

Vertexa Solutions Pvt. Ltd.

Mini Company Handbook — Employee Reference Edition, v4.2

Internal Use Only. If in doubt, check with their reporting manager before acting on any policy below.

1 Company Overview

1.1 History | 1.2 Mission | 1.3 Vision | 1.4 Values

Vertexa Solutions Pvt. Ltd. was founded in 2011 by six engineers who set out to build tools that help enterprises make sense of unstructured documents. The company was incorporated in Bengaluru; its first office was a two-room facility above a printing shop. Vertexa now serves over 300 clients across 14 countries.

Note: Section 9 (Compliance) references a founding year of 2009 in a regulatory filing summary, though 2011 is the year on official incorporation records.

Mission: to help organizations unlock the value trapped in their documents by combining rigorous engineering with respect for the people who rely on our software everyday.

Vision: a future in which no employee ever has to manually search hundreds of pages to find a single fact.

- Customer Obsession — we start with the customer's problem.
- Ownership — every employee fixes what they see is broken.
- Integrity — we do the right thing even when it's inconvenient.
- Curiosity — we treat contradictions as learning opportunities.

These four values were ratified in 2012; a 2019 internal memo claims a fifth value, 'Simplicity', was added that year — HR maintains the values have been constant since 2012.

2 Human Resources Policies

2.1 Leave Policy | 2.2 Attendance | 2.3 Code of Conduct

Page 4 of the original policy circular: Employees receive 18 annual leaves per calendar year, credited pro-rata for employees joining mid-year, plus 10 sick and 5 casual leaves.

Page 18 of the same circular (Annexure update): Employees receive 20 annual leaves per calendar year following the FY23 revision.

Standard hours are 9:30 AM–6:30 PM. Repeated unexplained absences may affect an employee's rating. Employees whose conduct violates the Code of Conduct may face disciplinary action; there are no exceptions based on seniority.

3 Work From Home

Page 6: Employees may work remotely three days every week, subject to manager approval.

Page 25 (FY24 operating-model update): Employees are expected to work from office full time, effective the date communicated by department heads — this supersedes informal remote arrangements. It is not stated in this handbook which of the two rules governs in case of conflict.

4 Travel Policy

Travel should be approved whenever necessary — the policy does not specify who decides necessity, or according to whose judgement a trip qualifies. International travel needs ~4 weeks lead time for visa processing; travel insurance is mandatory. Employees below a certain grade may need additional sign-off, though the grade threshold is undefined here.

5 IT Security

Password Policy | MFA | VPN | Device Encryption | USB Policy

- Passwords: atleast 12 characters, mixed case + numeric + special, rotated every 90 days.
- MFA is mandatory for email, VPN, and internal apps within 48 hours of access being granted.
- VPN required for all off-network access; split tunneling disabled by default.
- Full-disk encryption mandatory on all company laptops.
- Personal USB drives are prohibited unless approved by IT Security; see Appendix B for data-handling obligations on removable media.

Fig 1 — Vertexa AI Platform architecture (referenced in Sections 7 & 11)

6 Finance

Quarterly revenue and YoY growth (FY24), as reported to the Board:

Quarter	Revenue (₹ Cr)	YoY Growth
Q1 FY24	42.6	18%
Q2 FY24	45.1	16%
Q3 FY24	48.9	17%
Q4 FY24	51.3	15%

Table 1 — Quarterly revenue, as published in the Q4 board deck.

Elsewhere in the same board deck, Q1 FY24 YoY growth is separately reported as 15% rather than the 18% shown in Table 1 above — the discrepancy has not been reconciled in this edition.

7 Product Documentation

The platform (see Fig. 1) is organized into four layers: Presentation, AI Platform/API, Processing, and Data. Core modules:

Module	Function
Docling Parser	Extracts text, tables, and images with layout metadata
Chunking Engine	Builds semantic chunks (heading+text, table+caption, image+OCR)
Embedding Service	Generates vector embeddings for retrieval
Vector Store	ChromaDB collection per document

Table 2 — Core platform modules.

8 Customer Support

Fig 2 — Support escalation workflow

Escalation note: Alex informed Jordan that he would contact the customer directly to confirm the resolution timeline before the ticket is closed.

Standard SLA is first response within 4 business hours for Tier 1 tickets.

9 Compliance

Vertexa's data protection obligations are summarized here; for the full clause list and retention schedule, see Appendix B. Audit findings are reviewed quarterly by the Compliance Committee.

10 Disaster Recovery

Recovery Time Objective (RTO), per the DR runbook summary: critical systems must be restored within 4 hours of a declared incident.

Later in the same runbook (Section 10.3, Extended Scenarios): recovery of the same critical systems is instead targeted within 12 hours for a 'major' incident — the threshold distinguishing a standard incident from a 'major' one is not defined.

11 Technical Architecture

Vertexa's AI Platform (also referred to elsewhere in this handbook as the AI Engine, the Artificial Intelligence Platform, and the AI Solution) underpins Document AI, RAG retrieval, and the Auth Gateway shown in Fig. 1.

Vertexa Solutions — Organization Chart

Fig 3 — Organization chart (Appendix A)

12 Procurement

Purchase approval steps:

- 1. Raise a purchase requisition in the procurement portal.
- 2. Obtain budget sign-off from the department head.
- 3. Finance issues a purchase order to the approved vendor.
- 4. Goods/services are received and matched against the PO before payment.

Category	Preferred Vendor	Approval Limit (₹)
Laptops & IT Hardware	See Appendix C	5,00,000
Office Supplies	Local vendor panel	50,000
Software Licenses	See Appendix C	10,00,000

Table 3 — Procurement categories and limits.

13 Employee Benefits

Per the Benefits Guide: Health insurance coverage begins after 30 days of continuous employment.

Per the updated Total Rewards page circulated separately: health insurance coverage begins after 90 days of continuous employment — the two documents have not been reconciled.

14 Legal

Definitions used across this handbook include 'Confidential Information', 'Business Day', and 'Force Majeure Event'; a formal definition of 'Business Day' is not provided in this edition and should be read as per the employment contract.

15 Frequently Asked Questions

Department	Employees	Budget (₹)
HR	32	8,00,000
IT	94	3,50,00,000
Finance	28	1,20,00,000
Support	61	95,00,000

Table 4 — Department headcount and budget (from the FAQ appendix).

- How many annual leaves do employees receive? — See Section 2.1 (18 vs. 20 — unresolved).
- Is MFA mandatory? — Yes, for all employees (Section 5.2).
- What was Q1 revenue growth? — Reported as both 18% and 15% (Section 6).
- Which appendix is missing? — Appendix B is referenced in Sections 5 and 9 but does not appear in this edition.

Appendices

Appendix A — Organization Chart (see Fig. 3, Section 11).

Appendix C — Approved Vendor List (referenced in Section 12; full vendor table maintained by Procurement separately).

Appendix B, referenced in Sections 5 and 9, is not included in this edition.
