty. This is the case with listed instruments where market is not liquid and for unlisted instruments.

53.1. Assets and Liabilities measured at Fair Value - recurring fair value measurements

As at 31st March 2025 and 31st March 2024

(₹ in Lacs)

Particulars	As at 31st March 2025			As at 31st March 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial Assets						
Investment	60.74	-	0.19	56.32	-	0.19
Forward Contract Receivable	-	-	-	-	-	-
Total Financial Assets	**60.74**	**-**	**0.19**	**56.32**	**-**	**0.19**
Financial Liabilities						
Forward Contract Payable	-	-	-	-	-	-
Total Financial Liabilities	**-**	**-**	**-**	**-**	**-**	**-**

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

53.2 Assets and Liabilities measured at Fair Value - through Amortized Cost

As at 31st March 2025 and 31st March 2024

(₹ in Lacs)

Particulars	As at 31st March 2025			As at 31st March 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial Assets						
Investment (At cost)	-	-	21.47	-	-	56.75
Trade Receivables	-	-	29,526.62	-	-	26,341.18
Cash and Cash Equivalents	-	-	626.58	-	-	2,143.30
Bank balances other than above	-	-	2,814.33	-	-	3,329.07
Loans	-	-	60.14	-	-	76.91
Other Financial Assets	-	-	24,302.95	-	-	21,299.13
Total Financial Assets	**-**	**-**	**57,352.09**	**-**	**-**	**53,246.34**
Financial Liabilities						
Borrowings	-	-	12,534.23	-	-	14,372.97
Trade Payables	-	-	25,229.49	-	-	21,757.09
Lease Liabilities	-	-	60.92	-	-	42.95
Other Financial Liabilities	-	-	2,817.57	-	-	3,220.54
Total Financial Liabilities	**-**	**-**	**40,642.21**	**-**	**-**	**39,393.55**

53.3. The following methods and assumptions were used to estimate the fair values:

The investments being listed, the fair value has been taken at the market rates of the same on the reporting dates. They are classified as Level 1 fair values in the fair value hierarchy.

The values of non current borrowings are based on the discounted cash flows using a current borrowing rate. They are classified as Level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including own credit risks, which was assessed as on the balance sheet date to be insignificant.

53.4. During the year ended March 31, 2025 and March 31, 2024, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfer into and out of Level 3 fair value measurements.

54. Financial Risk Management

The Group's principal financial liabilities comprises borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Group's operations. The Group's financial assets include investments, trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets.

The Group is exposed to market risk, liquidity risk and credit risk. The Group has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate risk governance framework for the Group. The Risk management committee provides assurance to the Group's management that the Group's risk activities are governed by appropriate policies and procedures and that risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

54.1.Credit Risk

The Group's customer profile include public sector enterprises, state owned companies and large private corporates. Accordingly, the Group's customer credit risk is low. The Group's average project execution cycle is around 24 to 36 months. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 45 to 90 days and certain retention money to be released at the end of the project. In some cases retentions are substituted with bank/corporate guarantees. The Group has a detailed review mechanism of overdue customer at various levels within organisation to ensure proper attention and focus for realisation. The Group is making provisions on trade receivables based on Expected Credit Loss (ECL) model. The reconciliation of ECL is as follows:

Reconciliation of provision for expected credit loss

(₹ in Lacs)

Particulars	As at 31st March 2025	As at 31st March 2024
Loss allowance at the beginning of the year	1,041.51	1,326.46
Changes in loss allowance	1,777.65	(284.95)
Loss allowance at the end of the year	2,819.16	1,041.51

54.2. Liquidity Risk

The Group determines its liquidity requirement in the short, medium and long term. This is done by drawing up cash forecast for short term and long term needs.

The Group manage its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for funding from banks and inter corporate and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in certain fixed deposits which provides flexibility to liquidate.

54.2.1. Maturity Analysis for financial liabilities

a The following are the remaining contractual maturities of financial liabilities as at 31st March 2025 (₹ in Lacs)

Particulars	Not Due	On Demand	Less than 1 year	1 Year to 5 Year	More than 5 Years	Total
Long Term Borrowings	-	-	-	816.44	-	816.44
Short Term Borrowings	-	10,937.84	779.95	-	-	11,717.79
Trade payables	19,969.22	5,260.27	-	-	-	25,229.49
Lease liabilities	-	-	24.89	35.65	0.38	60.92
Other financial liabilities	-	-	1,500.03	1,034.70	282.84	2,817.57
Total	**19,969.22**	**16,198.11**	**2,304.87**	**1,886.79**	**283.22**	**40,642.21**

b The following are the remaining contractual maturities of financial liabilities as at 31st March 2024 (₹ in Lacs)

Particulars	Not Due	On Demand	Less than 1 year	1 Year to 5 Year	More than 5 Years	Total
Long Term Borrowings	-	-	-	1,485.80	-	1,485.80
Short Term Borrowings	-	11,920.11	967.06	-	-	12,887.17
Trade payables	16,925.70	4,831.39	-	-	-	21,757.09
Lease liabilities	-	-	17.41	21.27	4.27	42.95
Other financial liabilities	-	-	1,138.70	1,786.40	295.44	3,220.54
Total	**16,925.70**	**16,751.50**	**2,123.17**	**3,293.47**	**299.71**	**39,393.55**

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

c The amounts are gross and undiscounted and exclude the impact of netting agreements (if any). The interest payments on variable interest rate loans in the tables above reflect market forward interest rates at the respective reporting dates and these amounts may change as market interest rates change. Except for these financial liabilities, it is not expected that cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts. When the amount payable is not fixed, the amount disclosed has been determined with reference to conditions existing at the reporting date.

54.3. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of Foreign Exchange Risk and Interest Rate Risk.

54.4. Foreign Exchange Risk

Foreign Exchange Risk is the exposure of the Group to the potential impact of the movement in foreign exchange rate.

The Group has Foreign Currency Exchange Risk on imports of materials in foreign currency for its business. The Group evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks. The Group adopts a policy of selective hedging based on risk perception of the management using derivative, wherever required, to mitigate or eliminate the risk.

The following table demonstrates the sensitivity in the US Dollars (USD) to the Indian Rupee with all other variables held constant.

Unhedged Foreign Currency Exposure

(₹ in Lacs)

Particulars	As at 31st March 2025		As at 31st March 2024	
	USD	INR	USD	INR
Financial Assets				
Trade Receivables	-	-	-	-
Financial Liabilities				
Trade Payables & Others	8.78	751.60	6.29	524.42
(Net Exposure)/Exposure in foreign currency	**(8.78)**	**(751.60)**	**(6.29)**	**(524.42)**

Hedged Foreign Currency Exposure

(₹ in Lacs)

Particulars	As at 31st March 2025		As at 31st March 2024	
	USD	INR	USD	INR
Derivative Assets				
Forward Contract against Trade Receivable	-	-	-	-
Derivative Liabilities				
Forward & Option Contract Against Trade Payable	-	-	-	-
	-	**-**	**-**	**-**

Sensitivity Analysis

The Analysis is based on assumption that the increase/decrease in foreign currency by 5% with all other variables held constant, on the unhedged foreign currency exposure.

(₹ in Lacs)

Particulars	31st March 2025			31st March 2024		
	Sensitivity Analysis	Impact on		Sensitivity Analysis	Impact on	
		Profit before Tax	Other Equity		Profit before Tax	Other Equity
USD Sensitivity (Increase)	5%	(37.58)	(24.45)	5%	(26.22)	(18.59)
USD Sensitivity (Decrease)	5%	37.58	24.45	5%	26.22	18.59

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

54.5. Interest Rate Risk

The Group is exposed to risk due to interest rate fluctuation on long term borrowings. Such borrowings are based on fixed as well as floating interest rate. Interest rate risk is determined by current market interest rates, projected debt servicing capability and view on future interest rate. Such interest rate risk is actively evaluated and is managed through portfolio diversification and exercise of prepayment/refinancing options where considered necessary.

a Exposure to interest rate risk

(₹ in Lacs)

Particulars	As on 31st March 2025	As on 31st March 2024
Fixed Rate Instruments		
Financial Liabilities	3,707.91	5,762.86
Variable Rate Instruments		
Financial Liabilities	8,826.32	8,610.11
Total	**12,534.23**	**14,372.97**

b Sensitivity Analysis

A change in 1% in interest rate in reference to loans and borrowings taken with all other variables held constant would have following impact on PBT and Other Equity:

(₹ in Lacs)

Particulars	31st March 2025			31st March 2024		
	Sensitivity Analysis	Impact on		Sensitivity Analysis	Impact on	
		Profit before tax	Other Equity		Profit before tax	Other Equity
Interest Rate Increase by	1%	(125.34)	(81.55)	1%	(143.73)	(101.88)
Interest Rate Decrease by	1%	125.34	81.55	1%	143.73	101.88

54.6. Other Price Risk

The Group's exposure to equity securities price risk arises from investments held by the Group and classified in the balance Sheet either at fair value through OCI. Having regard to the nature of securities, intrinsic worth, intent and long term nature of securities held by the Group, fluctuation in their prices are considered acceptable and do not warrant any management.

a Exposure to other market price risk

(₹ in Lacs)

Particulars	As on 31st March 2025	As on 31st March 2024
Investment in Quoted Equity Shares	0.02	0.02
Investment in Equity Oriented Mutual Funds	60.72	56.30
Total	**60.74**	**56.32**

b Sensitivity Analysis

The Analysis is based on assumption that the increase/decrease by 5% with all other variables held constant.

(₹ in Lacs)

Particulars	31st March 2025			31st March 2024		
	Sensitivity Analysis	Impact on		Sensitivity Analysis	Impact on	
		Profit before tax	Other Equity		Profit before tax	Other Equity
Market rate Increase	5%	3.04	1.98	5%	2.82	2.00
Market rate Decrease	5%	(3.04)	(1.98)	5%	(2.82)	(2.00)

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

55. Capital Management

The Group objective to manage its capital is to ensure continuity of business while at the same time provide reasonable returns to its various stakeholders but keep associated costs under control. In order to achieve this, requirement of capital is reviewed periodically with reference to operating and business plans that take into account capital expenditure and strategic investments. Sourcing of capital is done through judicious combination of equity/internal accruals and borrowings, both short term and long term. Net debt to equity ratio is used to monitor capital.

(₹ in Lacs)

Particulars	As on 31st March 2025	As on 31st March 2024
Net Debt	12,534.23	14,372.97
Total Equity	32,393.96	26,900.38
Net Debt to Equity Ratio	0.39	0.53

56. The Holding Company has filed quarterly returns or statements with the bank for sanctioned working facilities, which are in agreement with the books of accounts except the followings.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025

59 Acquisition of McNally Bharat Engineering Company Limited through CIRP Process: - The Corporate Insolvency Resolution Process (CIRP) of McNally Bharat Engineering Company Limited [CIN: L45202WB1961PLC025181] commenced on April 29, 2022, pursuant to the admission of an application filed by Bank of India under Section 7 of the Insolvency and Bankruptcy Code, 2016 (IBC) by the Hon'ble National Company Law Tribunal (NCLT), Kolkata Bench.

BTL EPC Limited submitted a Resolution Plan for McNally Bharat Engineering Company Limited (MBECL), which was approved by the Hon'ble NCLT, Kolkata Bench, on December 19, 2023, thereby declaring BTL EPC Limited as the Successful Resolution Applicant.

The gist of commercial proposal of the resolution plan is as under:-

Particular	Amount (₹ In Lacs)
Cash payout by way of this Resolution Plan	15,500.00
Maximum liabilities towards active bank guarantees	25,100.00
Towards Capex and working capital requirements	511.00
	41,111.00

In addition to above, 4% equity shares in M/s MBECL to ascending financial creditors and 1% equity shares in M/s MBECL to specified financial creditors who have no Bank Guarantee Exposure in M/s MBECL also being offered. These equity shares have been offered with an option to buy back within 3 years with a total consideration of ₹2400 Lacs and ₹600 Lacs respectively.

Subsequent Developments:

Post-approval of the resolution plan, an amendment was sought and approved by the Hon'ble NCLT, allowing for an extension of the due date for the payment of ₹ 15500 Lacs till March 31, 2025.

For implementation of the resolution plan, a Special Purpose Vehicle (SPV) named M/s Mandal Vyapaar Pvt. Ltd. (MVPL) has been constituted. The paid-up share capital of the SPV as on March 31, 2025, stood at ₹ 10,32,500, comprising 1,03,250 equity shares of ₹ 10 each. Shareholding Pattern of MVPL (as on 31.03.2025): -M/s BTL EPC Ltd – 19%, Mr Ravi Todi- 32%, Mr. Narayan Dhelia – 48.99%, M/s Mahabaleshwar Merchants Pvt Ltd – 0.01%. As a result of such an arrangement, a Fixed deposit with Bank of India amounting to ₹ 1881 Lacs in the form of margin money against Performance Bank Guarantee made by the company during the previous financial year, has been transferred to COC of MBECL and the same has been disclosed as an other receivables (including interest accrued ₹ 47.35 Lacs on such Fixed deposit) to SPV M/s Mandal Vyapaar Private Limited.

As on the reporting date, the total amount paid towards the resolution plan aggregated to ₹ 8881 lacs (including the aforementioned FD of ₹1881 Lacs and ₹ 7000 Lacs paid by SPV). The balance amount of ₹ 6619 Lacs, along with applicable interest on delayed payment, is currently outstanding.

A further request has been made to the Hon'ble NCLT for extension of the payment due date to September 30, 2025, and the matter is presently under adjudication.

60 Acquisition and Merger of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) through CIRP process - During the year under review, a significant milestone was achieved by the Company through the successful acquisition & merger of MBE Coal & Mineral Technology India Private Limited (MBE-CMT) under the Corporate Insolvency Resolution Process (CIRP). The Resolution Plan submitted by the Company was duly approved by the Hon'ble National Company Law Tribunal, Kolkata Bench (NCLT) on 6th November 2024.

In accordance with the approved Resolution Plan, the Company made a payment of ₹ 1201 Lacs to the Committee of Creditors (CoC) on 23rd December 2024. Control over the acquiree was obtained on 7th January 2025, upon legal and operational handover of management and assets. Accordingly, the acquisition has been accounted for as a business combination using the acquisition method in accordance with Ind AS 103 – Business Combinations, effective from 7th January 2025.

The primary reason for the acquisition of M/s MBE Coal and Minerals Technology India Private Limited was to achieve strategic growth by integrating complementary business capabilities, strengthening the Company's presence in the coal and minerals processing industry, and leveraging operational and technical synergies. The acquisition through CIRP provided an opportunity to acquire a viable business at a value significantly lower than the fair value of its net assets, thereby enhancing long-term shareholder value.

Notes to Consolidated Financial Statements as at and for the year ended 31st March, 2025
